Self -evaluation report

**For the College of Administration and Economics and its scientific
departments**

2021/2022

Prof. Dr. Abdul Hussein Tawfiq Shibli

Dean

Weaam Najim

Sinior Manager

Translat by: Aya Imad

Work Team

For the purpose of preparing self -evaluation of the College of Administration and Economy, the higher leaders and the quality assurance team and university performance in the college, which consists of:

N	Name of the manager	position	Quality Team
1	Prof. Dr. Abdul Hussein Tawfiq Shibli	Dean of the College	Hashem Star
2	Prof. Dr. Hilal Jawdah symposium	Dean's Assistant for Scientific Affairs	Muhammad Nabil
3	Assist. Prof. Dr. Naim Sabah Jarrah	Dean Associate for Administrative Affairs	Zainab Hussein
4	Prof. Dr. Amjad Sabah Abdel - Aali	Head of the Economy Department	Siham Nasser
5	Prof. Dr. Muntazer Fadel Saad	Head of the Department of Financial and Banking Sciences	Isra Hussein Hatem
6	Assist. Prof. Dr. Nada Abdel Qader Abdel Sattar	Head of the Department of Business Administration	Zainab Hussain
7	Assist.Prof. Dr. Elham Jaafar	Head of Accounting Department	Ruwaida Adnan
8	Hamid		
9	Assist.Prof. Dr. Risan Abdul Imam Zaaan	Head of the Statistics Department	Marwa Muslim Abdul Rida
10	Assist. Prof. Dr. Dureid Hussein Badr	Head of Administrative Information Systems Department	Walaa Qasim
	Weam Yassin Najm	Director of the Quality Assurance and University Performance Division	Jahan Handal+Fatima Hassan

Definition of the self -evaluation report

Self -evaluation: It is one of the methods used in assessing the quality of the university's performance and is carried out by the Quality Assurance Division in the institution in light of the specific controls and conditions, and the self -evaluation of a division and an administrative unit, or a scientific section, a specific academic curriculum or the entire educational institution can be (University and college).

One of the principles of self -evaluation is a SWOT Analysis to determine the strengths, internal weaknesses, opportunities and external threats. The environmental survey includes analyzing the internal factors that affect university performance in light of the criteria and indicators to obtain accreditation, quality and quality to extract the aspects of strength to preserve it and weakness to improve it in the direction of providing a university climate that preserves the safety, security and dignity of students and employees and building on human rights principles that include justice, equality, respect, tolerance and integrity Transparency, lack of discrimination, empowerment, participation and focus on marginalized students. The environmental survey also includes analyzing external factors that affect university performance, including political, economic, social, cultural, legal and environmental factors to determine the opportunities available to exploit them and external risks facing the university in order to reduce its consequences to achieve results and obtain the university institution on academic accreditation.

Academic accreditation: It is the set of procedures and operations carried out by the authority in order to ensure that the institution has fulfilled the conditions and specifications of the approved quality, and that its programs are compatible with the declared and adopted standards and that it has existing systems to ensure quality and continuous improvement of its academic activities in accordance with the declared controls. It is an affirmation and empowerment of universities in order to obtain a distinct quality and a single identity and acknowledging that the steps taken to improve quality are successful steps.

The importance of the report and its goals

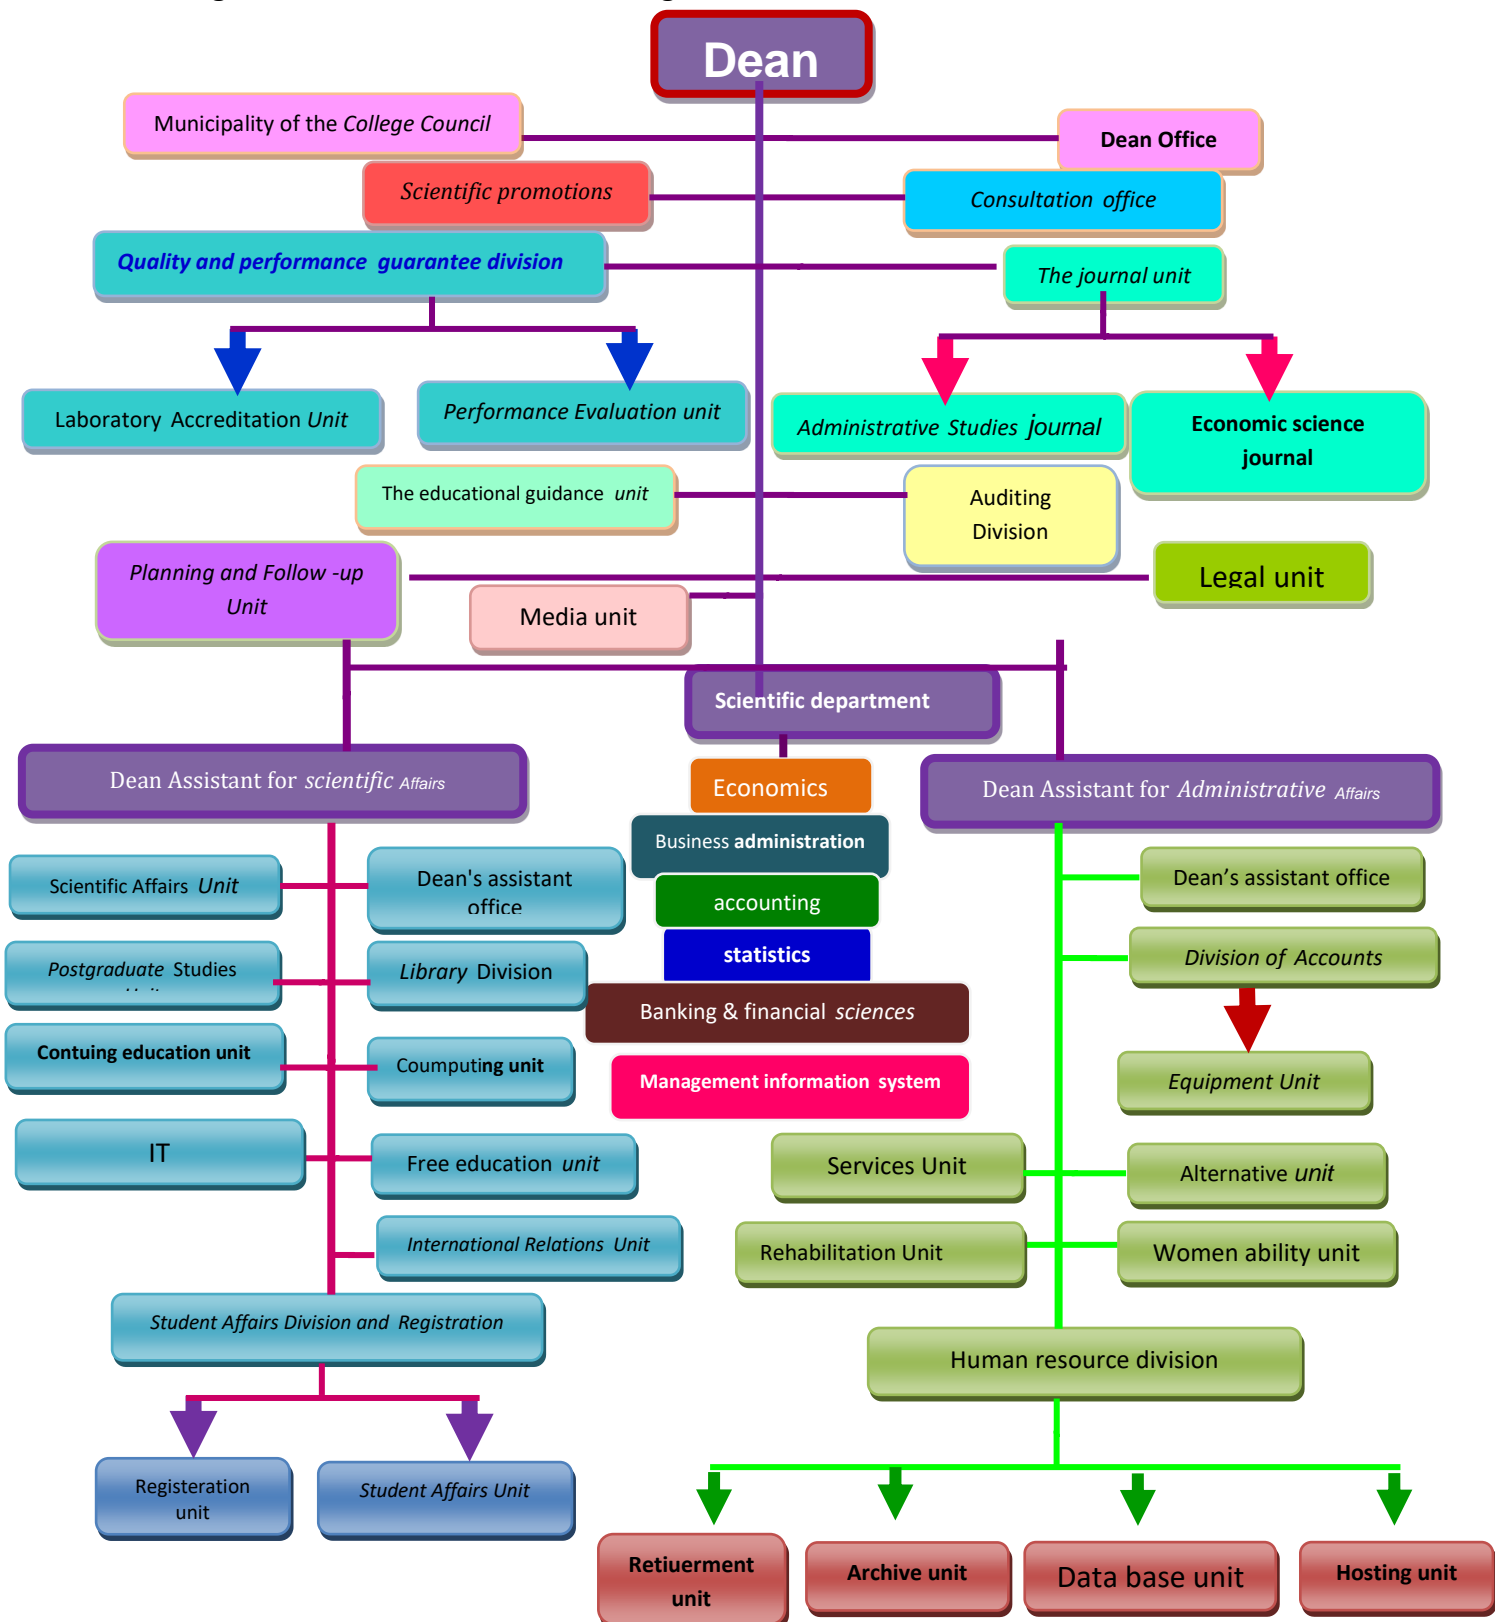

The self -study of the college is an important part of the procedures for ensuring quality, as it aims at what is based on the college, its evaluation, and its improvement, and not only the definition of it, as it looks at self -study as a continuous process aimed at the following:

- 1- Analysis of the sources available to the college.
- 2- Show the achievements achieved by students at the level of academic programs provided by the college and the extent of their translation of the goals of these programs and their goals.
- 3- Evaluating the relationship between college activities and activities.

