**ADMINISTRATIVE
PART**

THIRD SEMESTER ACTIVITY

Administrative and legal Part

1- Acadimic Staff:

- Transfer and placement for Acadimic Staff:

t	Full Name	Scientific title	Workplace	Observations	Order Date
1	Alaa Yacoub Rahi	Assistant Professor	University of Sumer	Placement to the Faculty of Pharmacy	22/8/2022
2	Muhammad Ali Jaber	Assistant Professor	Polymer Research Center	Placement to the Faculty of Medicine	19/9/2022
3	Ali Shahit Saadoun	Lecturer	Faculty of Arts	Transfer to the College of Education - Qurna	25/7/2022
4	Alia Hadi Salem	Lecturer	Faculty of Arts	Placement to the Gulf Studies Center	7/9/2022
5	Alaa Karim Nima	Professor	Faculty of Agriculture	Placement to the International Classifications Unit	27/9/2022
6	Wasan Hassan Ghani	Assistant Lecturer	Faculty of Medicine	Placement to the Training Center / Al-Sadr Teaching Hospital	6/10/2022

- Modifying and changing the scientific title of Acadimic Staff: -

t	Full Name	Scientific title	Workplace	Observations	Order Date
1.	Dawood Salem Rasan	Assistant Lecturer	Faculty of Engineering	Changing his scientific title to lecturer	17/7/2022
2.	Ahsan Nazim Jawad	Assistant Lecturer	Faculty of Engineering	Changing his scientific title to lecturer	17/8/2022

3.	Nour Hatem Abees	Assistant Lecturer	Faculty of Engineering	Changing her scientific title to a lecturer	6/10/2022
4.	Assem Nasser Darrag	Assistant Lecturer	Faculty of Agriculture	Changing his scientific title to lecturer	6/10/2022

- Reappointment of Academic Staff:- None
- Resignation for Academic Staff: -

t	Full Name	Scientific title	Workplace	Observations	Order Date
1.	Hassanein Sami Abd El Hadi	Assistant Lecturer	Faculty of Engineering	Resignation	24/7/2022
2.	Jinan Nima Muhammad	lecturer	Faculty of Pharmacy	Resignation	6/10/2022

- Retirement for Academic Staff: -

t	Full Name	Scientific title	Workplace	Observations	Order Date
1.	Haifa Abd El Nabi Jassim	Professor	Faculty of Science	Retired for reaching the legal age	25/7/2022
2.	Hanaa Kazem Mousa	Professor	Faculty of Science	Retired for reaching the legal age	25/7/2022
3.	Khalid Abdul galil Abdul razzaq	Professor	Faculty of Engineering	Referred to retirement for reaching the legal age	14/8/2022
4.	Saad Matti Boutros	Professor	Faculty of Engineering	Referred to retirement for reaching the legal age	21/8/2022
5.	Abdul sattar Abdul latif Abdul zahra	Professor	College of Education for Human Sciences	Referred to retirement for reaching the legal age	22/8/2022
6.	Hadi Salman Abbas	Professor	Faculty of Science	Referred to retirement for	22/8/2022

				reaching the legal age	
7.	Nabil Abdul razzaq Jassim	Professor	Faculty of Engineering	Referred to retirement for reaching the legal age	22/8/2022
8.	Abdul mahdi Saleh Hussein	Professor	Faculty of Agriculture	Referred to retirement for reaching the legal age	22/8/2022
9.	Abdul redha Faraj Badrawi	Professor	College of Business and Economics	Referred to retirement for reaching the legal age	24/8/2022

Deceased Acadimic Staff: - None

t	Full Name	Scientific title	Workplace	Observations	Order Date
1.	Ayad Ibrahim Abdul sada	Professor	College of Education for Pure Sciences	Death	29/7/2022

ADMINISTRATIVE AND LEGAL PART

- Employees
- Transfer and placement of employees:

t	Full Name	Job Title	Workplace	Observations	Order Date
1.	Ali Jalal Murshid	First craftsman	Diwan Affairs Section	Transfer to Construction and Projects Department	17/7/2022
2.	Manal Nazim Abd El Hussein	Technical Observer	Diwan Affairs Section	Transfer to Construction and Projects Department	17/7/2022
3.	Amal Saleh Taher	R. Designers	Student Activities Section	Transfer to Al-Zahra College of Medicine	17/7/2022

4.	Wessam Abdul redha Salem	First craftsman	College of Education for Human Sciences	Transfer to Dar Al-Kutub Directorate for Printing and Publishing	17/7/2022
5.	Ali Yousef Ismail	Fourth lecturer	College of Education for Girls	Transfer to Student Affairs Department	19/7/2022
6.	Ghaida Abdul zahra Jumaa	Warehouse Manager	Faculty of Physical Education	Transfer to the College of Education for Girls	24/7/2022
7.	Hind Abdul khaliq Nasser	Observant	Retirement Division	Transfer to database module	24/7/2022
8.	Mustafa Muhil Thamer	Older craftsman	Internal Departments Affairs Section	Transfer to Diwan Affairs Section	25/7/2022
9.	Jawad Kazem Hassan	Eng. Head of craftsmen	Diwan Affairs Section	Transfer to Dar Al-Kutub Directorate for Printing and Publishing	26/7/2022

Third Conference:

Prof. Dr. Ihsan Idan Al-Simri, a lecturer in the Microbiology Branch / College of Medicine, University of Basrah, participated in the Fifth International Conference and Exhibition for Patents, Creations and Innovations, under the auspices of the Presidency of the University of Sulaymaniyah and the College of Medicine, University of Sulaymaniyah, and in cooperation with Al-Nahrain University, Swedish Crown University and Al-Maarif University College for the period from 17-19 August 2022. The conference is organized by the French International Center for Scientists and Inventors, Iraq Branch, with the International Friendship Organization. Al-Simri

received the Medal of Creativity and won the award for the best patents participating in the exhibition for his patent tagged: Preparation of a new global vaccine for human skin eczema

