

The Improvement Plan

Introduction

Based on the importance of continuous improvement to preserve the educational process, scientific research and community service, it was necessary to make a plan to improve the situation of the college with an improvement plan within the standards of institutional accreditation.

First: The most Important Points of Non-Fulfillment of the Elements of Institutional Accreditation Standards:

1. The First Criterion: the Strategy of the Educational Institution.

-Lack of infrastructure and scientific laboratories.

2. The Second Criterion: Governance and Management.

-There are no decentralized management.

3- The Third Criterion: Financial and Material Resources.

-Lack of financial resources allocated for theoretical research.

4- The Fourth Criterion: Faculty Members.

-Lack of suitable places for the faculty members.

5. The Fifth Criterion: Students.

- Lack of the ability to support the students materially and administratively.

6. The Sixth Criterion: Scientific Research.

-Lack of resources of the scientific research.

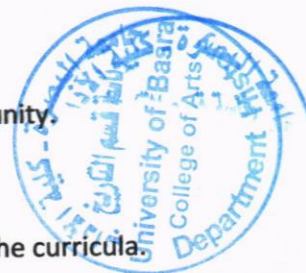

7.The Seventh Criterion: Community Service.

-Lack of research and theses that support community.

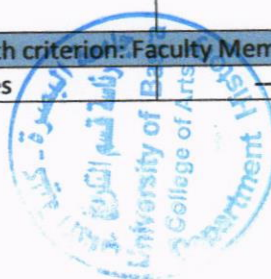

8.The Eighth Criterion: Curricula.

-There is no intention for joint action to change the curricula

Second: the Improvement Plan

The first criterion: the Strategy of the Educational Institution						
No.	Weaknesses	Activities Required	Implementation Procedures	Responsibility	Time Period	
					From	To
1	The college does not have studies and proposals for legislation, laws and regulations for the transition to decentralization	none	-----	-----	2021	2023
2	There are no contributions from the college in activating the legislation that encourages the transition from centralization to decentralization in institutional performance	none	-----	-----	2021	2023
The second criterion: Governance and Management						
3	Stakeholders do not participate in the preparation of legislation and laws related to community service	none	-----	-----	2021	2023
4	There are no health insurance systems	yes	-----	-----	2021	2023
5	The university does not have a system of ethical controls for the use of modern technologies	yes	-----	-----	2021	2023
The third Criterion: Financial and Material Resources						
6	The financial plan does not include sufficient financial resources to face potential risks	yes	-----	-----	2021	2023
7	The college needs new infrastructure	yes	-----	-----	2021	2023
8	Lack of laboratory equipment and the existing ones are outdated	yes	-----	-----	2021	2023
9	Lack of availability of good laboratory practice GLP	yes	-----	-----	2021	2023
10	Unavailability of allocations for a large number of budget sections	yes	-----	-----	2021	2023
11	The educational institution does not have a sufficient number of classrooms, faculty members offices, workshops and laboratories	yes	-----	-----	2021	2023
The fourth criterion: Faculty Members						
12	Lack of the college's ability	yes	-----	-----	2021	2023

	to provide the research requirements for the faculty members					
The fifth criterion: Students						
13	The college does not have a unit that determines the needs of students and provides the appropriate services and programs to study those needs	yes	-----	-----	2021	2023
14	The college does not have a unit to support students with special needs	yes	-----	-----	2021	2023
15	The college does not have an organizational unit to follow up on graduates, follow up on their employment opportunities, and establish a database that includes alumni follow-up	yes	-----	-----	2021	2023
16	There is no organizational unit in the college that conducts field studies that give indications of potential job opportunities	yes	-----	-----	2021	2023
17	The college needs to work on expanding scholarships by connecting with reputable international universities	yes	-----	-----	2021	2023
18	There is no representation for students in the higher administration of the college, to benefit from their opinions and ideas	yes	-----	-----	2021	2023
The sixth criterion: Scientific Research						
19	Lack of marketable research and research with practical application	yes	-----	-----	2021	2023
20	Not linking the college website to international electronic Journals	yes		-----	2021	2023
21	The mismatch of postgraduate studies outputs with the problems in the public and private sectors	Kind of	-----	-----	2021	2023
22	Lack of research and projects of a collaborative nature with researchers	yes		-----	2021	2023
