Accounting department

For the academic year 2022-2023

Scientific plan for the Accounting department 2022/2023

First: vision, mission and goals

Vision:

Excellence in innovation in the performance of the educational and research process and accounting knowledge in accordance with scientific standards for the purpose of achieving the leadership, the accounting department is done in a way that makes the quality of the performance of the performance identical to institutional standards in terms of development. Through electronic workshops through joint research with foreigners from retirees during the contract with retired teaching staff and the use of accumulated experience and the most important thing in the department's management is the lack of use of centralization in making decisions to distribute tasks to the members of the department of professors and employees contribute to the advancement of the department administratively and scientific from The students 'aspect, the accounting department, with its modern open administration, goes to create support for the institutional community in addition to expanding graduate studies and increasing specialization. The new trend of management of the accounting department is keen to build and enhance cooperation relations with external researchers in supporting postgraduate studies, especially a doctorate

Mission:

Qualified and trained human cadres are graduated according to accounting specializations required in the labor market and continuous encouragement to develop and diversify theoretical and applied research on a continuous way to address scientific, professional and environmental issues to serve business institutions and organizations aimed at the graduate.

Renewed scientific developments in the various branches of specialization. The department also seeks to qualify its students and provide them with the necessary skills and use the latest modern technologies in accounting systems and accounting applications using automatic computers. The students are also the students of advanced and higher studies in accounting disciplines.

strategic goals

- 1- Developing and evaluating teaching methods and educational curricula so that it keeps pace with the development of development
- 2- Rehabilitation and training of new faculty members who have the title of assistant teacher professor to develop their efficiency for a period of not less than three months
- 3- Establishing laboratories and workshops to link the theoretical aspect to the practical side in light of the needs of the labor market
- 4- Finding systems to stimulate teaching and employees
- 5- Development of the electronic central library

Second: Staff (2022/2023)