Date of Meeting: 2022/8/19-17

Conference link to the conference: <https://med.uobasrah.edu.iq/news/19210>

Fourth Conference :

The College of Computer Science and Information Technology at the University of Basrah organized its first international conference tagged "Iraqi International Conference on Communications and Information Technology "IICCIT2022", whose opening session was held at the Oil Cultural Center in the presence of the ministerial delegation, where he opened the proceedings of the conference by listening to a verse from the Holy Quran and playing the republican peace by the choir team of the Naval Academy and reading Surat Al-Fatihah on the souls of the righteous martyrs of the homeland, followed by the speech of the President of the University of Basrah, which was initiated by "And you have only a little knowledge." In which the attendees of the university's interest in the scientific and administrative aspects and what it has strived to develop and provide advanced curricula and educational bags that can be updated and modified and the development of new faculties, departments and lessons that are compatible with technological developments to ensure the labor market. The conference, which was held by the college in cooperation with the Department of Computer Engineering in the College of Engineering and the Department of Computer Science at the College of Education for Pure Sciences at the University of Basrah and the College of Shatt Al-Arab Al-Ahlia University and under the scientific sponsorship of the IEEE Foundation Iraq Branch, and the Iraqi communications chapter, and the smart calculation chapter through the submitted research papers, which approached 70 research papers submitted by Iraqi, Arab and foreign researchers, aims to discuss New practical and theoretical developments and technologies in the fields of computer and communication engineering, control engineering, computer science, information technology and their applications.

Date : 11/9/2022

Link : <https://uobasrah.edu.iq/news/5380>

Fifth Conference:

The College of Medicine at the University of Basrah organized the first evaluation conference for the evaluation exams for the colleges of the medical group under the slogan of reality and ambition, and the conference included several axes, including the scientific axis, which aimed at the importance of the type of questions and the appropriateness of the questions for the curricula, student results, the college's plan to obtain better results and develop the performance of the exam statistics, including success rates, and all paragraphs were addressed in terms of pros and cons. And the technical and logistical axis, which discusses the exam platform, the electronic correction device, the accuracy of timings, electronic correspondence, the confidentiality of questions and electronic correction methods and their conformity with other colleges. In addition to the axis of analyzing the results to evaluate students and professors with specialization from the staff, externals and retirees in the entire experience.

Date : 21/9/2022

Link: <https://uobasrah.edu.iq/news/5419>

Sixth Conference:

Under the patronage of the respected President of the University of Basrah, Prof. Dr. Saad Shaheen Hammadi, and headed by the Dean of the College of Arts, Prof. Dr. Majid Abdul Hamid Al-Kaabi, and under the supervision of the Assistant Dean for Administrative Affairs, Prof. Dr. Muhammad Abdul Kazem Al-Khafaji, and the Assistant Dean for Scientific Affairs, Prof. Dr. Haider Abdul Reda Al-Tamimi, and in the presence of the heads of scientific departments and under the slogan of scientific calendar, we achieve our scientific, educational, administrative and educational goals. The College of Arts held on Sunday, 2 /10/2022 Its annual evaluation conference for preliminary and postgraduate studies for the academic year 2021-2022 under the title (Indicators of scientific evaluation in light of blended education between theory and practice).

The conference opened with verses from the Holy Quran and the reading of Surat Al-Fatihah

on the souls of the martyrs and the playing of the national anthem, and the Dean of the Faculty, Prof. Dr. Majid Abdul Hamid Al-Kaabi, reviewed part of the activities of the Faculty of Arts to develop the educational and educational process at the level of primary and postgraduate studies, as the Faculty of Arts opened up to international universities and contributed to the presence and participation of

distinguished professors through the Internet and virtual lectures, which exceeded forty lectures and from various international universities, starting from Canada and ending with Italy. Scientific through the virtual world and with regard to the attendance activity and how a number of professors and researchers contributed to supporting and developing academic research, as the Faculty of Arts hosted a number of researchers and foreign students. The Assistant Dean for Administrative Affairs addressed the tasks and responsibilities of the Human Resources Division in terms of (its tasks and achievements and the preparation of lecturers and employees) and the tasks of the Accounts Division (Financial Services and Achievements) and the Audit and Internal Control Division, the Legal Unit and the Maintenance Unit (Generator Maintenance and Cooling Device Maintenance), the tasks of civil defense, how to address fires and services. The Dean for Scientific Affairs in an explanatory video The teaching staff of the college according to the certificate, department and scientific title for preliminary studies in terms of (additions to the teaching staff and external lecturers), the admission plan for postgraduate studies and for morning and evening preliminary studies, success rates for postgraduate studies and for preliminary studies (morning and evening), graduate graduates, scientific activities of the college, scientific promotions completed for the college, college library assets and delegations for the scientific aspect.

Date : 2/10/2022

Link : <https://uobasrah.edu.iq/news/20147>

Seventh Conference:

The two lecturers at the College of Science at the University of Basrah, Dr. Maher Mandeel, and

the lecturer, Dr. Sani Elia Zarzis, participated in the Fifth International Scientific Conference Geo-Kurdistan at the University of Sulaymaniyah, where they presented a scientific research entitled The Study of the Sedimentary and Desert Model for the Formation of the Lower Cretaceous Shuaiba for Selected Bars in Southern Iraq

Microfacies and depositional model of the Shuaiba Formation (Lower Cretaceous), in selected wells Southern Iraq ,

The research included the most important micro-facies of the formation of Shuaiba in multiple fields of Basrah Governorate in order to reach a sedimentary model representing the environment of the formation of Shuaiba and the results found that the formation was deposited in gradient environments from deep environments to restricted environments where deep sediments represented by the external platform environments covered over the sediments of the Zubair formation, which indicated a rapid broad marine progress that led to the sinking of the platform quickly so that the floating organisms formed most of the existing facies and then the sea began to gradually retreat During the end of the Eptien period, down to the crumbly sediments represented by the formation of the Omar River.

