Tissue sectioning/ problems and solutions	The healthy and proper way to wear and take off the mask	non	Effect of commercially prepared and available nanoparticles on the gene expression of tumorigenesis genes	.1
Drug prevention and recommendations in this regard	Fighting viral infections		Applications of pigments produced by <i>Pseudomonas aeruginosa</i>	.2
Histological slicing of plant samples	The importance of preventive measures		Metabolic complications associated with chronic kidney disease	.3
Calculation of the absolute number of target gene and virus genome	Immune response to corona virus.		Antibiotics produced by <i>Actinomycetes</i>	.4
The use of artificial intelligence in diagnosis	Corona virus prevention		Environmental pollution assessment study in Oil Field 1, West Qurna, Basra Governorate	.5
Online workshop on the ethics of scientific research	People most at risk of contracting COVID-19		Morphological and molecular study of fungi associated with yellowing and pallor symptoms on wheat plants in some fields in the north of Basrah Governorate.	.6

workshop on administration and injection methods for laboratory animals	What is the reality of the Corona virus?		Isolation and purification of lethal toxins produced by some yeast strains and testing their activity against bacterial and fungi	.7
	A lecture on the importance of home quarantine.  The difference between an epidemic and a pandemic		Heterogeneity in male chromosome and mitochondrial DNA in the Basrah community	.8
	E-learning in light of the Corona pandemic		The effect of stress on the formation of free radicals and production sites in the plant	.9
	Biological pollution and the corona pandemic		The use of microRNA in gene therapy for cancer patients	.10
	convalescent plasma		Toxic effect of ink extracted from cephalopod ink on the growth of cancer cells	.11
			Enterotoxin gene expression in Staphylococcus aureus isolated from milk and milk products	.12

			Isolation and identification of the larval stages of parasites from gastropods, nymphs, and mosquito larvae.	.13
			Biodiesel production from oils-collecting fungi	.14
			Vitamin D level and bone disease in chronic kidney disease patients	.15