Self -Evaluation Report of the College of Administration and Economics 2021/2022

- 4- Providing a strong and effective basis for the planning and improvement of the college.
- 5- Analyzing the sources, procedures, institutional plans and its effectiveness in achieving the college's mission and goals.
- 6- Evaluating the educational achievements of the college, building and operations

Organizational structure of the College of administration and Economics 2021/2022

Self -Evaluation Report of the College of Administration and Economics 2021/2022

First- a historical summary

The College of Administration and Economy was established on 9/1/1971 according to the decision of the Higher Education and Scientific Research Council (Council/D/3/A/5/Q/A) in its third session, with the issuance of the Book of Secretariat with the number (6696/262 on 9/11/1971). The college was established after the liquidation of the Law and Economy Commission, and it started work since the Basra University began as part of the University of Baghdad in 1964, then joined the Faculty of Trade and Economics of Al -Mustansiriya University - the Department of Evening Studies in the college in 1974, and the college began liquidating it since 1975, as for the duration The study in the college is four years, and thus the number of payments that graduated from the Bachelor's degree (47) batch, considering the first batch graduated the academic year 1974/1975. Its scientific construction strengthened and deepened its cognitive and social responsibility by opening postgraduate studies (1982-1983) for a master's study. And the doctorate for the academic year (1986-1987) either the Higher Diploma (20-12-2013) in the Department of Economics.

The Department of Economics was established within the departments of the College of Arts in 1965, then he was transferred to the College of Administration and Economy when it was established in the academic year 1971/1972, and thus the number of payments that graduated (52) became a batch of holders of a bachelor's degree in economic sciences, given that the first batch graduated from the academic year 1968/1969 And in the academic year 2014/2015 I opened three branches to specialize in the student from the third stage:

* Public Economy Branch

*Strategic Planning Branch, which closed the academic year 2016-2017

Oil Economy Branch

*Transportation branch for the academic year 2016-2017

Graduate studies have opened the academic year 1982/1983 for a master's study, and the academic year 1986/1987 PhD studies, then a higher diploma study - energy economics specialization in the academic year 2012/2013

The Department of Business Administration was established in 1973, thus, the first batch graduated the academic year 1976/1977, thus becoming the number of payments (45) batch of a bachelor's degree in business management sciences.

Graduate studies have opened the academic year 1987/1988 to study a master's degree in Business Administration, and a Master's degree will be created for the academic year 2020/2021, while a doctoral study of the academic year 1992/1993, and in the academic year 2015/2016, the higher diploma opened with a specialty of strategic planning and then opened a management major Projects and quality management.

The Accounting Department was established in the academic year 1984/1985, where (34) graduated a bachelor's degree in accounting sciences.

Graduate studies have opened the academic year 1987/1988 for the study of the Master of Accounting Sciences, while the doctoral study of the academic year 1996/1997.

The Statistics Department was established in the academic year 1988/1989, where (30) batch of a bachelor's degree in statistical sciences graduated.

Graduate studies opened the academic year 2001/2002 to study a master's degree in statistical sciences.

The Financial and Banking Sciences Department was established in the academic year 2002/2003, where (16) batch of a bachelor's degree in financial and banking sciences graduated.

Graduate studies have opened the academic year 2012/2013 for a master's study. As for the PhD study of the academic year 2016/2017.

The Department of Administrative Information Systems was established in the academic year 2018/2019 for the morning initial study - Bachelor. Where the first batch of the Bachelor's degree in Administrative Information Systems Science 2021/2022 graduated.

Second- vision- mission- college goals

Self -Evaluation Report of the College of Administration and Economics 2021/2022

The vision of the college aspires to the Faculty of Administration and Economics at Basra University to be among the world's distinguished colleges in the economic, administrative, financial and accounting areas, and to be scientifically and administratively distinguished in the quality of the service that it provides to society and stakeholders at the national, Arab and international levels, and to abide by the academic professional culture among academics and employees. In addition to the attachment of the prospects for development in the university academic practical aspects (educational, research and service).

The collection of the college of management and economy seeks in the inception of Basra to the best service of society and the frameworks that exchange interests and benefits with it, and with the university, through the precise diagnosis of their local needs and future expectations, and achieving the effective response and efficiency of these needs and expectations by ensuring the quality of all university operations and practices in the college. (Educational/ research/ consulting/ and administrative). And according to what comes...

1. The best investment for the college resources and their energies through effective commitment to applying the provisions of the quality assurance system and academic accreditation related to resource allocation.
2. Improving the performance of human resources (an academic and functional body) by participating in specialized and developed training and development courses inside and outside the country.
3. Create plans and programs that ensure the use of resources (material, financial and technical) available to the college in improving the comprehensive performance of the college.
4. The participation of the entire body (academic and functional) and students in the decisions and practices related to them, and those that contribute to the development of the college's work and improve its performance.
5. Establishing a comprehensive plan that guarantees the preparation of the requirements, supplies and mechanisms that make student outcomes of the college respond to the labor market, and the satisfaction of the stakeholders.
6. Investing inverse nutrition information in improving the future performance of the college.

Strategic goals

1. Setting goals and plans that enable the college's scientific level (students and teaching)...
2. Developing plans and mechanisms that enable the prosecution of scientific and cognitive development in the field of the competencies of the college.
3. Preparing the requirements that enable a better teaching climate for students and lecturers...
4. Create appropriate opportunities to meet the college's need for scientific competencies...

Fourth- The quadruple analysis of the people and scientific and administrative units

Weak point	Strong point
<p>1- Delaying the answer to the scientific departments to the official books that require the answer, which led to the achievement of work.</p> <p>2- The lack of the establishment of development courses in the college despite the need for some specializations (computer and English language) and the special courses of the employees of the Quality Assurance and University Performance Division and the employees of the educational guidance unit for the rise 0</p> <p>3- The small number of employees who have experience in the use of computers, and this hinders keeping pace with the development in the use of electronic archiving in the work of the people and administrative units</p> <p>4- The lack of specialized functional cadres for administrative units such as (the Educational Guidance Unit- College Media Unit).</p> <p>5- A lack of the number of fixed career cadres for some administrative units such as (Quality Assurance Division- Educational Guidance Division- Student Affairs Division and the magazine unit).</p> <p>6- Increasing the numbers of students admitted outside the plan developed by the college, which leads to some difficulties that are not appropriate for the number of computers with the number of students in some laboratories.</p> <p>7- A shortage of curriculum books compared to the numbers of college students</p> <p>8- The small number of functional cadres (specialization in teaching practical computers) in the calculator.</p> <p>9- Some buildings, such as the college library, are not valid and after the deanship of the college and the classroom.</p> <p>10- The job staff accumulate in some scientific departments, the people and administrative units, which led to the presence of convincing unemployment, despite the need of some people with specialized job staff.</p> <p>11- The absence of a job staff (number and administrative specialization) in the office of the Dean for Administrative Affairs and Scientific Affairs (Journal of Economic Sciences and the Journal of Administrative Studies).</p> <p>12- Dependence of the Services Division on a job staff, which causes a lack of efficiency of work with the large number of obstacles in completing the work.</p> <p>13- Freezing the work of the continuing education unit in terms of courses and its shortcut to train students of the third stage</p>	<p>1. Follow the daily mail and answer the official books received that require the answer as quickly as possible 0</p> <p>2. The desire of employees to participate in the development courses to develop performance in his work jurisdiction</p> <p>3. Commitment to the official working hours and the spirit of cooperation between the job staff and the flexible dealing with all parties to implement the instructions and the limits of the controls 0</p> <p>4. A guarantee of the quality of procedures and work mechanisms and to keep pace with scientific development in the field of work, such as the use of electronic archiving in saving the incoming and export mail</p> <p>5. Simplify procedures to the extent possible and provide services to students by providing laboratories and classrooms, providing methodological books and modern sources and increasing working hours in the people (library - Student Affairs and Registration Division and the college accounts division) to provide services to evening studies.</p> <p>6. The presence of staff with experience, knowledge and high desire to perform the tasks and duties assigned to them and the adoption of the principle of reward and punishment in management 0</p> <p>7. The rooms are suitable to work well in terms of furniture, lighting, heating and cooling.</p> <p>8. Attention to educational and administrative guidance issues and encourage the Deanship of the Educational Guidance Division and the support and formation of unity.</p> <p>9. Issuing an order to form a quality assurance team from the administrative staff employees in the scientific departments and the deanship of the college, for the purpose of speeding the completion of the work of the Quality Assurance Division</p> <p>10. The Division of Quality Assurance and University Performance in Business is evaluating the quality of the college's performance, which will be a point for studying the reality of the college and developing it for the better</p>

	<p>11- Scientific publications: Issuing (3) prepared by the Economic Sciences Magazine- Issuing two numbers of the Journal of Administrative Studies for each year.</p>
Threats	Chances
<p>1- Delaying the answer to the scientific departments to the books that require the answer, which caused the dignity of administrative work.</p> <p>2- The lack of the establishment of development courses in the college despite the need for some specializations (computer and English language) and special development courses for employees (Quality Assurance and University Performance Division - Information Technology Unit - Scientific Sections - Scientific Promotions - Graduate Studies - Planning and Follow - up Unit - The Journal Unit and the Guidance Division Educational).</p> <p>3- The lack of a special internet line for administrative work in the people's people and units, which makes it difficult to communicate 0</p> <p>4- The presence of some employees with a contract (daily wage) despite their good work and their experience in the work. They cannot be given job responsibility 0</p> <p>5- The small number of employees who have experience in the use of the computer, and this hinders to keep pace with the development in the use of electronic archiving and the work of the people and administrative units.</p> <p>6- The large number of routine in administrative work, with some obstacles in the implementation of controls and instructions for their arrival late.</p> <p>7- Increasing the numbers of students admitted outside the plan developed by the college, which leads to some difficulties that are not</p>	<p>1- Developing the communication process between units and scientific departments in the college and between the college and the external environment via the Internet for speed 0</p> <p>2- Involving the employee in the development courses to improve job performance</p> <p>3- Gaining experiences and skills from external parties, whether foreign, Arab or local, by sending the employee to participate in the courses and implement them in his field of work 0</p> <p>4- Motivating the employee morally and financially to encourage him to work more accurately and carefully 0</p> <p>5- Add the number of computers in the calculator laboratories and add additional display screens to the student's interest 0</p> <p>6- Restore employees 'structure and distribution between the scientific departments, the people and administrative units according to (certificate, experience and specialization in the performance of work) for the purpose of getting rid of persuasive unemployment and delay in work.</p> <p>7- Spreading a culture and concept (quality assurance and university performance).</p> <p>8- Stimulating the work of the Educational Guidance Division:</p> <p>1- Preparing (educational guidance) committees in the scientific departments.</p>

Self -Evaluation Report of the College of Administration and Economics 2021/2022

appropriate for the number of computers with the number of students in some laboratories.

8- A lack of methodological books compared to students' numbers 0

9- The small number of cadres of precise specialization (computer science and computer engineering) to work in the laboratory accreditation unit and computer laboratories.

10- The failure of some of the college employees to respond (administrative leaders- faculty members and employees (administrators and technicians) to the concept and culture of guaranteeing quality and university performance.

11- The absence of a job staff specialized in a certificate (educational counseling) campaign for the purpose of promoting the work of the administrative division.