Date:4/10/2022

Link:<https://uobasrah.edu.iq/news/5461>

Eighth Conference:

The College of Information Technology and Computer Science at the University of Basrah

organized its annual calendar conference for the academic year 2021-2022, during which the Dean of the College, Dr. Salma Abdul Baqi, reviewed the most important achievements of the college for the past academic year and its achievements at the scientific level, infrastructure, obstacles it faced, and how to find appropriate solutions in this year to reach advanced positions in local and international classifications, achieve scientific sobriety in graduate and primary studies, and provide a suitable environment for our students to complete his scientific career and the

Commission Administrative and teaching in the college.

Date:9/10/2022

Link: <https://uobasrah.edu.iq/news/5488>

The Ninth Conference:

The College of Pharmacy at the University of Basrah held its annual calendar conference for the academic year 2021-2022, where the Dean of the College, Dr. Falah Hassan Sherri, presented some of the college's achievements and the success it achieved during the past year in the scientific, administrative and community service field, as the college's activities in developing its level had the greatest echo through international classifications, the level of graduate and primary studies, and the extent of interaction and contribution of professors to scientific events, including workshops, seminars and international and local electronic lectures that Dr. Gibran Khalil Hassan reviewed the themes of the conference, which included the virtual and in-person scientific aspect and how the teaching staff in the college contributed to a radical change in the level of education and support scientific and research activity in all fields that serve the community, as well as at the level of preliminary studies, biosafety was introduced within the curricula of the second stage of the preliminary study and updating the curricula of some lessons such as pharmaceutical chemistry and medical drugs, in addition to Jubran also addressed his review of the college's achievements, including obtaining an advanced position in the national classification of Iraqi universities on the faculties of the medical group at the University of Basrah, as well as obtaining the first place in the development of websites at the University of Basrah, the second place in the university's electronic week and the first place for the university's warehouse week.

SYMPOSIA

SCIENTIFIC
PART

Seminars held at the University of Basra

First Symposium:

The College of Law at the University of Basra organized a scientific symposium on the student's duties and rights in Iraqi law.

The seminar was attended by the teaching professor at the college, Etidal Abdul Baqi Yusuf, during which she explained the student's duties, rights and guarantees. She stressed the need to stay away from corruption and confront it and

achieve the desired integrity through the active role of students in society to serve the scientific and educational process in Iraqi universities.

Date // 25/7/2022

Link///<https://uobasrah.edu.iq/news/5234>

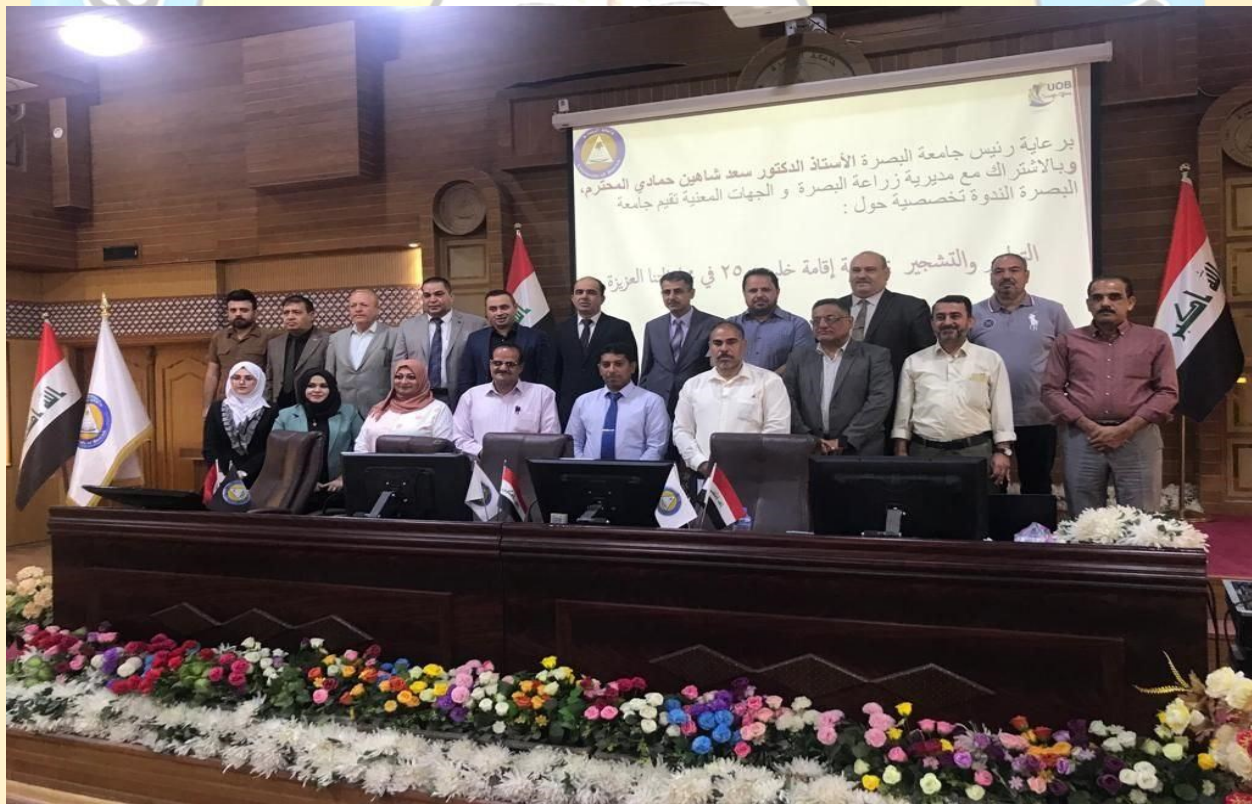

Second Symposium:

The College of Education for Girls organized an electronic seminar entitled (Investing Time to Become a Successful Person) under the supervision of (Prof. Dr. Hanaa Abdel Nabi Kabin and Dr. Buthaina Sabti Odeh) based on the powers vested and in support of the Reda project and in cooperation with the Educational Guidance Unit.

