Course structure					
Method of assesment	Method of teaching	subject	Learning outcome	hours	week
Slide show Clinical cases Daily Discussion	Lectures Slide show Clinical cases	Fungal infection	Learning about different type of superficial fungal infection, clinical presentations, causes,treatment	4	2
Slide show Clinical cases Daily Discussion	Lectures Slide show Clinical cases	Common viral skin diseases	Discussing the common types of viral skin infection and how to treat it.	2	1
Slide show Clinical cases Daily Discussion	Lectures Slide show Clinical cases	urticaria	Types, causes, pathogenesis and treatment	2	1
Slide show Clinical cases Daily Discussion	Slide show Clinical cases	scabies	Clinical presentations, cause, treatment	1	1
Slide show Clinical cases Daily Discussion Short exam	Slide show Clinical cases	impetigo	Clinical presentations, cause, treatment	1	1
Slide show Clinical cases Daily Discussion Short exam	Slide show Clinical cases	Acne	different types of presentations, causes, complications, treatment	1	1
Slide show Clinical cases Daily Discussion Short exam	Slide show Clinical cases	psoriasis	Types, clinical features, pathogenesis, indication of systemic treatment, dx, treatment	1	1
Slide show Clinical cases Daily Discussion Short exam	Slide show Clinical cases	Lichen planus	Types, clinical features, pathogenesis, indication of systemic treatment, dx, treatment	1	1

Infra structure	
Roxberg common skin diseases	Books required reading*
Habif clinical dermatology Rook text book of dermatology	Main references

JAAD JAMA Medscape	Recommended books and journals
	electronic references and web sites-

The planned development plan :

Uses of modern teaching methods

Adopted modern sources

Access to corresponding universities courses

Periodic meetings of development committees

Periodic update of lectures

Attending workshops and seminars for teaching and learning methods