12- The phenomenon of convincing unemployment of job cadres in (scientific departments, people and administrative units).

13- Administrative structure in the non-distribution of job staff within (certificate, jurisdiction, need and experience in work)

14- The lack of moral incentive for employees, such as limiting the work of the committees to specific persons with the marginalization of others

15- Some buildings, such as the college library, are not valid and then on the deanship of the college and the classroom.

2- Carrying out periodic meetings directly with all college students for the purpose of guiding them (educationally - scientific and culturally) and finding solutions to their problems.

3- Preparing a guideline for students.

9- Informing students by their scientific departments of the concept of training and positive and negative for the student 0

10- Developing the work of the continuing education unit by establishing development courses for the college's employees to enhance the work of the unit

Fifth- The self-evaluation of the college's condition and its scientific departments

First - College activities

The college contributed several scientific activities by holding (its annual scientific conference - its annual evaluation conference - seminars - discussion episodes) and cultural (seminars - discussion episodes) and sports in the contribution to sports matches and excellence over colleges.

Second - administrative activities

1- Maintenance of cooling and lighting - in all classrooms and for all scientific departments, with changing and maintaining the doors and seats of the classroom

2- Maintenance of cooling, lighting and changing furniture for a number of administrative offices and offices of faculty members in the scientific departments

3- Maintenance of college bathrooms

4- Maintenance of electronic computer laboratories in all scientific departments and equipping them with the furniture and computers that need

5- Covering a number of administrative rooms in the Deanship of the College and the offices of the faculty members.

Third - scientific activities

Conferences

1- The fourteenth annual orthopedic conference of the College of Administration and Economics was held on 9/12/2021

2- The establishment of the fourteenth scientific conference for the period (1-2/12/2021) tagged "environmental pollution and sustainable development in Iraq"

Participated conferences

Department of Economics

1- International Forensic Nursing Chongress

2- The 6th Iraq Oil & Gas Conference

3- Oman Vision 2040 and its repercussions on the education sector

4- The areas of development and joint cooperation of Iraq with its regional and international surroundings and ways to develop it

5- Measuring the impact of economic stability on financial sustainability in Iraq for the period 2004-2020

6- The 4th International Conference on Islamic Studies and Its Role in the Face of Modern Challenges

7- Recent trends in international relations, media, social and educational sciences

8- The third international scientific conference, green energy and sustainable development- approaches and experiences

9- The economy of digital platforms, opportunities and challenges

Department of Accounting

2- Higher education and digital scientific research, a footsteps to meet the challenges

3- Environmental pollution and sustainable development in Iraq

Self -Evaluation Report of the College of Administration and Economics 2021/2022

Department of Statistics

- 1- The Sixth Iraqi International Al-Khwarizmi Association conference
- 2- The second international scientific conference of the Faculty of Science- Al-Nahrain University
- 3- 1st International Conference on Advanced Research in Pure and Applied Science Al-Muthanna University College of Science
- 4- The Iraqi Society for Statistical Sciences
- 5- The second international conference of the Imam Al-Kazim College for Modern Applications in Information and Communications Technology
- 6- The Iraqi Society for Statistical Sciences, the sixteenth and international scientific conference for statistical applications
- 7- The Iraqi Society for Statistical Sciences
- 8- IRAQI Academics Syndicate 2nd International Conference for Pure and Applied Sciences (IICPS)
- 9- IRAQI Statistical Association in Collaboration with, Al-Rafidain University College, Announces The Organization of "The (16th & The Third International) Conference of Statistical Applications."
- 10- Al-kadim 2ND International Conference for Modern Applications of Information and Communication Technology (mact_2021)

Department of Financial and Banking Sciences

- 1- The banking sector in the challenges of reform and development
- 2- The banking sector in the challenges of reform and development towards a green Iraq

Department of Administrative Information Systems

- 1- The Relationship Between TQM Practices and Individual Readiness for TQM Implementation
- 2- Environmental sustainability
- 3- The Great Port

Seminars

Department of Economics

- 1- The Iraqi dinar from strength to weak options to delete the zeros
- 2- The repercussions of reducing the Iraqi dinar against the US economic and social dollar
- 3- The economic importance of marine navigation in Khor Abdullah
- 4- The economic and social effects of the phenomenon of terrorism in Iraq
- 5- An analytical study of the period of ISIS occupation of some Iraqi provinces
- 6- The Russian-Ukrainian war and its repercussions on food security and energy
- 7- An economic reading of the emergency support law for food security and development

Department of Accounting

- 1- Iraqi patents and their scientific impact locally and globally
- 2- Digital transformation in cultural institutions
- 3- Electronic shopping
- 4- Savings and community culture
- 5- Scientific research and affect institutional accreditation

Department of Statistics

- 1- The role of mathematics in economic sciences
- 2- Mathematics Queen of Science and its Custodian

Department of Financial and Banking Sciences

- 1- Why is it important to publish in the magazine highly influence
- 2- International standards in adopting scientific specializations in universities
- 3- Effective teaching skills

Department of management Information Systems

- 1- The role of mathematics in economic sciences
- 2- The reality and future of scientific research and graduate studies in Iraq
- 3- The reality of Iraqi ports and the dry channel and their role in the Iraqi economy
- 4- Imam Ali and the concept of his holy martyrdom in the light of psychological linguistics
- 5- District storms in Iraq, their causes and ways to address them
- 6- Simulology of the language of discourse in Aragiz is the most kind incident
- 7- Requirement and procedure questions
- 8- The psychological and social causes and effects leading to drug use and ways to treat them
- 9- The role of women in the Husseinian revolution, Sayyida Zainab (PBUH) as a model
- 10- Simulology of the language of discourse in Aragiz is the most kind incident
- 11- Requirement and procedure questions
- 12- The psychological and social causes and effects leading to drug use and ways to treat them
- 13- The role of women in the Husseinian revolution, Sayyida Zainab (PBUH) as a model
- 14- Dust storms in Iraq, their causes and ways to address them
- 15- The reality and future of scientific research and graduate studies in Iraq

Seminars

Department of Economics

- 1- Crude oil pricing mechanisms
- 2- The economic importance of marine navigation in Khor Abdullah
- 3- The effect of drugs on a person to prevent and treat

Self -Evaluation Report of the College of Administration and Economics 2021/2022

Banking & Financial sciences department

- 1- The role of the banking of the banking in achieving sustainable development
- 2- Money and disparity
- 3- Entrance in behavioral financing

Published research

The sum of the internationally published research - Arab and locally = 78 research

information	Scientific department						Total
	economics	Bussines administration	account	statistics	Banking & financial	Managemen information system	
Published research	15	7	21	13	10	9	75
Acceptable research for publication	4	-	4	32	-	2	42
Completed research	-	-	1	14	12	1	28

Fourth - Human activities

Business Administration Department

- Visit the Child Hospital for Cancer Diseases Number = 3
- Visit the elderly house number = 3

Department of Accounting

- Visit the orphans in the Aras / Al -Faw district, in Al -Bisha

Department of Financial and Banking Sciences

- Visit the orphanage
- Visit the elderly house
- Visit the Child Hospital for Cancer
- Contributing to the afforestation of Basra Governorate

Fifth - Cultural Activities

Business Administration Department

- 1- Visiting the banking sector / scientific trip
- 2- Visiting Iraqi ports- Umm Qasr / scientific trip

Department of Financial and Banking Sciences

- 3- Cooperation with the United Nations Industrial Development / UNIDO

The educational guidance unit

- 4- Distributing certificates of appreciation to students participating in the educational counseling and psychological guidance platform through positive comments, sharing their talents and supporting, on 10/2/2021
- 5- The establishment of a scientific and cultural competition for students over two days on 11/22 and 23/11
- 6- Spread all psychological and health instructions and recommendations through the educational guidance platform to increase health and psychological awareness among students, as well as presenting their problems by listening to them and finding appropriate solutions to them that are made with complete confidentiality
- 7- Establishing an awareness seminar on the occasion of International Women's Day, entitled Family Violence and Violence against Women, which was delivered by Dr. Wafaa Ali Sultan on 8/12/2021
- 8- Establishing an awareness symposium on the occasion of the International Day for Combating Corruption, entitled Administrative, Financial, Economy, Economic, and Ways of Control, which was delivered by Dr. Ahmed Saddam, on 9/12/2021
- 9- Celebration of the International Day of the Arabic Language, on Tuesday 21/12/2021, through the holding of a seminar
- 10- Establishing an awareness symposium entitled electronic extortion, Sabla and its reasons, in addition to its psychological aspects, which were delivered by Dr. Radi Obaid Ngimish and Dr. Khawla Hassan Hammoud from the College of Education for Humanities and the researcher and the believer of the believer from the Southern Technical University and Dr. Abdul Razzaq Rahim, Director of the Scientific Cooperation Unit with Scientific Societies And civil society, on 12/27/2021
- 11- Receiving the first stage students and welcoming them at the beginning of the new academic year, by giving an awareness lecture and guidance to them by the official of the Educational Guidance and Psychological Guidance Unit, Dr. Radi Obaid Ngimish and Sit Huraa Muhammad on 9/1/2022
- 12- Publishing posters and extension paintings throughout the college to increase awareness among students regarding the Corona epidemic and eliminating the phenomenon of smoking, as well as referring to the phenomenon of commitment to the uniform
- 13- Spreading the psychological guidelines and directions among students and motivating them in addition to spreading their talents and technical support, poetic and literary.
- 14- Honoring a group of techniques and female employees by holding an honorary ceremony for them, in solidarity with the International Women's Day, 3/8/2022
- 15- Publishing the necessary steps for students of the fourth stage to create graduation research in detail, on the platform of the Educational Guidance Division and Psychological Guidance to help them provide good scientific research
- 16- Establishing a course for students of the fourth stage and graduates entitled (Job Planning for the post-graduation project) on 3/27/2022

Self -Evaluation Report of the College of Administration and Economics 2021/2022

17- Establishing an awareness workshop that dealt with two axes, the first (environmental pollution and renewable energy) and the second axis (the role of the student in the College of Administration and Economics in waste sort

18- The Division of Educational Guidance and Psychological Guidance, in cooperation with the college students, made a donation campaign on 4/22/2022

19- The Educational Guidance and Psychological Guidance Division has published psychological instructions for preparation for exams, by publishing health information used in the diet, arranging time, and moving away from psychological pressures, on 6/5/2022

20- Publishing rapid tests among students and joining economic terms on a daily basis for the purpose of motivating and encouraging them

21- The establishment of an awareness symposium entitled drugs and its negative effects in the health and legal aspects of Dr. Munther Abdel-Abbas Jalil, internal and respiratory specialist from Basra General Hospital and Dr. Zainab Yassin Khader, the jurisdiction of the law of coincidence on 5/30/2022

Sixth- College activities according to the axes of self-evaluation

The first axis - the scales of the vision, mission and goals of the college and its plans:

• **Vision, mission and goals:** The Deanship of our college, its scientific departments, its people, and its administrative units seek to unify the vision and the message and achieve the desired goals, and publish it among its employees (teaching staff - employees - students) all where it was published through murals - students 'reception guide - the introductory booklet of the college and finally on the website of the college .