Date of Held: 2022/7/27

Third Symposium:

The University of Basrah, in cooperation with the Directorate of Agriculture and some concerned departments, organized a seminar on the initiative to perpetuate and afforestation of green areas in the province in preparation for the Gulf 25 Championship. This seminar aims to discuss the appropriate plans and mechanisms for the campaign to develop existing public parks and rehabilitate and afforestation of green areas in order to show the city in the best image in front of the guests of the Gulf 25 Championship. The seminar included a presentation of the current reality of green spaces in the center of the governorate, especially the areas surrounding the sports city and the main streets, and a discussion of the proposal for the possibility of afforestation and rehabilitation in light of the current challenges of high salinity and temperature. Shaheen added that there will be an electronic platform to organize the process of joining volunteers from outside the university and a platform for experts from the University of Basrah and the concerned departments wishing to participate in this initiative, taking into account that we do not intersect with the projects referred by the local government, and God willing, this initiative will continue beyond the Gulf 25. The Director of Agriculture of Basrah, Hadi Hussein Qassim, pointed to the importance of cross-pollination of ideas between Scientific institutions and technical institutions, which results in positive secretions, including this initiative, as Basrah is exposed to major climatic changes, including weak vegetation cover and lack of green spaces, and these challenges lead to changing the environmental reality of the province, and that this initiative, if applied, will add an aesthetic touch to the city.

Date : 28/7/2022

Fourth Symposium:

The College of Education for Girls at the University of Basrah participated in the international symposium on Orientalism and Imam Hussein (peace be upon him) The symposium, in which the lecturer Abbas Qasim Attia from the Department of History and established by the Heir of the Prophets Foundation of the Holy Husseiniya Shrine, included the interest of Orientalism in the Husseini Renaissance, which took a wide space in their writings, and shed light on its characters participating in this Renaissance. and Husseini monuments and monuments, as well as literary and artistic studies of orientalist on the Husseini Renaissance.

Date: 2/8/2022

Fifth Symposium:

The College of Education for Girls organized an electronic seminar entitled (Self-Management Strategies) within the visiting professor program by Dr. (Alia Mamdouh Anwar), a lecturer at the University of Basrah, Ain Al-Shams / Arab Republic of Egypt - Department of Geography at the College of Education for Girls.

Date of Held: 11/8/2022

Sixth Symposium:

The Continuing Education Unit at the College of Education for Girls organized a seminar on "The Psychological and Social Causes and Effects of Drug Abuse and Ways to Treat Them ", which was held by the lecturer (Dean Basseem Ghanem - Prof. Dr. Shatha Abdul Latif Majeed - Assoc. Prof. Dr. Hana Abdul Nabi Kabin) on the Google Meet platform .

Date : 15/8/2022

Seventh Symposium:

The Continuing Education Unit at the College of Education for Girls organized a seminar on "Effective Teaching Skills", which was held by the lecturer (Eng. Iman Jassim Muhammad Ali - Eng. Saif Jassim Muhammad Ali) on the Google Meet platform .

Date : 19/8/2022

Eighth Symposium:

The Continuing Education Unit at the College of Education for Girls organized a seminar on "The Role of Women in the Husseini Revolution (Sayyeda Zainab A. Exemplary)", which was held by the lecturer (Assoc. Prof. Dr. Hassan Thajib Al-Rikabi - Assoc. Prof. Dr. Hana Sadiq Al-Badran - Assoc. Prof. Dr. Hana Abdel Nabi Kabin) on the Google meet platform .

Date : 20/8/2022

Symposium:

The Continuing Education Unit at the College of Education for Girls organized a seminar on "Positive Behavior in the Face of Daily Problems", which was held by the lecturer (M.M. Boys Siwan Khazal) on the Google meet platform .

Date : 23/8/2022

Tenth Symposium:

The Department of Historical Studies at the Basrah and Arabian Gulf Studies Center at the University of Basrah organized a scientific symposium entitled (Iraq in the Royal Era - Analysis and Evaluation of the Royal Experience in Iraq) and the symposium dealt with the measures taken by the government during the royal era during the economic crisis (1929-1933) and training and education programs for military leaders, clerics, education and the constitutional system.

Date : 27/9/2022

Seminar link: <https://uobasrah.edu.iq/news/5456>

Eleventh Symposium:

The College of Education for Girls at the University of Basrah organized a seminar on psychological and educational preparation for the entry of the new academic year, the seminar included identifying the psychological pressures that lead to the causes of university failure and what steps must be followed to alleviate psychological pressure. The seminar recommended activating the role of the family in preparing its children to study and what ideas, beliefs and perceptions that the student must prepare psychologically for the start of the new school year.

WORKSHOPS

**SCIENTIFIC
PART**

Workshops held at the University of Basrah

First Workshop:

The Center for Development and Continuing Education at the University of Basrahh organized

an online workshop on monkeypox. The aim of the workshop was to introduce the participants to the importance of monkeypox and its danger to societies, and the workshop, presented by Prof. Dr. Kamal Al-Din Muhalhal Al-Saad, included identifying monkeypox after it was commonly spread in many African countries first and then some countries of Europe and America, as well as discussing the epidemiology of this disease and presenting the clinical symptoms that characterize it with the definition of the methods of transmission from animals to humans and from humans to humans,

knowing the methods of its treatment and prevention, and explaining the cause of the disease Methods Transmission The epidemiological situation of the disease now Symptoms of the disease Possible treatment of the disease Control and prevention In the end, the recommendation was to take preventive measures followed from washing hands, following up on sick or suspected cases if they appeared, reporting them, not mixing with infected patients or using their tools such as clothes and bedding, as well as following up on people in contact with infected people and informing the health authorities of that.

Date : 17/7/2022

Workshop link <https://uobasrah.edu.iq/news/5210>

Second Workshop:

The Department of Quality Assurance and University Performance at the University of Basrah

organized a workshop on the performance form of the scientific departments of the Iraqi classification of universities for the year 2022, in the presence of the deans and their assistants, as well as the directors of the quality departments in the colleges of the Bab Al-Zubair site and the medical group. The Director of the Department of Quality Assurance and University Performance at the

University of Basrah, Dr. Kazem Abdul Wahab Al-Asadi, said that this form will be circulated to all joints of our university to work with the speed and accuracy possible, and there will be a workshop in the near future for the Karma Ali College Complex.

