***Fifteenth: 1- Analysis of the plan and implementation rates of the previous year:** - Most of the paragraphs of the scientific plan have been completed, especially with regard to the scientific aspects. As for the administrative aspects, issues remain unfinished due to several obstacles that we will address through paragraph No. 2

2- Obstacles that prevented the implementation of the plan:

A. The main obstacles are related to the administrative aspects and services that the Deanship was supposed to follow up.

B. Weakness in the availability of research and study environments due to the weakness of the services that should be available Correctly in the scientific section As there is a reluctance in services by those responsible for Providing all requirements for the success of scientific and administrative work.

3- Suggestions and alternatives:

A/ Follow up on all details related to services and administrative issues.