Instructions and laws: Commitment to the laws and instructions erected by the Ministry of Higher Education and Scientific Research, which is characterized by the Presidency of Basra University:

• Civil Service Law (teaching staff + employees), 2008 amended

• The Law of State Employees Discipline

Student discipline law

The second axis - measures of leadership and administrative organization

• The infrastructure of the college: We show the table below

n	buldings	number
1	Number of college buildings	8
2	The number of teaching offices	47
3	Number of administrative offices	63
4	The number of meeting halls	6
5	Number of classrooms	42
6	Number of seats	3472
7	The number of studies	8
8	Number of laboratories	7
9	The number of reading halls	2

Electronic archiving: Electronic archiving of the college was completed by 95% in terms of

1- Archive college employees: (two teachings and employees) by 100%. Database unit

2- Archive official books: 90% issued books (Dean's Office- Brigadier General Office (Scientific- Administrative)- Scientific Sections).

3- Research archiving: The archiving in the college library was 90%

4- Archive a homosexual and messages of graduate students. 97%.

5- Student Affairs and Registration Division: Archive in initial study students- archiving the graduates' documents by 93%

6- Archive grades (Master Chit) by 100%from the academic year (1980-1981)

The third axis - material, financial, technical, informational and human resources standards

• Maintenance of cooling and lighting - in all school halls and for all scientific departments with the seats of the classroom

• Maintenance of cooling, lighting and changing furniture for all administrative offices and offices of faculty members in the scientific departments

• Maintenance of college bathrooms and their scientific departments

Self -Evaluation Report of the College of Administration and Economics 2021/2022

- Maintenance of electronic computers in computer laboratories for all scientific departments
- Providing computer laboratories, with modern computer furniture and devices (laptop)
- Preparing computer laboratories for all scientific departments with (CO2 firefigheters + early warning devices + indicative panels)

Fourth axis – college members

- The Quality Assurance and University Performance Division conducted the quality performance evaluation of the college members of the staff:
 - 1- According to the assessment forms for our college for the academic year (2021-2022) and save them electronically.
 - 2- Evaluating the administrative leaders (faculty members) according to the evaluation forms for our college for the academic year (2021-2022) and preserving them electronically.

Fifth Axis- Student Affairs

- The Quality Assurance and University Performance Division conducted the performance quality evaluation by the total students for each of:
 - 1- The faculty members by the student for the academic year (2020-2021) for the academic stages (second- third- fourth) and for all scientific departments.
 - 2- The quality of the college's performance, as the college was evaluated by students of the fourth stage of the academic year (2021-2022) for all scientific departments.
 - 3- The quality of the performance of the final exams (electronic) for the academic year (2021-2022), where the college students were evaluated for all levels and scientific departments.
- The Quality Assurance and University Performance Division issued a guide for receiving new students for the academic year (2021-2022), which includes (conditions for admission and graduation-goals-a definition of scientific departments-students 'discipline instructions). It was distributed to students of the first stage and for the morning and evening studies within the voices of admission to the college. It was published on the Quality Assurance Division page on the college's website.

Cultural and humanitarian activities

Cultural activities = 19

Humanitarian activities = 11

- Scientific travel = 2

The sixth axis - student services

- Follow -up of the college's outputs (follow -up of the graduates): The College of Administration and Economics has been in the past six years to follow up on its graduates by concluding agreements with governmental and non - governmental agencies to provide appropriate job opportunities for them, and they have been:
 - 1- Agreement with the Ministry of Planning / Central Bureau of Statistics on the appointment of graduates of the Statistics Department in the Basra Statistics Directorate, and this agreement is still in effect for this year.
 - 2- Agreeing with foreign oil companies, especially BP, on appointing our college graduates.
 - 3- Agreement with Microsoft to train students and give them an accredited certificate to qualify them for appointment in governmental and non-governmental departments and give them an international certificate in this field.
 - 4- Agreement with private banks to adopt our college graduates, especially graduates of the Department of Financial and Banking Sciences, for the purpose of attracting students and training them to obtain work in private banks operating in Basra.

The seventh axis - academic programs and teaching methods

- Obtaining academic accreditation: The Economy Department seeks to obtain academic accreditation
- Scientific agreements: Our college has concluded agreements and memoranda of understanding with Arab and international universities, which number (7) agreements:
 - 1- The Spanish University of Fatsia, which is the fourth agreement that the college signs with international universities.
 - 2- French University of Rett signed with the accounting department.
 - 3- British University of Derm signed with the college.
 - 4- The American University of Okloha signed with the Department of Financial and Banking Sciences.
 - 5- The Jordanian University of Mu'tah signed with the college.
 - 6- British male university signed with the college.
 - 7- The German University Agreement on 3/27/2017

The eighth axis - scientific research

For the organizational and administrative structure of the scientific departments 2021/2022

The self -evaluation report for scientific departments

Department of Economics

The vision seeks the Department of Economics - College of Administration and Economics - Basra University to be one of the distinguished departments of the economy at the scientific and administrative levels through the application of quality assurance standards and academic accreditation issued by the Ministry of Higher Education and Scientific Research. The department also aims to keep pace with the movement of developments in the corresponding scientific departments in international universities, as well as documenting the relationship of the section to society and keeping pace with the **movement of economic developments.**

The message is to serve the community through the following:

- 1- Preparing students to obtain a Bachelor's degree in Economic Sciences.
- 2- Preparing specialists in economic science holds a master's and doctorate degree.
- 3- Preparing research and studies in various specializations in economic sciences.
- 4- Providing advice, economic feasibility studies and strategic studies of the external parties that require this.
- 5- Cooperation with public sector institutions and the private sector in the field of economic studies.
- 6- Holding specialized seminars and scientific seminars.

Goals aims to divide the economy

- 1- Improving the scientific level of the department (students and teaching staff).
- 2- Pursuing scientific and cognitive development in the field of specialization.
- 3- Providing a better teaching climate for students and students.
- 4- Create appropriate opportunities to fill the section of the section of scientific competencies.
- 5- Improvement and expansion of responding to the labor market and community service.
- 6- Working for the department subject to an academic accreditation certificate.

The case of the scientific section

First - the teaching staff

- 1- Modern and accurate scientific specializations: The Economy Department has an integrated teaching staff in terms of modern and accurate scientific disciplines.
- 2- Certificates of Certificates: There is a diversity in the economy department in scientific degrees (doctorate and masters) and in the various disciplines required by the department in postgraduate and parental studies.
- 3- The structure of the department- the preparation of the two teachings in relation to the preparation of students: that the number of students in the department that reaches (1240) students compared to (26) teaching, that is, approximately 47 students for each team. This number is large and requires the appointment of more teaching staff to advance the educational reality of the department. .

Self -Evaluation Report of the College of Administration and Economics 2021/2022

4- The experience of cadres in the field of teaching and scientific research: The Economy Department has a teaching staff with extensive experience in the field of teaching and scientific research. Nevertheless, local and international developmental and training courses must be available for the teaching staff to keep pace with the latest developments in the field of teaching and scientific research

5- Teaching staff ethics: The teaching staff has high moral obligations, and this is reflected in their dealings with students.

6- The commitment of teaching cadres to office hours to follow up students and scientific research: the teaching staff is obligated to do so

7- The development of scientific research and books of books: It is not only for the purpose of scientific promotions: the movement of scientific research in the department is very good, as it supplies Iraqi organizations with ideas of administrative and organizational development, as the department professors contribute to the scientific research and the writing of books is not for the purposes of scientific promotions.

8- Development in the curricula: relying on the sectoral body of Iraqi universities, the curricula are constantly developed and updated.

9- Other service supplies for the service of the teaching staff:

A- The teaching offices and their supplies: the teaching offices are good in terms of furniture

B- Bathrooms and toilets: well available

C- Computers are available for teachers: Computers are not available for teachers and no internet is available

Weak points	strength points
<p>1.The preparation of students in the department, which reaches (1061) students, compared to (26) a lecture, that is, approximately (41) students for each team. This number is large and requires the appointment of more teaching staff to advance the educational reality of the department. .</p> <p>2. Lack of local and international developmental and training courses for the teaching staff to keep pace with the latest developments in the field of teaching and scientific research</p> <p>3- Computers are not available for teachers and no internet is available.</p>	<p>1- The Economy Department has an integrated teaching staff in terms of modern and accurate scientific disciplines.</p> <p>2- There is a diversity in the economy department in scientific degrees (doctorate and masters) and in the various disciplines required by the department in postgraduate and first studies.</p> <p>3- The Economy Department has a teaching staff with extensive experience in the field of teaching and scientific research</p> <p>4- The teaching staff has high moral obligations, and this is reflected in their dealings with students.</p> <p>5- Depending on the sectoral body of Iraqi universities, the curricula are constantly developed and updated.</p> <p>6- The teaching offices are good in terms of furniture</p>
threats	Opportunities
<p>1. Reducing the teaching retirement age to 63 years</p> <p>2- Lack of financial allocations for the custody inside and outside Iraq</p>	<p>1.Increasing scientific specializations in the department by opening the door for appointments for holders of higher degrees according to what the scientific structure requires</p> <p>2- Expanding the horizons of research cooperation with the corresponding departments in Arab and international universities through participation in scientific conferences, seminars, workshops and research.</p>

Second - Obtaining academic accreditation

The total number of primary study students and all stages = 1061

The total number of graduate students = 47 courses = 14 Writing = 33

And compare it with:

1. Number of classrooms:

Initial study / The number of classrooms is not suitable for the number of students, as the number of halls is (8) halls, which is a very small number compared to the number of students

Graduate studies / The number of allocated halls is suitable for the number of graduate students.

2. The number of seats:

Self -Evaluation Report of the College of Administration and Economics 2021/2022

Initial study / The department's plan for students' admission is between (150) students to (200) students annually, but the actually acceptable number is very permissible with a number of (300) students

Graduate studies / postgraduate studies are suitable for the actually acceptable number in the department.

3. Preparing the teaching staff:

Initial study / The preparation of students in the department that reaches (1061) students compared to (26) teaching, that is, approximately (40) students for each teaching.

Graduate studies / The number of teaching staff is proportional to the scientific titles with the number of students in postgraduate studies

4. Micro-majors for the teaching staff:

Initial study / The exact majors of the teaching staff are commensurate with the curriculum in the department

Graduate Studies / The accurate specializations of the teaching staff are suitable for the curriculum - for postgraduate studies in the department

5. Preparing the curriculum books (free education):

Initial study / The preparation of the curriculum books is not commensurate with the number of students in preliminary studies

Graduate Studies / Free data is not suitable for postgraduate studies requirements

6. Preparing and diversifying modern scientific sources in the college library:

Initial study / The preparation and diversity of modern scientific sources in the college library is not commensurate with the number of students in preliminary studies

Graduate studies / The preparation and diversity of modern scientific sources in the college library is not commensurate with the requirements of graduate students.

7. Other service requirements for students service:

A- Laborators and computer preparation:

Initial study / The number of laboratories and computers is not suitable for the number of initial studies students

Graduate studies / No laboratory or computers are available for graduate students.