Date : 23/7/2022

Link: <https://uobasrah.edu.iq/news/5239>

Third Workshop

The Information Technology Unit at the Faculty of Dentistry organized a workshop entitled (Networking), which started on 1/8/2022 for a period of (5) days, according to the details shown below:

Lecturer: (Najm Abdel Wadood Nehme Al-Jazaeri) Head of the Information Technology Unit.

Participants:

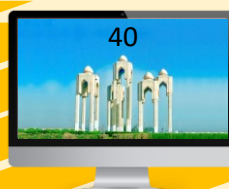

1. Saja Khalid Khorshid.
2. Hala Thaer Abdul Wahed.
3. Jahan Qasim Ali.
4. Maryam Abdullah Mohammed.

Attendance:

1. Muntaha Faraj Ahmed.
2. Zahraa Saeed Qasim
3. Sura Samer.
4. Banin Ihsan
5. Hind Walaa
6. Asaad Sobeih
7. Hatem Abdulkareem
8. Shaker view
9. Haidar Abbas
10. Noor Nasih
11. Basma Khaled
12. Hassanein Nidal
13. Hoda Khalaf
14. Mohammed Majid
15. Zainab Majed.

Date of Held: 1/8/2022

Workshop link:

Fourth Workshop:

The Faculty of Dentistry organized a training workshop entitled (First Aid) for the purpose of qualifying and employing graduates of the Faculty of Dentistry, in cooperation and coordination with the Federation and under the supervision of Dr. (Mortada Hadi Al-Fayyad) on Wednesday, 17/8/2022, as part of the scientific activities organized by our college for the academic year 2021-2022.

Date : 17/8/2022

Workshop link:

Fifth Workshop:

The Information Technology Unit at the College of Dentistry at the University of Basrah held a workshop for students of the fourth and fifth stages on the use of the educational clinics program, where the workshop was practical and theoretical.

In the theoretical aspect delivered by Mr. Najm Abdel Wadood Al-Jazaeri, responsible for the Information Technology Unit (program designer), Al-Jazaery addressed an introduction to the program, the reason for its design and its importance in providing academic researchers with important statistics that are used in scientific research, due to the multiplicity of pathological and therapeutic cases provided by educational clinics in the college.

Jazaery added that the program began to be used in

2016 and was modified and developed during this period five times to reach what it is today.

On the practical side, Dr. Ahmed Al-Momen dealt with how to remove the data of the patient data registration sheet (Case Sheet) and how to fill in the data, which was placed in the form of drop-downs and single and various choices to reduce the time of adding data and not to fall into spelling mistakes or writing misplaced information.

At the end of the workshop, the students' questions were listened to and answered by the lecturers.

Date of Held: 2022/8/29

Workshop link: <https://den.uoBasrah.edu.iq/news/19544>

Sixth Workshop:

Eng. Dr. Rafid Abdul-Jabbar Mohammed participated in the electronic training workshop tagged (How to continue the researcher in the series of the research plan he chose and develop his scientific results in the path he chose) organized by the Scientific Supervision and Evaluation Authority on Friday, 26/8/2022.

Date of Held: 2022/8/26

Seventh Workshop:

The College of Dentistry organized a training workshop entitled (First Aid) in cooperation and coordination with the International Federation of Medical Students / Iraqi Association of Medical Students on 10/8/2022 and under the supervision of Dr. (Murtada Hadi Al-Fayyadh) on Wednesday, 17/8/2022 as part of the scientific activities organized by the College of Dentistry for the academic year 2021-2022 and with the participation of students and employees.

Date of Held: 2022/8/17

Workshop link:

Eighth Workshop:

The Faculty of Dentistry, under the supervision of the Dean of the College and the Assistant Dean for Scientific Affairs, organized a training workshop entitled (Flap and Surgery oral in suture), which was lectured by Eng. Ahmed Ali Marashi, in which (11) participants participated.

Date of Meeting: 2022/8/14

Workshop link:

Ninth Workshop:

The Continuing Education Unit at the College of Education for Girls organized a workshop on "Question Banks, Requirements and Procedure", which was held by the lecturer (Prof. Dr. Muhammad Muhammad Fathallah) on the Google Meet platform .

Date : 2022/8

Workshop link:

Tenth Workshop:

The Department of Studies and Planning, in cooperation with the Department of Administrative and Financial Affairs at the University of Basrah, organized a workshop on the job description system in the presence of the concerned officials from the university formations. The workshop aimed to apply the principle of digital transformation and electronic governance through the work of the job description system and the rest of the new systems. The workshop, in which Dr. Diah Raysan Khudair, Director of the Data and Informatics Division at the University of Basrah, lectured, included a discussion of the

mechanism of switching from the paper system to electronic with regard to human resources and job descriptions, and how to update Data and conducting statistical operations, which in turn will serve the university in easy access to an integrated information base for all colleges and centers affiliated to it for more organization in terms of identifying the owners in all joints of the university.

Date of Held: 12/9/2022

Workshop link: <https://uobasrah.edu.iq/news/5384>

Eleventh Workshop:

The Director of the Information and Communication Technology Center at the university, Mr.

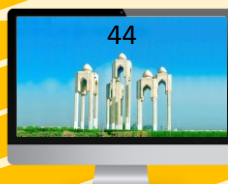

Kayan Abdul Aziz Al-Sabahi, stated that usernames and passwords were distributed to all colleges and departments at the University of Basrah and instructed to actually apply the correspondence and electronic archiving system and enter it into service. Dr. Saad Shaheen Hammadi We will be present in the presidency of the university as a living for a month to address all the problems that may appear during the work of the system. It is noteworthy that the Ministry of Higher Education and Scientific Research and the University of Basrah have taken

important and serious steps towards automation and electronic transformation through the intranet that enables its users to view the daily mail received from the presidency to colleges and centers and vice versa.

