Examination instructions No. 134 for the academic year 2020

These instructions apply to universities, the Technical Education Authority, colleges and institutes of each one of it.

Article 2.

First - the college council or the board of the institute shall be determined by the proposal of the board of the department or branch in the college which does not have sections of the number and type of examinations and how they are conducted and calculate their ratios that the degree of pursuit is not less than 30 percent thirty percent and not more than 50 percent of the final grade except topics of a practical and applied nature which are determined by the university or the Council of the Technical Education Authority.

Second: Final examinations in the final grades for medical schools shall be inclusive of some subjects determined by the College Council and calculating annual average of sixth grade subjects in medical colleges, 20% of the final grade.

Article 3.

First - the final quarterly or annual examination for the first and second attempts is confidential in all subjects.

II- The quarterly or annual exam includes the items of the subjects scheduled during the semester or year. The duration of the study for the quarterly lessons should not be less than 15 (fifteen weeks) and for the Annual 30 (thirty weeks) and does not include final exam days and holidays.

Article 4.

The faculty member is committed to programming the items of the subjects he studies with the distribution of grades of the Annual average and final exam and to be announced at the beginning of the school year and the announcement of the degrees of Annual average for the students for up to five days before the start of the final exams through the department after Approval of the head of the department or the head of the branch in colleges that do not have sections and the student is allowed to object to the degree or correcting the error during the period mentioned.

Article 5.

Suggested by the dean, the college or the institute council constitutes a permanent examination committee for running the examinations.

Article 6.

The smallest success score (50%) is 50% for each subject.

Article 7.

Each of the two quarterly subjects in the colleges that adopt the quarterly system calculates an annual subject as One unless the number of hours of the quarterly subject is equal to the minimum number of the studying hours for the one subject is permissible in the school year.

Article 8.

First- the student who fails half of the subjects or less in the first round exams is allowed to perform the Second-attempt exams in the subjects in which he failed 0; otherwise he/she is considered a first- attempt failure except for students in the final class in medical schools.

Second- If the student is considered a failure in either of the first or second attempts repeats the year in attendance and examinations in all the subjects in which he failed as well as in which he received a fair rating taking into account what Article 18 of these instructions has in the provisions.

Thirdly, the student who fails is exempted from deleted topics and is demanded by the subjects that are started in his Class when changing the curriculum that does not lead to his moving to a higher class or graduating unless he is not required for a subject, taking into account what is mentioned in the item.

Fourthly, if the student succeeds in all subjects at the school stage in which he is and his sedimentation In some of the subjects loaded from a lower class he is successful for the next class and remains loaded with the subjects in which he failed and he has to succeed in the following year even if he succeeds in the subjects of the next class.

Article 9 –

The student is considered a failure in any subject if his absentees exceed (10%) ten percent of the hours scheduled for this subject without a legitimate excuse or (15%) fifteen with a legitimate excuse approved by the College or the Institute council.

Article 10 –

For the student to participate in the second round exams if he does not participate in the examinations The first attempt with an approved excuse by the College Council or the Institute supported by official documents and in one of the following cases:

- 1. Sudden illness.**
- 2. The death of one of his relatives in the first degree**
- 3. Run over accidents**
- 4. Sudden arrest**

Article 11 –

Subjects of a practical or practical nature that are not in them are excluded Final exam from the performance of the second attempt exam and determined by the college council or institute at the beginning of the year is announced to the students.

Article 12 - The second attempt exam may not be postponed in any way.

Article 13 –

10 (ten grades) of the final degree of the subject are cut from the subject in which the student succeeded in the second attempt when calculating the rate except success to a fair rate so that it is 50% of that subject.

Article 14 - The department Council prepares the final results and submits them with its recommendations to the College Council or The institute for approval and announcement except for the final – class grades to be approved by the president of the university or the president of the Technical education.

Article 15.

First- The student rate is calculated on the basis of the grades he obtained in each subject and takes into account the number of credits per subject.

Second: The credit is a theoretical hour-long effort per week for 15 (15 weeks)

Third . Every two practical hours of college is equivalent to one theoretical hour and every three practical hours are equivalent to an hour and a half, but at the institute, the practical hour is equivalent to a theoretical one.

Article 16-

First - The graduation level of the student is calculated according to the following:

A. For a two-year study where the ratios of years to calculate graduation level as follows:

The first year is 40 percent.

Second year 60% sixty percent

B- In studies of 4 (four years), the distribution of the ratios of years is as follows:

First year 10% ten percent

Second year 20%

Third year, 30 percent.

Fourth Year 40 percent.

C- In studies of 5 (five years), the distribution of year ratios is as follows:

First year 5% five percent

Second year 10% ten percent

Year 3 15% fifteen percent

Fourth year, 30 % thirty percent.

Year 5 40% forty percent

D- In studies of duration (6 years)

First year 5% five percent

Second year 5% five percent

Third year 5% five percent

Year 4 20% 20%

Year 5 25% twenty-five percent

Year 6 40% Forty percent

Second. The graduation rate is calculated by multiplying the student rate per year in the percentage indicated in the total for school years is the student's graduation rate.

First - The results are announced by the following estimates to determine the level of the student among the successful in terms of grades- :

A Distinction matched by 90 degrees, 90- 100 hundred.

Very good, 80, 80, 89, 89, 89.

Good, 70 degrees, 70, 79, 79.

Average 60-69, 69.

Fair is matched by grades 50 fifty-five nine fifty-nine

A failure that corresponds to 49 degrees forty-nine and below.

Second- modify the fractions of the degree to one degree if it is half or more for one subject.

Article 18-

First - to the University Council or the Board of the Authority on the recommendation of the University Council or the Institute calculating

A year of failure of the student who failed in subjects in which he did not participate in the second attempt in the Second year if he submits a medical report certified by a specialized committee in the Ministry of Health. Because of reasons that are out of his control or for force majeure in the exam period, the college board or the institute are convinced.

Second- To the University Council or the Board of the Authority on the recommendation of the College Council or the Institute allowing the student to fail in the year ending two consecutive years and his failure was in the second year with one annual subject or two quarterly subjects to take the exam in the third year. His position on military service is sound and he has not spent the time allowed to remain in the College or institute.

Article 19 - The student's relationship with the college or institute ends in one of the following cases:

First- If he fails two consecutive years in his class.

Second - If the student exceeds twice the prescribed period of study in his specialty including years of Failure, failure, postponement and any other years added to the student or when moving to another study.

Article 20 –

If the student is found to have cheated or attempted to cheat in any of the daily exams or weekly, monthly or quarterly final is considered a failure in all subjects for that year and if this is repeated, he will be displaced from the college or institute and removed from its records.

Article 21-

First- The student should postpone his studies for one year for legitimate reasons convincing for the college council or The institute. He must submit the request for postponement at least 30 days before the start of the final exam.

Second. the president of the university or the president of the authority can postpone the student's study for a second year and for legitimate reasons that are convincing to submit the request for postponement before thirty upon the recommendation of the college council or the institute at least one day before the beginning of the final exam.

Thirdly, it is not permissible to postpone the student's studies in colleges or institutes that follow the quarterly system in the second semester, unless it's out of his control and he's successful in the classroom. The first, in this case, is the postponement of the entire school year.

Fourth- To the minister or his authorized university presidents or the authority on the recommendation of the University Council or the technical education authority for legitimate reasons convinced to postpone the student's study for a third year taking into account Article 19 of these instructions.

Article 22 - The exam instructions shall be abolished number 7 (for the year 1989(

Article 23- These instructions are published in the Official Gazette and are considered to be a window from the school year

2001 / 2000.