B- Availability of the internet: No internet is available

C- The bathrooms: The bathrooms are not available in proportion to the numbers of students

W- Green spaces: Green spaces are available in the college

C- Water colds: Available

H- Refugee devices: Available

X- Sports stadiums and the practice of students' activities and hobbies: they are not available

Weak points	Strength points
<p>1.The number of classrooms does not fit with the number of students, as the number of halls is (8) halls, which is very small compared to the number of students in preliminary studies.</p> <p>2.The preparation of students in the department that reaches (1061) students compared to (26) teaching, that is, approximately 47 students for each team, and this number is considered large and requires the appointment of more teaching staff</p>	<p>1.The number of halls allocated to postgraduate studies is suitable for the number of students.</p> <p>2.Graduate studies seats commensurate with the actually acceptable number in the department.</p> <p>3.The number of teachers from the scientific titles holders is suitable for the number of students in postgraduate studies</p>

Self -Evaluation Report of the College of Administration and Economics 2021/2022

<p>3.The preparation of the curriculum books is not commensurate with the number of students in preliminary studies</p> <p>4.The preparation and diversity of modern scientific sources in the college library is not commensurate with the number of students in preliminary studies</p> <p>5.The number of laboratories and computers is not suitable for the number of initial studies students</p> <p>6.No laboratory or computers are available for graduate students</p> <p>7. The bathrooms are available in proportion to the number of students</p> <p>8.Water refrigerators are not available</p> <p>9. Sports stadiums are not available to practice students with their activities and hobbies</p> <p>10- The Internet is not available</p>	<p>4.The accurate specializations of the teaching staff are commensurate with the curriculum in the department</p> <p>5.The preparation and diversity of modern scientific sources in the college library is somewhat appropriate with the requirements of graduate students</p> <p>6.Green spaces are available in the college</p> <p>7- The cooling devices are available</p>
threats	Opportunities
The lack of material and financial supplies.	The desire to obtain a certificate

Third - Student Affairs

Initial study in terms of

Prepared by admitted students = 250

Admission plan = 150

Admission rates = 65%

school system :

1- E-learning:

There are some methods that professors and students know in dealing with materials.

Provides specialized workshops on e -learning - E -learning in Iraqi colleges is not qualified, as it needs infrastructure.

Students deal with e -learning needs scientific trust by students

Difficulty in some of the materials that need students to attend.

2- Transit System:

The transit system confuses the work of the examination committee

- You are promoting the student in the event of his failure with transit materials.

3- The third floor:

- Providing the opportunity for students, especially students who are absent for special circumstances.

Lost time and not catching third round students with their peers.

The third round exams are accompanied by increasing burdens and delay in the educational process

4- Course System: The system was canceled because the infrastructure was not available in the department.

5- The courses system:

- Providing the opportunity to study the largest number of subjects

- The small number of hours for each substance with the diversity of materials.

The increasing numbers of the study units with which the student graduates.

6- Return the pillars for previous years:

- Providing students with special circumstances that were the reason for their promotion.

- Delayed issuance of orders of the usual students from promotion

The difference in study systems for the student

Weakness points	Strength points
<p>1 -E-learning in Iraqi colleges is not qualified, as it needs infrastructure</p> <p>2 -Students deal with e-learning needs scientific trust by students</p> <p>3 -Difficulty in some of the subjects that need students to attend</p> <p>4 -You are promoting the student's registration in the event of his failure with transit materials</p>	<p>1- There are some methods that professors and students know in dealing with materials.</p> <p>2- Provides specialized workshops on e-learning</p> <p>3- Providing the opportunity for students, especially students who are absent for special circumstances.</p> <p>4- Providing the opportunity to study the largest number of subjects</p>

Self -Evaluation Report of the College of Administration and Economics 2021/2022

5 -Lost time and not catching third round students with their peers. 6 -Delayed issuance of the orders of the usual students from the promotion 7- The difference in study systems for the student.	5- Increasing the numbers of the study units with which the student graduates 6- Providing the opportunity for students who have special circumstances that were the reason for their promotion
Threats	Opportunities
1 -The success rates of success are not consistent with the scientific reality of students 2 -The transit system confuses the work of the examination committee 3- The third floor exams are accompanied by the increase in burdens and delay in the educational process	Providing the appropriate infrastructure for the advancement of e -learning

Graduate studies in terms of

1- Teaching staff:

- The experience of cadres in the field of teaching and scientific research: The teaching staff in the Department of Economics has extensive experience in the field of teaching and scientific research.
- Dependence on modern and advanced scientific sources: The teaching staff in the Department of Economics depends on modern scientific sources in teaching the curriculum.
- Certificate - The Scientific Nick: The teaching staff assigned to teach in postgraduate studies are all holders of a doctorate who holds scientific titles (Professor - Assistant Professor)

2- Graduate Students:

Competition for admission: 60-30%

Admission areas: PhD - Master - High Diploma

- Preparing admitted students - due to the preparation of the teaching staff in terms of experience, certificate and scientific title:
- The number of students admitted in postgraduate studies is proportional to the number of teaching staff in the economy department in terms of experience, certificate and scientific title.

Building an independent library for graduate studies equipped with modern scientific sources and with the Internet:

- There is no private library in the section, and there is no internet.

Weakness points	Strength points
1.Decreased students 'admission rates 2.The lack of a library for postgraduate studies 3.The lack of the Internet	1.The presence of a large number of teachers who hold a doctorate with the rank of professor and assistant professor who have experience in the field of teaching and scientific research. 2.The presence of halls dedicated to graduate students equipped with modern clarification methods 3.The number of admitted students is compatible with the admission plan and the preparation of the teaching staff.
Threats	Opportunities
1.Lack of financial allocations 2.Instructions for accepting students related to the Ministry	1.Building modern halls 2.Raising students' admission rates

Fourth - curricula

- 1 -The extent of the percentage of update in the subjects to keep pace with the scientific development and the labor market: the percentage of modernization with the subjects is very good.
- 2 -Adopting the English language subject in the curricula and all stages: The English language subject is not adopted in the curricula of all stages, as it is approved for the first, second and third stages- the transport branch

Self -Evaluation Report of the College of Administration and Economics 2021/2022

3 -Dependence on curricula with a modern edition: it is somewhat dependent on most subjects on modern sources of the curricula.

4 -The preparation of the books of the subjects in (free education) is available to the ratio of the promise of students: the preparation of the books of the subjects in free education is not appropriate with the numbers of students in the department.

5 -Teaching computers (theoretical- practical) by a specialized teaching staff (computer science) and by relying on modern curricula to keep pace with scientific development: there are no professors specialized in teaching computer subject.

6 -Providing computer laboratories with modern capacity and technology and preparing computers that suit the numbers of students: Modern computer laboratories are available with computers that suit the numbers of students.

7 -Focusing to rely on teaching (practical + theoretical) some of the subjects to benefit the student in the labor market after graduation: the teaching method (practical + theoretical) is used some subjects to benefit the student in the labor market after graduation.

8- Adoption of courses (courses) instead of the annual system: The courses system is approved instead of the annual system.

Weakness points	Strong points
1.The English language subject is not adopted in the curriculum for all stages, as it is approved for the first, second and third aids- the transport branch. 2.Preparing books in free education is not commensurate with the number of students 3.The lack of professors specialized in teaching computers 4.The lack of the teaching staff qualified to teach in the English language 5.The lack of academic curricula with a modern edition	1.The percentage of update in the subjects is very good. 2.It is somewhat dependent in most of the subjects on modern sources of the curricula. 3.The presence of a large number of teaching. 4.The presence of modern computer laboratories 5.Focusing to rely on teaching (practical + theoretical) for some subjects to benefit the student in the labor market. 6. Adopting the courses system instead of the annual system
Threats	Opportunities
1.Lack of financial credits 2.The powers are linked to the higher authorities and not authorizing them to the lower entities (university) or college	1.The possibility of qualifying some of the teaching staff by sending them to training courses outside Iraq to strengthen the English language 2.The appointment of professors specialized in English and computers

Fifth - service supplies

1.School halls and their suitability for teaching (hygiene - lighting - seats - the availability of air fans and air conditioners - windows and curtains - doors of the classroom - etc.): The economy department is available in the appropriate study halls for teaching as they are available in them All paragraphs above.

2.Updating and expanding the halls according to the latest specifications and providing them with all modern technologies that serve the teaching process: the halls are updated and expanded periodically

3.Office of the faculty members in terms of the availability of (hygiene- lighting- air conditioners- furniture- computers- internet): faculty members offices with the above paragraphs except for the internet.

4. Bathrooms (bathrooms) in terms of (number- hygiene- water availability): lack of water cycles

5. Provides drinking water refrigerators: Do not be available

Weakness points	Strength points
1.The lack of water refrigerators 2.Lack of bathrooms 3.The Internet is not available	1.Classical halls for teaching in terms of (hygiene- lighting- study seats- the availability of air fans and air conditioners- windows and curtains- doors of the classroom etc) 2.Updating and expanding the halls according to the latest specifications and providing them with all modern technologies.
Threats	Opportunities
Lack of financial allocations	The availability of the desire for the college administration to address the weaknesses and the development of the college

Self -evaluation of the status of the scientific section

Self -Evaluation Report of the College of Administration and Economics 2021/2022

Scientific section strategy

Weakness points	Strength points
<ol style="list-style-type: none">1.Lack of some disciplines2.The lack of modern halls that meet the expansionary needs of the department	<ol style="list-style-type: none">1.The existence of a desire among the teaching staff to develop the department2.The presence of an important number of researchers in the department3.Providing government institutions with studies, research and economic consultations
Threats	opportunities
The presence of one hall in the college for discussions	<ol style="list-style-type: none">1.The presence of great support for the department from the Deanship of the College2.The existence of the possibility to improve the performance of the department through the interaction between the administration and the teachers

Teaching staff

Prof. Dr. Amjad Sabah Abdel -Aali / Head of the Economics Department

Business Administration Department

The vision aspires that the Business Administration Department be distinguished in all areas of scientific research, consulting and community service.

The message will achieve the primary and best section of all departments of business administration in Iraqi universities.

Objectives

- 1 -Upgrading postgraduate studies for the better
- 2 -twinning with Arab and foreign universities
- 2- Developing the relationship with the public and private sector in the field of community service and providing the best
- 3- consultations
- 4 -Holding annual scientific conferences

The case of the scientific section

First: the teaching staff

Weakness points	Strength points
1.The department's admission plan for preliminary study students is not commensurate with the central admission to students, where the department's plan is 150 students. As for the central admission (400- 500) students. 2.The number of classrooms is not appropriate for students' numbers. 3.The movement of scientific research for the purpose of scientific promotion only.	1.The department has a teaching staff with scientific experienced experience 2.Various scientific specializations 3. The staff has digital skills that qualify him for the experience of e-learning 4.The high moral commitment by the teaching staff in electronic and civilized communication with students
Threads	chances
Lack of administrative development courses to develop students and college employees skills in line	1.Testants seek to participate in local and external development courses

Self -Evaluation Report of the College of Administration and Economics 2021/2022

with the technological factors of the external environment	2.Serious pursuit of the educational level and obtaining a higher degree 3.Electronic communications enabled participating in remote development courses 4.Refining the cognitive aspects due to the websites by obtaining the required information regardless of the place and time
------------------------------------------------------------	--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------

Second - obtaining an academic accreditation certificate

The total number of primary study students and all stages = 2525

The total number of graduate students = 23 courses = 10 writing = 13

And compare it with:

1.Number of classrooms:

Initial study / The number of classrooms is not appropriate for the number of students, as the number of halls is (6) halls, which is a very small number compared to the number of students

Graduate studies / the number of halls is suitable for graduate students.