Date: 13/9/2022

Link: <https://uobasrah.edu.iq/news/5392>

Twelfth Workshop:

The College of Dentistry at the University of Basrah organized a workshop on the student's guide inside educational clinics and controlling the transmission of infection to teach students of the fourth and fifth stages controls and instructions for entering educational clinics. The workshop aims to build a solid professional foundation to prepare students to practice the profession of dentistry with high professionalism.

SEMINARS

**SCIENTIFIC
PART**

Seminars held at the University of Basrah

First Seminar:

The Continuing Education Unit at the College of Education for Girls organized a seminar on "The Damage of Vehicle Accidents on Public Roads and Ways to Treat Them", which was held by the lecturer (Prof. Dr. Khaled Hussein Ghalilib) on the Google Meet platform .

Date : 1/ 8/2022

Second Seminar:

The Continuing Education Unit at the College of Education for Girls organized a seminar on "Self-Management Strategies", which was held by the lecturer (Dr. Alia Mamdouh Anwar) on the Google meet platform .

Date : 5/ 8/2022

Third Seminar:

The Continuing Education Unit at the College of Education for Girls organized a seminar on "Affirmative Personal Skills", which was held by the lecturer (Prof. Dr. Shatha Abdul Latif Majeed) on the Google Meet platform .

Date : 15/8/2022

Fourth Seminar:

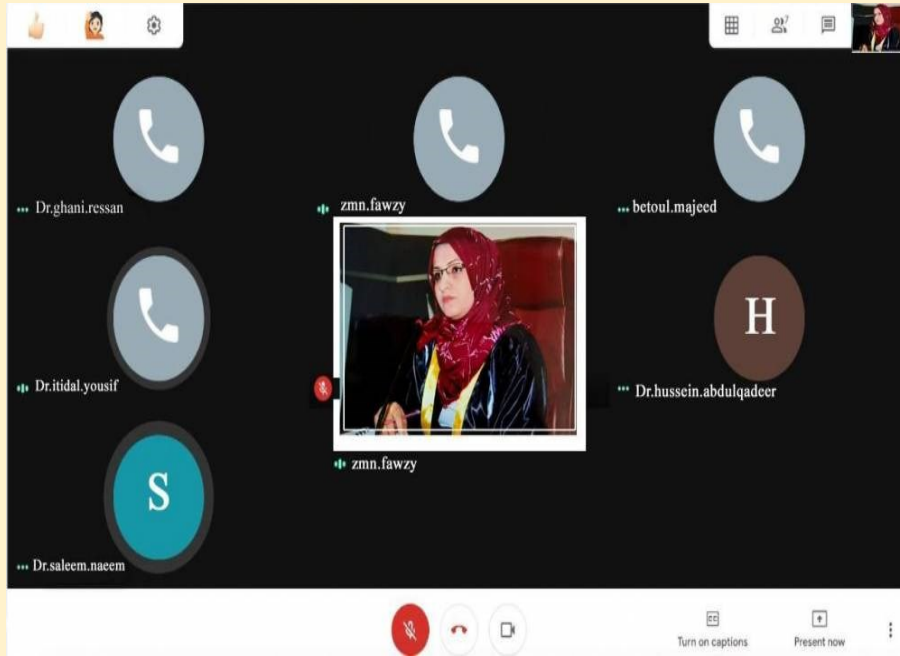

The Continuing Education Unit at the College of Education for Girls organized a panel discussion on "Herniated Disc", which was held by the lecturer (Dr. Doaa Jaafar Jaber) on the Google meet platform .

Date 25/8/2022

Fifth Seminar:

The seminar in which the researcher Zaman Fawzi Kata lectured to identify the lawsuit as a procedural right that gives its owner the right to put a specific claim to the judiciary through

what is known and the workshop dealt with the judicial requirements under which the plaintiff aims to obtain judicial protection by filing a lawsuit, while the defendant can pay the plaintiff's request with many defenses, some of which may lead to stop or delay the plaintiff's claim or grant him all or part of the judgment or the judgment not to accept it or the invalidity of

the actions taken by him or consider them as if they were not, and among these defenses that the defendant is entitled to pay are the substantive defenses and means the means submitted by the defendant, through which he aims to get the court to reject the plaintiff's request, and we dealt with through these and the episode showed that the legal regulation of these defenses we found that it is permissible Presenting these defenses in any case in which the case is filed, even before the closure of the pleadings.

Date : 23/8/2022

Link: <https://uobasrah.edu.iq/news/5300>

Sixth Seminar:

The seminar, in which Dr. Ali Nasser Hussein lectured, aims to estimate the function of the reliability of the fuzzy sequential system of stress and durability of the Whipple distribution, using the three estimation methods, which are the method of estimating the greatest possibility, the method of least squares, the method of contraction and the selection of the optimal method. Sequential The third axis dealt with the use of Whipple distribution in the sequential system.

reliability of the fuzzy sequential system of stress and durability of the Whipple distribution, using the three estimation methods, which are the method of estimating the greatest possibility, the method of least squares, the method of contraction and the selection of the optimal method. Sequential The third axis dealt with the use of Whipple distribution in the sequential system.

PATENTS

**SCIENTIFIC
PART**

Patents at the University of Basrah

First Patent:

The lecturers at the College of Pharmacy at the University of Basrah, Dr. Rafid Abdul Raouf Dulab and Dr. Muhammad Sabbar, obtained an American patent entitled (A new device to assess the permeability of drugs in the intestine using the technique of evaluating the acquisition of data evaluation) The patent included the method of transporting drugs through different barriers and membranes, which is important in terms of the pharmaceutical benefit of intestinal diffusion through biologic.

