

The University has established Kindergarten in each campus of the University. The Kindergarten accepts children of the University's faculty staff and provides free pre-school day-care services for children over the age of two. For instance, the kindergarten at the College of Medicine has a special educational program and characterized by a trained staff, which provides care for the children. There are also clinics in each campus of the University, all staff and faculty, who are in need of, get free medical service at these clinics.