2.The number of seats:

Initial study / The department's plan for students 'admission is between (150) students to (200) students annually, but the actually acceptable number is very permissible with a number of (400) students

Graduate studies / postgraduate studies seats commensurate with the actually acceptable number in the section = 20 students.

3.Preparing the teaching staff:

Initial study / The preparation of students in the department that reaches (2525) students compared to (31) teaching, that is, approximately (60) students for each teaching.

Graduate studies / The number of teaching staff is proportional to 15 leagues from the scientific titles holders with the number of students in postgraduate studies

4. Micro-majors for the teaching staff:

Initial study / The accurate scientific specializations of the teaching staff are commensurate with the curriculum in the department

Graduate Studies / The accurate scientific specializations of the teaching staff are commensurate with the curricula - for postgraduate studies in the department

5.Preparing the curriculum books (free education):

Initial study / The preparation of the curriculum books is not commensurate with the number of students in preliminary studies

Graduate Studies / Free data is not suitable for postgraduate studies requirements

6.Preparing and diversifying modern scientific sources in the college library:

Initial study / The preparation and diversity of modern scientific sources in the college library is not commensurate with the number of students in preliminary studies

Graduate studies / The preparation and diversity of modern scientific sources in the college library is not commensurate with the requirements of graduate students.

7.Other service requirements for students service:

Self -Evaluation Report of the College of Administration and Economics 2021/2022

A- Laborators and computer preparation:

Initial study / The number of laboratories and computers is not suitable for the number of initial studies students, as the number of computers is 46 calculators and one laboratory.

Graduate studies / No laboratory or computers are available for graduate students.

B- Availability of the Internet: The Internet is available

C- The bathrooms: The bathrooms are not available in proportion to the numbers of students, as they number = 6

D- Green Spaces: Green spaces are available in the college

E- Water colds: Available = 1

F- Refugee devices: available where they are = 12

G- Sports stadiums and students' activities and hobbies: Do not be available

Weakness points	Strength points
1.Weak financial allocations 2.The lack of sufficient study halls to prepare students 3.The department's lack of modern teaching means	1.Establishing and documenting digital scientific seminars as activities for the department 2.The presence of a teaching staff with solid scientific experience and various accurate specialties 3.The refrigeration devices are provided for all the classrooms and faculty members offices. 4.Granted hours for students to practice their hobbies and non-class activities.
Threads	Opportunities
The lack of financial and material supplies supporting this topic	The serious desire to obtain academic accreditation

Third - Student Affairs in terms of

Initial study in terms of

Prepared by admitted students = 600

Admission plan = 150

Admission rates = 65%

school system:

E-learning:

There are some methods that professors and students know in dealing with materials.

Provides specialized workshops on e -learning

E -learning in Iraqi colleges is not qualified, as it needs infrastructure.

Students deal with e -learning needs scientific trust by students

Difficulty in some of the materials that need to attend students.

2.Transit System:

The transit system confuses the work of the examination committee

You are promoting the student in the event of his failure with transit materials.

3.The third floor:

Providing the opportunity for students, especially students who are absent for special circumstances.

Lost time and not catching third round students with their peers.

The third round exams are accompanied by an increase in burdens and delay in the educational process

4.Course System: The system was canceled because the infrastructure was not available in the department.

5.The courses system:

Providing an opportunity for a greater study of a number of subjects

Self -Evaluation Report of the College of Administration and Economics 2021/2022

The small number of hours for each substance with the diversity of materials.

The increasing numbers of the study units with which the student graduates.

6.Return the pillars for previous years:

Providing students with special circumstances that were the reason for their promotion.

Delayed issuance of orders of the usual students from promotion

The difference in study systems for the student

Weakness points	Strength points
1.A significant increase in the number of admitted students causes the large number of burdens related to registration procedures 2.Lack of communication between students and the employers of the labor market 3. The presence of two teaching systems that creates confusion in preparing tables and organizing annual lists	1.All students who graduate from the scientific or literary and commercial branch 2.The department enjoyed the high acceptance in the labor market 3.Return to the courses system due to its suitability with the capabilities available to the department 4. Success rates are high 5.The presence of two teaching systems and the annual system in an attempt to provide the maximum educational services to students
Threats	Opportunities
1.The lack of a mechanism for cooperation with the corresponding departments in private universities 2.Streamlined confusing students from one stage to another due to the transit system and the third floor	1.The possibility of accommodating more numbers than students by increasing financial allocations 2.The opening of many corresponding departments in private universities 3.Continuous communication between students and cadres due to the electronic education system 4.Granted a third role that gives students the opportunity to compensate for failure in previous attempts

Graduate studies in terms of

1- Teaching staff:

- The experience of cadres in the field of teaching and scientific research: The teaching staff in the Business Administration Department has extensive experience in the field of teaching and scientific research.

- Dependence on modern and advanced scientific sources: The teaching staff depends on modern scientific sources in teaching the curricula available on the Internet.

- Certificate - Scientific title: The teaching staff assigned to teach in postgraduate studies are all holders of a doctorate degree who hold scientific titles (Professor - Assistant Professor)

2- Graduate Students:

- Competition rate for admission: According to ministerial instructions

Admission areas: PhD = 5 seats - Master = 5 seats - High diploma

- Preparing admitted students - due to the preparation of the teaching staff in terms of experience, certificate and scientific title: The number of students admitted in postgraduate studies is proportional to the number of teaching staff in terms of experience, certificate and scientific title.

-Building an independent library for postgraduate studies equipped with modern scientific sources and with the internet: There is no private library in the department of the graduate students and there is no internet network

Weakness points	Strength points
1.Most of the scientific sources that were relied upon in teaching and research were the electronic sources available on the Internet.	1.The department includes five graduate programs: (doctorate, masters, strategic planning diploma, project management diploma, quality diploma) 2.Higher diploma students, the majority of engineers and administrators nominated from the General Secretariat of the Council of Ministers

Self -Evaluation Report of the College of Administration and Economics 2021/2022

	<p>3.Students have a strong motivation towards excellence and excellence in the field of study and research in the specialty of business administration</p> <p>4.Catched scientific cadres, qualifying "high scientific and from the scientific titles holders</p> <p>5.The diversity of scientific specializations for the teaching staff</p> <p>6.Success rates are acceptable</p> <p>7.All students of the research stage are submitted and discussed within the micro-period</p>
Threats	Opportunity
<p>1.The lack of application of scientific research achieved in the practical reality of the province in a way that contributes to its renaissance</p> <p>2.Dependence on self-efforts in holding scientific meetings between the governorate and the department and the lack of government parties supporting the subject</p>	<p>1.The possibility of expanding the opening of postgraduate programs according to "the requirements of the public interest of the province</p> <p>2.Supporting research projects for higher diploma students from the General Secretariat of the Council of Ministers</p> <p>3.Communication between the scientific department and students, even after graduation, to take advantage of the directions of the world and administrative consultations</p> <p>4.Completion of joint research between the teaching cadres and students after graduation</p>

Fourth - curricula

1- The extent of the percentage of update in the subjects to keep pace with the scientific development and the labor market: the percentage of modernization with the subjects is good.

2- Adopting the English language subject in the curriculum and for all stages: The English language subject is not adopted in the curricula of all stages

3- Dependence on curricula with a modern edition: it is somewhat dependent on most subjects on modern sources of the curricula.

4- The preparation of the books of the subjects in (free education) is available to the ratio of the promise of students: the preparation of the books of the subjects in free education is not appropriate with the numbers of students in the department.

5- Teaching computers (theoretical- practical) by a specialized teaching staff (computer science) and by relying on modern curricula to keep pace with scientific development: there are no professors specialized in teaching the theoretical computer.

6- Providing computer laboratories with modern capacity and technology and preparing computers that suit the numbers of students: modern computer laboratories are available with computers that do not suit the numbers of students.

7- Focusing to rely on teaching (practical + theoretical) some of the subjects to benefit the student in the labor market after graduation: the teaching method (practical + theoretical) is used some subjects to benefit the student in the labor market after graduation.

8.Adoption of courses (courses) instead of the annual system: the courses system is approved

Weakness points	Strength points
<p>1.Difficulty dealing with modern curricula</p> <p>2.Some students do not accept the idea of digital curricula</p> <p>3.Some students adhere to the traditional teaching system and not be able to match the progress achieved in the educational system</p>	<p>1.Digital curricula replaced the paper curricula</p> <p>2.The modernity of the curricula and its simulations of modern administrative topics</p> <p>3.Curricula for all students on the Internet</p> <p>4.Opening of curricula in a renewed digital era</p> <p>5.Teaching methods have become varied, and the student can obtain the information from various sources</p>
threats	Opportunity
<p>1. Society rejects the idea of e-learning in a way that causes the student's psychological concern</p> <p>2.Some students are uncomfortable when dealing with the electronic system due to network problems or misuse of programs</p>	<p>1.The diversity of sources of knowledge, including contributing to the assistance of the student's mind</p> <p>2.The approach of modern curricula with the problems achieved in the current environment</p> <p>3.The student's self-reliance in collecting information and analyzing it in a way that enhances aspects of creative thinking</p> <p>4. Developing individual skills using modern technology in education and research</p>

Self -Evaluation Report of the College of Administration and Economics 2021/2022

Fifth - service supplies

1- Study halls and their suitability for teaching (hygiene - lighting - study seats - the availability of air fans and air conditioners - windows and curtains - doors of the classroom - etc.): in the business department department is available in the department It has all the paragraphs above.

2- Updating and expanding the halls according to the latest specifications and providing them with all modern technologies that serve the teaching process: the halls are updated and expanded periodically

3- Office of the faculty members in terms of the availability of (hygiene- lighting- air conditioners- furniture- computers- internet): faculty members offices with the above paragraphs except for the internet.

4- Bathrooms (bathrooms) in terms of (number- hygiene- water availability): the lack of water cycles, as the number of students is not suitable.

5- Provides drinking water refrigerators: Available

Weakness points	Strength points
The lack of an internet in the department	1.The advent of the study halls for teaching 2.The availability of modern laptops 3. Continuous maintenance of cloning devices and printers 4. Dependence on personal efforts of the teaching cadres to enter the internet networks
threats	Opportunity
The lack of an internet in the department	The desire of the concerned authorities to address the weaknesses and develop the reality of the department

Self -evaluation of the status of the scientific section

Scientific department strategy

Weakness points	Strength points
1- Buildings and halls are small and do not harmonize with the activities of the department and prepare students 2. Not to activate the graduate students' follow-up committees	1.Teaching cadres with high scientific experience and various specialties 2.Activating promotion transactions for teaching cadres to obtain higher scientific degrees 3.An increase in the numbers of students admitted in preliminary studies 4. Various postgraduate programs 5.The availability of laptops and cloning devices 6.Cooperation between teaching cadres in order to provide educational service to students 7.Acceptable success rates in preliminary and higher studies 8.Create electronic committees to direct the department's cadres and students towards the correct use of electronic sites and educational links
threats	Opportunities
1.The large number of corresponding departments in the civil colleges 2.The e-learning system requires the application of modern methods of teaching and preparing the curriculum 3.Establishing electronic platforms to provide all educational and research services for teaching cadres and communication as well as the external community to solve problems	1.The presence of moral support for the department by the university presidency and the College Deanship 2.Follow-up of high diploma programs and the quality of graduates by the Cabinet Secretariat annually.