CERTIFICATE OF US PATENT

As a registered patent agency, we would like to certify that the inventors

Rafid A. Doulab & Mohammed S. Al-lami

have successfully registered the invention entitled

A new Ex Vivo Apparatus for Assessing Drug Intestine Permeability by Data Acquisition Assessment

as a provisional US patent issued by USPTO with filing application number 63358183

SCIENTIFIC
COLLABORATIONS

SCIENTIFIC
PART

Scientific collaboration

First Activity:

The Dean of the College of Pharmacy, Dr. Falah Hassan Sherri, said that the program included several axes, the most important of which is the exchange of scientific and academic experiences through the establishment of courses, workshops and conferences, and the exchange of visits of faculty members between the two parties on topics that achieve the public interest within the framework of the competence of the two parties, cooperation and conducting joint scientific research in different disciplines in the research centers of the two parties, as well as participation in the ownership of Or the use of high-cost scientific research equipment available to both parties, in addition to participating in seminars, conferences, seminars and training held by either party, training the first students in the initial university studies of each party at the other party, and other axes that are in the interest of education and keeping pace with the development in the field of higher education and scientific research

Date : 5/9/2022

Link: <https://uobasrah.edu.iq/news/5354>

Second activity

The College of Pharmacy at the University of Basrah signed an agreement with the Pharmacists Syndicate in Basrah in order to train graduate students on the most important findings of the pharmacy profession. The Dean of the Faculty of Pharmacy, Dr. Falah Hassan Sherri, said that the agreement concluded between the two parties on the intensive summer training for students of the fifth stage so that the pharmacist after graduation is

qualified to practice the profession and has enough information to manage the pharmacy without having to train in pharmacies for several months. Sherri added that this curriculum will be implemented and applied for the graduating batch for the year 2022/2023, and training for

the next batches will be intensive at the beginning of the summer vacation, and a committee consisting of the Pharmacists Syndicate and professors from the Faculty of Pharmacy has been formed.

Date : 5/9/2022

Link: <https://uobasrah.edu.iq/news/5353>

Third Activity:

The University of Basrah discussed ways of joint scientific cooperation with the Deputy Minister of Energy of the Islamic Republic of Iran, Dr. Rashidi. The President of the University of Basrah, Dr. Saad Shaheen Hammadi, discussed with the Deputy Minister of Energy of the Islamic Republic of Iran on the file of clean energy and the exchange of research in scientific fields, as well as the activation of the visiting professor, as well as joint workshops and training courses related to energy topics.

Date : 19/9/2022

Link: <https://uobasrah.edu.iq/news/5399>

Fourth Activity :

The University of Basrah and Ferdowsi University of the Islamic Republic of Iran signed a joint cooperation agreement in the academic fields and raising the scientific and research level, where the agreement was signed by the President of the University, Dr. Saad Shaheen Hammadi, with the President of Ferdowsi University, Dr. Dabti. The two sides agreed to exchange experiences and scientific research in the disciplines of medicine, pharmacy and engineering, as well as agriculture, education, arts and sports sciences. The two parties stressed the need to activate fellowships between the two universities and graduate studies and mutual scientific visits. The President of the University of Basrah, Dr. Saad Shaheen Hammadi, welcomed With this agreement, which will remain in force for years, confirming the university's openness to Arab and international universities.

**ENGINEERING
ACTIVITY**

MAINTENANCE OF UNIVERSITY EQUIPMENT AND SITES

First activity:

The University of Basrah attracted an amateur group consisting of doctors at the College of Medicine Al-Zahra, engineers and employees interested in the manufacture of electronic models with automatic control, where they officially joined the university and formed a remote control team of the University of Basrah. The team produced a controlled boat to collect water samples from the rivers for study and in record time and was tested in the Basrah River, where it collected (500) ml of water samples efficiently and very quickly. Al-Sada is now the first model of the boat ready for use by the university team to control the pollution of the Shatt Al-Arab water, and there are future projects that the team is currently working on, including the flying pharmacy and the controlled agricultural plane that sprays seeds to plant large areas of perennial trees, as well as a special plane to spray pesticides and finally boats to take mud samples from the bottom of the rivers.

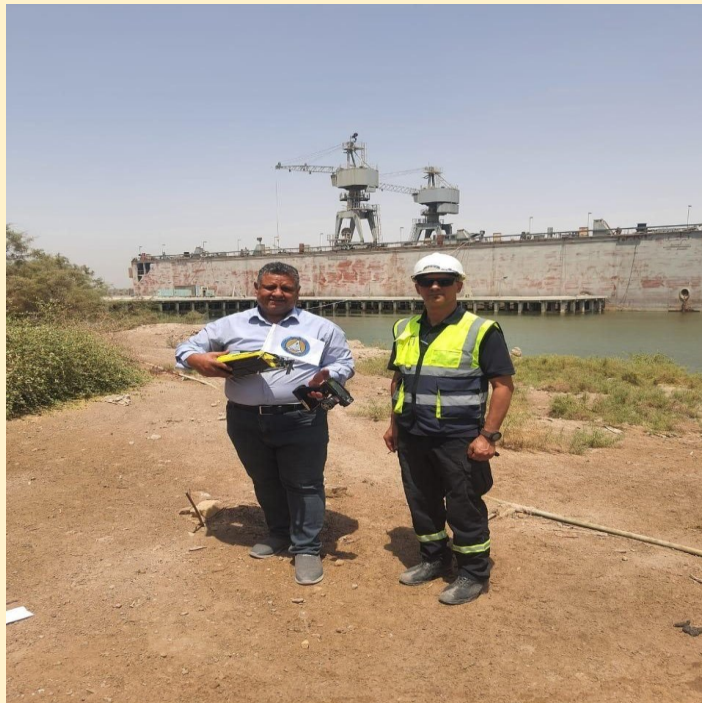

Date :7/8/2022

Link: <https://uobasrah.edu.iq/news/5270>

Second Activity:

The environmental scientific team of the University of Basrah announced the start of collecting

Shatt al-Arab water samples in order to study the percentage of salt pollution, and the head of the microbiology branch at the College of Medicine, Dr. Hussein Kata Abdul Sada, explained that in response to the city's need for urgent solutions to increase the percentage of salinity in the Shatt al-Arab water, the scientific team at the University of Basrah collected samples of Shatt al-Arab water, using the boat (ZMC1) manufactured by the RC team In the College of Medicine Al-Zahra. Stressing that 6 liters were collected from different regions for study, and the samples were delivered to the Marine Science Center to start

studying the level of pollution. It is mentioned that the University of Basrah has produced a controlled boat to collect water samples from rivers for study in record time and was tried in the Basrah River, where it collected (500) ml of water samples efficiently and very quickly.

