

Improvement plan for the Department of Art Education

Faculty of Fine Arts

University of Basrah

For the academic year 2020-2021

Improvement Plan (Department of Art Education) Faculty of Fine Arts 2021-2022

Regarding the programmatic accreditation standards contained in the self-evaluation writing, the improvement plan included the most important measures that the Art Education Department seeks to achieve in the future to overcome the weaknesses contained in the self-evaluation criteria and within a time horizon not exceeding the academic years (2021-2022) and (2022-2023) as follows:

The Department of Art Education achieves communication with other corresponding colleges through the participation of its professors in the discussion committees of a number of students (PhD / Master) inside and outside the province, as represented in the faculties of fine arts (Basra Babylon) as professors and students of the department participated in a number of art festivals that were held inside and outside Iraq, including (University Theater Festival Tunisia) in addition to the art festivals that were held inside the city, including the festival (school theater) in cooperation with the Directorate of Education Basra, The Department of Art Education also works to

activate the artistic culture within the corridors of the university and the governorate by supporting various artistic activities and active participation in them and measuring the level of benefit achieved in this field scientifically and objectively for students and professors of the department, and the Department of Art Education seeks to activate the role of the advisory office in the college to achieve financial returns that benefit the department and the college in general, the department needs to provide requirements Modern education such as smart screens and computers (laptops) and to improve the quality of the computer laboratory within the department and print methodological books for students and provide more sources and foreign and Arabic books, theses and theses in various technical and educational disciplines to supplement the library of the department and the college with all that is new and help students and researchers in enhancing their scientific aspect, as the department seeks to enhance the role of its students with regard to medicine Practical in middle and secondary schools and the pursuit of finding a fixed course educational content that promotes the opening of master's studies within the department according to time frames commensurate with international and Arab standards, especially in prestigious and sober universities and building bridges of scientific, cognitive and applied communication with other universities and colleges (Arab and local), and the department works to

urge its professors to participate in conferences and training workshops that develop and develop their theoretical and practical teaching skills and raise the scientific level to be consistent with the decisions of those universities, as well as activating development Knowledge to avoid weakness in the theoretical and practical aspect of some methodological subjects, especially educationally oriented materials, and to more scientific research related to teaching methods, curricula and modern teaching techniques .

The department also aspires to involve its administration in the procedures of appointment and announcement of vacant grades and meet the needs of the department, especially rare specializations and intermediate cadres of bachelor's and postgraduate degree holders, and the Department of Art Education seeks to activate an annual plan to follow up scientific research and cooperate with the corresponding colleges in the field of supporting scientific research as well as the exchange of information between professors of the department and professors of those colleges and the publication of more research in international containers (Scopus - Clarfent) with a mechanism to invest those researches socially, scientifically and technically, and the department adopts A clear mechanism with regard to the procedures for registering patents and artistic and literary creativity and archiving them in a clear and announced scientific manner, and to work on that, the department needs a declared and integrated plan to send teachers inside and

outside Iraq and develop a transparent annual plan that achieves justice and equality for all cadres according to the need of the department and the exact specialization and activating the visits of teachers to Iraqi, Arab and international universities, the Department of Art Education will be created. An introductory illustrative map of the department's corridors, laboratories and theoretical and practical halls, as well as billboards to introduce the student to the examination instructions and the like, and the department administration seeks to achieve this next year by allocating a financial budget for the maintenance, rehabilitation and construction of new classrooms that accommodate the increasing numbers of students admitted within the department, as well as the maintenance and organization of health facilities within the department and finding sufficient spaces for practical training for its students and allocating a special theater hall for the department.

The administration of the Department of Art Education seeks to assign the tasks and duties entrusted to each employee and to bring cadres of graduates (employees) to work within the department and find an annual strategic plan to manage its financial resources through a mechanism of financial control related to the technical work provided by the department in line with the vision of the department and its educational and educational mission in the event that there is marketing for those works, and the department seeks to individuals a special

file for each student that contains accurate information about his activity, academic and social level and behavior with faculty members, As well as working on the establishment of a student club for the Faculty of Fine Arts and follow-up students of the internal departments belonging to the department from other governorates, and in order to activate extracurricular activities, the department works in coordination with the Student Activities Unit in the college to involve a number of students in events and activities held inside and outside the college, and also works to activate its media page within the main page to inform the Faculty of Fine Arts and document the CVs of its faculty members to communicate with graduate students through the establishment of channels Within social networking sites (WhatsApp, Facebook, Telegram ..) and seeking to follow up their artwork on a regular basis, receiving consultations, if any, communicating with the community and knowing the needs of the market.