Assist. Prof. Dr. Nada Abdel Qader Abdel Sattar
Head of the Department of Business Administration

Department of Accounting

The vision is excellence in innovation in the performance of the educational and research process and accounting knowledge in accordance with scientific standards for the purpose of achieving the leadership. The message comes out qualified and trained human cadres according to accounting specializations required in the labor market and continuous encouragement to develop and diversify theoretical and applied research continuously to address scientific, professional and environmental issues to serve business institutions and organizations that are not aimed at the graduate.

Goals This section aims to study the science of accounting and provide male and female students with technical and scientific skills and competencies to practice the accounting profession in all its branches in various institutions and organizations, including commercial, industrial, agricultural and banking companies, government agencies in their various units, as well as private accounting offices spread throughout the country, and through a scientific methodology Patients with renewed scientific developments in the various branches of specialization. The department also seeks to qualify its students and provide them with the necessary skills and use the latest modern technologies in information systems and accounting applications using automatic computers. The department is also male and female students for advanced and higher studies in accounting disciplines.

strategic goals

- 1- Developing and evaluating teaching methods and educational curricula so that it keeps pace with the development of development
- 2- Rehabilitation and training of new faculty members who have the title of assistant teacher professor to develop their efficiency for a period of not less than three months
- 3- Establishing laboratories and workshops to link the theoretical aspect to the practical side in light of the needs of the labor market
- 4- Finding systems to stimulate teaching and employees
- 5- Development of the electronic central library

The case of the scientific section

First: the teaching staff

- 1- Modern and accurate scientific specialties:
- 2- Certificates of Certificates:
- 3- Department of the department- the numbers of teaching staff relative to the number of students:
- 4- The experience of cadres in the field of teaching and scientific research:

Self -Evaluation Report of the College of Administration and Economics 2021/2022

5- Ethics of teaching cadres:

6- Commitment to teaching cadres in office hours to follow students and scientific research:

7- The development of scientific research and book writing: It is not for the purpose of scientific promotions only:

8- Development in the curriculum:

9- Other service requirements for the teaching service:

A- Teaching offices and their requirements:

B- Bathrooms and toilets:

C- Providing computers for teaching:

Weakness points	Strength points
<p>1- The preparation of students in the department, which reaches (1170) students, compared to (19), is approximately 75 students for each team. This number is very large and requires the appointment of more teaching staff to advance the educational reality of the department. As available from teaching cadres, classrooms and other supplies, she cannot advance this number of students. .</p> <p>2- Lack of local and international developmental and training courses for the teaching staff to keep pace with the latest developments in the field of teaching and scientific research</p> <p>3. Computers are not available for teachers and no internet is available</p>	<p>1.The Accounting Department has a teaching staff in terms of modern and accurate scientific disciplines.</p> <p>2.In the accounting department there is an integrated teaching staff</p> <p>3.The Accounting Department is characterized by the diversity of scientific certificates (doctorate and masters) and with the various disciplines required by the department in postgraduate and parental studies.</p> <p>4.The Accounting Department has a teaching staff with extensive experience in the field of teaching, scientific research and participation in global conferences</p> <p>5.The teaching staff has high moral obligations, and this is reflected in their dealings with students.</p> <p>6.Depending on the sectoral body of Iraqi universities, the curricula are constantly developed and updated and urged students to rely on modern and sober sources.</p> <p>7.Teaching offices are good in terms of furniture and hygiene.</p>
Threats	Opportunity
<p>1.Reducing the age of teaching retirement to 63 years, which affected the structural structure</p> <p>2.Lack of financial allocations for the custody inside and outside Iraq</p>	<p>1.Increasing scientific specializations in the department by opening the door for appointments for holders of higher degrees according to what the scientific structure requires</p> <p>2.Expanding the horizons of research cooperation with the corresponding departments in Arab and international universities through participation in scientific conferences, seminars, workshops and research</p>

Second: Academic accreditation certificate

- The total number of primary study students and all stages = 1170

- The total number of graduate students = 29 courses = 20 writing = 9

And compare it with:

1- Number of classrooms:

Initial studies are not suitable for the number of classrooms with the number of students, as the number of halls is (10) halls, which is a very small number compared to the number of students

Higher studies are suitable for the number of allocated halls with the number of graduate students.

2- The number of seats:

Initial studies that the department's plan for students' admission is we find between (150) students to (200) students annually, but the actually acceptable number exceeds this with a number of more than (250) students

Graduate studies, postgraduate studies, commensurate with the actually acceptable number in the department.

Self -Evaluation Report of the College of Administration and Economics 2021/2022

3- Preparing the teaching staff:

Initial studies that the preparation of students in the department that reaches (1170) students compared to (19) teaching, that is, approximately 75 students for each teaching, and this number is very large and requires the appointment of more teaching staff

Graduate studies The number of teaching staff is proportional to the scientific titles with the number of students in postgraduate studies

4- Micro-majors for the teaching staff:

Initial studies are appropriate to the exact specializations of the teaching staff with the curriculum in the department

Graduate studies commensurate with the accurate specializations of the teaching staff with the curriculum - for postgraduate studies in the department

5- Preparing the curriculum books (free education):

Initial studies are not appropriate to prepare curriculum books with the number of students in preliminary studies

Postgraduate studies are not suitable for free education with postgraduate studies requirements

6- Preparing and diversifying modern scientific sources in the college library:

Initial studies are not commensurate with the preparation and diversity of modern scientific sources in the college library with the number of students in preliminary studies

Graduate studies are not commensurate with the preparation and diversity of modern scientific sources in the college library to some extent with the requirements of graduate students

7- Other service requirements for students service:

A- Laboratories and computer preparation:

Initial studies are not suitable for the number of laboratories and computers with the number of initial studies students

Higher studies are not available for any laboratory or computers for graduate students.

B- Availability of the internet: There is no internet network

C- The bathrooms: The bathrooms are not available in proportion to the numbers of students

D- Green Spaces: Green spaces are available in the college

E- Water colds: No available

F- Refugee devices: Available

G- Sports stadiums and students' activities and hobbies: Do not be available

Weakness points	Strength points
<p>1.The number of classrooms does not fit with the number of students, as the number of halls is (8) halls, which is very small compared to the number of students in preliminary studies.</p> <p>2.The preparation of students in the department that reaches (1170) students compared to (19) teaching, that is, approximately 75 students for each team, and this number is considered large and requires the appointment of more teaching staff</p> <p>3.The preparation of the curriculum books is not commensurate with the number of students in preliminary studies</p>	<p>1.The number of halls allocated to graduate studies is suitable for the number of students</p> <p>2.Graduate studies seats commensurate with the actually acceptable number in the department.</p> <p>3.The number of teachers from the scientific titles holders is suitable for the number of students in postgraduate studies</p> <p>4.The accurate specializations of the teaching staff are commensurate with the curriculum in the department</p> <p>5.The preparation and diversity of modern scientific sources in the college library is somewhat appropriate with the requirements of graduate students</p> <p>6.Green spaces are available in the college</p>

Self -Evaluation Report of the College of Administration and Economics 2021/2022

<p>4.The preparation and diversity of modern scientific sources in the college library is not commensurate with the number of students in preliminary studies</p> <p>5.The number of laboratories and computers is not suitable for the number of initial studies students</p> <p>6.No laboratory or computers are available for graduate students</p> <p>7.The bathrooms are available in proportion to the number of students</p> <p>8.Water refrigerators are not available</p> <p>9.Sports stadiums are not available for students to practice their activities and hobbies</p> <p>10.The Internet is not available</p>	<p>7.The cooling devices are available</p>
threats	Opportunity
<p>Not to advance the university for the global level</p>	<p>1.The desire to obtain a certificate</p> <p>2.To open up to academic programs for universities</p> <p>3.The other through the Internet by specialists</p> <p>4.Circulating them to the college departments and displaying them in the department's meetings at a low cost</p> <p>5. Establishing workshops for the purpose of expanding this topic in terms of forming work teams to determine the criteria</p> <p>6.Setting positive and negative evidence and indicators</p>

Third: Student Affairs

Initial study in terms of

- Number of admitted students = 523

Admission plan = 150

Admission rates = 65-80

school system

1- E-learning:

There are some methods that professors and students know in dealing with materials.

Provides specialized workshops on e -learning

- E -learning in Iraqi colleges is not qualified, as it needs infrastructure.

Students deal with e -learning needs scientific trust by students

Difficulty in some of the materials that need students to attend.

2- Transit System:

The transit system confuses the work of the examination committee

- You are promoting the student in the event of his failure with transit materials.

3- The third floor:

- Providing the opportunity for students, especially students who are absent for special circumstances.

Lost time and not catching third round students with their peers.

The third round exams are accompanied by increasing burdens and delay in the educational process

4- Course System: The system was canceled because the infrastructure was not available in the department.

5- The courses system:

- Providing the opportunity to study the largest number of subjects

- The small number of hours for each substance with the diversity of materials.

The increasing numbers of the study units with which the student graduates.

6- Return the pillars for previous years:

- Providing students with special circumstances that were the reason for their promotion.

- Delayed issuance of orders of the usual students from promotion

The difference in study systems for the student.

Weakness points	Strength points
<p>1.E-learning in Iraqi colleges is not qualified, as it needs infrastructure</p> <p>2.Students deal with e-learning needs scientific trust by students</p>	<p>1.There are some methods that professors and students know in dealing with materials.</p> <p>2.Provides specialized workshops on e-learning</p>

Self -Evaluation Report of the College of Administration and Economics 2021/2022

<p>3.Difficulty in some of the subjects that need students to attend</p> <p>4.You are promoting the student's registration in the event of his failure with transit materials</p> <p>5.Lost time and not catching third round students with their peers.</p> <p>6.Delayed issuance of the orders of the usual students from the promotion</p> <p>7.The difference in study systems for the student</p>	<p>3.Providing the opportunity for students, especially students who are absent for special circumstances.</p> <p>4.Providing the opportunity to study the largest number of subjects</p> <p>5.Increasing the numbers of the study units with which the student graduates</p> <p>6.Providing the opportunity for students who have special circumstances that were the reason for their promotion</p>
Threats	Opportunities
<p>1.The success rates of success are not consistent with the scientific reality of students</p> <p>2.The transit system confuses the work of the examination committee</p> <p>3.The third floor exams are accompanied by the increase in burdens and delay in the educational process</p>	<p>1.Providing the appropriate infrastructure for the advancement of e-learning</p> <p>2.Using the optimum for the student's time and directing to the scientific openness to the world through</p> <p>3.Using the work of non-class activity teams and displaying efforts inside the hall to make the benefit to all students</p>

Graduate studies: in terms of

1.Teaching staff

The experience of cadres in the field of teaching and scientific research: The teaching staff in the - accounting department has extensive experience in the field of teaching and scientific research

Dependence on modern and advanced scientific sources: The teaching staff in the Department of - .Accounting depends on modern scientific sources in teaching the curricula

Certificate - The Scientific Nickname: The teaching staff assigned to teach in postgraduate studies, most of - them are a doctorate degree holders who hold scientific titles (Professor - Assistant Professor)

2.Competition for acceptance: 65-85%:Graduate Students

Admission areas: PhD - Master - High Diploma

Preparing admitted students - The rate of preparing the teaching staff in terms of experience, certificate and scientific title: The number of students admitted in postgraduate studies is proportional to the number of teaching staff in the accounting department in terms of experience, certificate and scientific title.