Date : 22/ 8/2022

Link: <https://uobasrah.edu.iq/news/5296>

Third activity:

Within the university's projects for sustainability and to benefit from modern mechanization,

the University of Basrah concluded a contract with the Basrah dates press of the Department of Agriculture. The contract aims to operate that landmark, which was stopped from production for a long time by the University of Basrah in partnership with the Department of Agriculture to be a great achievement that contributes to the revival of the economy and the

employment of the largest number of unemployed. The University of Basrah seeks, through its partnerships with various departments, to open the horizons of joint cooperation in several fields to develop the economic and service reality in the province.

Date: 29/8/2022

Link: <https://uobasrah.edu.iq/news/5313>

Fourth Activity :

As part of the university's sustainability projects and to benefit from modern mechanization, the dates press was opened to manufacture and market dates in the Khoz River area in the Abi Al-Khasib district, after contracting with the Directorate of Agriculture. The President of the University of Basrah, Dr. Saad Shaheen Hammadi, indicated at the beginning that we inquired about the reasons for stopping the plant more than 16 years ago and we sent specialized committees to visit it, and a way was found to operate it through a cooperation mechanism with the Directorate of Agriculture, and that project is one of the doors of future dealing with the concerned department to operate other laboratories successively. It is noteworthy that the total area of the dates press is 1070 square meters and its facilities include a production room, a cold room, a guidance room, stores for dates and other joints of the laboratory, and that one of its most important products is dates pressed with cores and pitted and dates withdrawn vacuum and dates stuffed with almonds, walnuts and date molasses and of different types, including Barhi, Halawi, Khadrawi, Al-Burim, Al-Sayer, Al-Zuhdi, Al-Khastawi and other varieties of dates, with a production capacity of 4 tons per day.

**STUDENT
ACTIVITY**

The student activity

First Activity:

The scientific activities of postgraduate students for orthopedics and traumatology of the Faculty of Medicine for the month of July 2022 are as follows:

Day & Date	Activity Name	Type of activity	Students	Professors
Tuesday 19/7	Daily report			
Wednesday 20/7	Grand tour		Rami Natiq / Diploma / Second Stage	
Thursday 21/7	Bony non-touch lesion.	Lecture		Prof. Dr. Mubader Abdel Rahim
Sunday 24/7	Clinical orthopedic Arab board exam: how to prepare for the exam.			Prof. Dr. Mubader Abdel Rahim
Monday 25/7	Clinical conference	Weekly Clinical Meeting		
Tuesday 26/7	Grand tour Case presentation according to Mock exam.		Mohammed Abdul Amir / Iraqi Board / Second Stage	Prof. Thamer Ahmed Hamdan
Wednesday 27/7	Daily report			
Thursday 28/7	Journal club		Qasim Abbas / Iraqi Board / Second Phase	Assoc. Prof. Alaa Abdulhussain
Sunday 31/7	Daily report			

Second Activity:

The University of Basrah has adopted the project of detecting sports talents in the preparatory stages, which is considered the first in Iraq. The project aims to prepare these talents and sports skills, train them and develop their functional and physical capabilities according to specializations because they will form the basic building block for university teams. This project included two phases, the first is the preparation of teams for scouts headed by professors specialized in testing and measurement whose task is to discover sports talents and the second stage is to sustain university teams and work to rehabilitate them and provide all

means and capabilities for their renaissance. Musa said that this project is the first experience at the level of the country and the University of Basrah was proactive in planning and adopting it and it is a great project that we hope all state institutions support.

Date of Held: 24/7/2022

The link: <https://uobasrah.edu.iq/news/5241>

Third Activity

The Faculty of Dentistry organized a training workshop entitled (Flap and Sugery Oral in Suture) for students of the fifth stage on 14/8/2022 under the supervision of the lecturer (Eng. Ahmed Ali Marashi) as part of the scientific student activities organized by our college from the academic year 2022/2021.

Date of Meeting: 2022/8/14

Fourth Activity:

The second round exams for students of preliminary and postgraduate studies at the College of Pharmacy at the University of Basrah for the academic year 2021-2022 were launched amid great preparations by the Deanship of the College for the success of the examination process. The Dean of the College of Pharmacy, Dr. Falah Hassan Sherri, indicated that he took the exam (303) students for all stages and (9) postgraduate students (Masters) and the college has prepared all the exam requirements, as the examination committee has made great efforts to work to provide the best ways for our students to perform their exam smoothly and without any Complications. We wish all our students to abide by the exam instructions inside the exam halls to ensure that things are going well and reflect a civilized image of the Iraqi student, and

we wish all our students success and excellence in their studies and their performance for the second round exams.

The third research:

The lecturer at the College of Law at the University of Basrah, Wahaj Khasir Abbas, published a research in a legal scientific journal, and the research included a study on countries today and all over the world, even developed countries, from the effects of epidemics and infectious diseases, especially COVID 19, which proved the inability and weakness of the international health system, which led to the declaration of a public health emergency of international concern to ensure the highest levels of international cooperation to confront this emergency for the international community as a whole. Especially for developing and poor countries or those that are in armed conflict, as the severity and impact of the humanitarian disaster resulting from the public health emergency increases in the presence of armed conflicts, and here the role of humanitarian work is more important and at the top of humanitarian needs to provide support to the population of those areas, especially the role played by the Red Cross, which has proven over the past years and until today the importance of its role in alleviating the suffering and pain of the population of areas suffering from conflicts.