- Building an independent library for postgraduate studies equipped with modern scientific sources and with the internet: There is no private library in the graduate students and there is no internet network.

Weakness points	Strong points
<p>1.Weakness in the areas of admission low rates through the channel of the martyrs and the private alimony channel</p> <p>2.The lack of a library for postgraduate studies</p> <p>3.The lack of an internet network</p>	<p>1.The presence of a large number of teachers who hold a doctorate with the rank of professor and assistant professor who have experience in the field of teaching and scientific research.</p> <p>2.The presence of halls dedicated to graduate students equipped with modern clarification methods</p> <p>3.The numbers of students admitted to the admission plan and the preparation of the teaching staff</p>
Threats	Opportunity
<p>1.Reducing large carcinogenic cases</p> <p>2.Lack of financial allocations</p> <p>3.Instructions for accepting students related to the ministry</p>	<p>1.Opening a language course for a period of three months, similar to scientific universities</p> <p>2.The use of the department's calculator by postgraduate studies and by the teaching staff in the surplus hours, with the introduction of the Internet line</p> <p>3.Building modern halls</p> <p>4. Raising students' admission rates</p>

Self -Evaluation Report of the College of Administration and Economics 2021/2022

Fourth: The curriculum: in terms of

- 1- The extent of the percentage of update in the subjects to keep pace with the scientific development and the labor market
- 2- Adopting the English language subject in the curricula and all stages
- 3- Dependence on curricula with a modern edition.
- 4- The number of studies books in (free education) is available to the percentage of students.
- 5- Teaching computers (theoretical- practical) by a specialized teaching staff (computer science) and by relying on modern curricula to keep pace with scientific development.
- 6- Providing computer laboratories with modern capacity and technology and the numbers of computer devices that suit the numbers of students.
- 7- Focusing to rely on teaching (practical + theoretical) some subjects to benefit the student in the labor market after graduation.
- 8- Adoption of courses (Corcat) instead of the annual system

Weakness points	Strong points
<ol style="list-style-type: none"> 1.The numbers of devices that are not commensurate with the numbers of students and in terms of computers, the weakness of modern technologies and in terms of technological statute of limitations 2.It is not appropriate for the books available in free education with the numbers of students 	<ol style="list-style-type: none"> 1.The subjects contain high levels of modernization to adopt the teaching staff on books with modern modern editions by 70%. 2.Most accounting materials are taught in English 3.English books were translated into Arabic by some teaching cadres to put the material within the reach of students 4.Focusing in some subjects on practical + theoretical in order to serve the student in the labor market 5.Adopting courses instead of the annual system 6.Providing computers with advanced infrastructure and a teaching staff specializing in computer science.
Threats	Opportunities
<ol style="list-style-type: none"> 1.Lack of financial credits 2.The powers are linked to the higher authorities and the lack of delegation to the lower entities in the mosque and the college 	<ol style="list-style-type: none"> 1.Expansion in the number of laboratories in addition to the quality of materials that are taught to be programs related to accounting materials such as electronic audit programs. 2.Carry out the scientific travels for the third and fourth stages with the teaching in order to achieve interaction with the requirements of the market 3. Holding seminars and inviting the work of work for the distinguished companies as a link between the teaching and the labor market so that the material is directed by the teaching to the goal

Fifth: Service supplies in terms of

- 1.School halls and their suitability for teaching (hygiene - lighting - study seats - the availability of air fans and air conditioners - windows and curtains - the doors of the classroom - etc.).
- 2.Updating and expanding the halls according to the latest specifications and providing them with all modern technologies that serve the teaching process.
- 3.Office of the faculty members in terms of the availability of (hygiene- lighting- air conditioners- furniture- computers- internet).
- 4.Bathrooms (bathrooms) in terms of (number- hygiene- water availability) 0
- 5.Provides drinking water refrigerators

Weakness points	Strong points
1.The number of classrooms is not commensurate with the numbers of students	1.Expanding the classrooms according to the latest specifications and equipping them with modern technologies.

Self -Evaluation Report of the College of Administration and Economics 2021/2022

2.Preparation of students is not commensurate with the number of faculty members 3.Student acceptance rates are weak	2.Preparing the offices of the college members to suit their needs.
threats	Opportunities
The community needs graduates of the accounting department to work in state institutions and the private sector	Update and expansion of classrooms

Self -evaluation of the status of the scientific section Scientific section strategy

Weakness points	Strong points
Lack of some accurate scientific disciplines	<ol style="list-style-type: none"> 1. There is a desire for the head of the department and the teaching and employees to advance the department to the highest quality of performance 2. The level of rates is very high 3. The Accounting Department is one of the most important departments of the college in terms of demand for graduates by the local and foreign labor market 4. Keeping pace with the requirements of the labor market in terms of the required numbers of graduates of the Accounting Department
Threats	Opportunity
<ol style="list-style-type: none"> 1. The community's need for the accounting department must be interviewed by preparing more halls and providing a teaching staff commensurate with the numbers of students 2. In order to advance the university for the global level 	<ol style="list-style-type: none"> 1. Supporting the teaching in participation in external internal conferences 2. Expanding halls 3. The accounting department owns calculator, which were not used in the educational process in the department's laboratories to support the specialized teaching, and in a way that does not affect their administrative work 4. Opening a language course for a period of three months, similar to scientific universities 5. The use of the department's calculator by postgraduate studies and by the teaching hours in excess hours, with the entry of the Internet 6. Using the optimal for the student's time and directing the scientific openness to the world by using the work of non-class activity teams and displaying efforts in the hall to make the benefit to all students.

Assist.Prof. Dr. Alham Jaafar Hamid

Head of Accounting Department

Department of Statistics

The vision The Statistical Department aspires to be one of the scientific departments that are scientifically distinguished in teaching students for specialized statistical materials and providing scientific and statistical consultations that government departments and others need to serve society and seek to develop its scientific curricula and the efficiency of the teaching staff in it to reach the refineries of statistics departments in Arab universities and later global. Applying quality specifications and guaranteeing them as well as his endeavor to document the bonds of cultural and scientific relations between the ranks of his professors with the outside world in the various scientific and research aspects

The message seeks the Statistics Department at the College of Administration and Economics / Basra University to provide the best scientific levels for his students by giving lectures by the department's teaching and developing students' capabilities in the field of computer, as well as providing the best services and consultations in the statistical fields to all parties that exchange benefit and interests with the university service Society has to give scientific lectures in development courses as well as holding computer courses to train employees and raise their efficiency in its use and improve its performance.

- 1 -Preparing students for the labor market and developing their capabilities to interact and communicate with others through effective participation in the field training program.
- 2 -Preparing the curricula for the subjects and materials taught in the scientific departments of institutes and colleges.
- 3 -Preparing and preparing scientific staff through graduate programs.
- 4 -Interacting with other sciences, especially with mathematics and computer science
- 5 -Contributing to the development of statistics science and its branches through innovative scientific research and participating in scientific seminars and conferences and hosting some of them.

The case of the scientific section

First: the teaching staff in terms of

Self -Evaluation Report of the College of Administration and Economics 2021/2022

1 -Modern and accurate scientific specialties Certificates: All the specializations required in the statistical sciences are available in the department, as there are a number of teaching staff in mathematical statistics specialties, as well as the provisions for applied statistics specializations. The department has also been supported with a number of supporting specializations such as computer science, mathematics and economic sciences, but the department lacks to Some rare specializations, such as the jurisdiction of the theory of possibilities.

2 -The structure of the department- the preparation of the two teachings in relation to the preparation of students: that the number of students in the department that reaches (310) students in exchange for (18) teaching is approximately 21 students for each lecture. This number is good for the advancement of the educational reality of the department. As available from teaching cadres, classrooms, and other supplies, it enables the section to advance this number of students.

3 -The experience of cadres in the field of teaching and scientific research: Most of the teaching staff in the department have sufficient experience in the field of teaching as a result of the number of years they spent in this field, but it is necessary to provide local and international development and training courses for the teaching staff to keep pace with the latest developments in the field of teaching and scientific research

4 -Ethics of the teaching staff: very good and this is reflected through great respect between students and their professors.

5 -The commitment of teaching cadres to office hours to follow students and scientific research: There is an excellent commitment to office hours allocated to the teaching staff

6 -The development of scientific research and books of books: It is not only for the purpose of scientific promotions. Many books have been written and research was published. It was intended to find solutions to various societal problems and in all sectors, not for promotion only

7 -Development in the curriculum:

8 -Other service supplies for the service of the teaching staff:

1 -Teaching offices and their requirements

2 -Hammamet and toilets:

3- Provides computers for teachingaine:

Weakness points	Strong points
Lack of some exact specializations in statistical sciences, such as the competence of probability theory.	1- In the department, most of the scientific specializations are found in the statistics and the specializations 2. There is sufficient scientific titles for a master's degree.
threats	Opportunities
Do not get academic fellowships.	1- Scholarships and academies to obtain specializations that are not available in studying within the country. 2. Expanding the mechanism of research and scientific cooperation with the corresponding departments in Iraqi and international universities through participation in scientific conferences, seminars, workshops and research.

Second - Obtaining academic accreditation

- The total number of primary study students and all stages = 310

- The total number of graduate students = 18 courses = 8 writing = 7

And compare it with:

1- Number of classrooms:

- Initial study / The number of classrooms is proportional to the number of students, as the number of halls is (6) halls, which is an appropriate number with the number of students.

Graduate studies / The number of allocated halls is suitable for the number of graduate students.

2- The number of seats:

- Initial study / The department's plan for students 'admission is found between (100) students to (150) students annually, but the actually acceptable number does not exceed the plan

Self -Evaluation Report of the College of Administration and Economics 2021/2022

Graduate studies / postgraduate studies are suitable for the actually acceptable number in the department.

3- The numbers of the teaching staff:

- Initial study / The number of students in the department that reaches (310) students compared to (18) teaching, that is, approximately 14 students for each teaching, and this number is considered good.

Graduate studies / The number of teaching staff is proportional to the scientific titles with the number of students in postgraduate studies

4- Micro-majors for the teaching staff:

Initial study / The exact majors of the teaching staff are commensurate with the curriculum in the department

Graduate Studies / The accurate specializations of the teaching staff are suitable for the curriculum - for postgraduate studies in the department

5- Numbers of the curriculum books (free education):

Initial study / The preparation of systematic textile books is not commensurate with the number of students in preliminary studies

Graduate studies / free education data is not appropriate to the requirements of postgraduate studies

6- Numbers and diversity of modern scientific sources in the college library:

Initial study / The preparation and diversity of modern scientific sources in the college library is not commensurate with the number of students in preliminary studies

- Graduate studies / The preparation and diversity of modern scientific sources in the college library is not commensurate with the requirements of graduate students.

7- Other service requirements for students service:

1- Laboratories and computer preparation:

Initial study / The number of laboratories and computers is proportional to the number of students of initial studies

Graduate studies / No laboratory or computers are available for graduate students.

2- Availability of the internet: No internet is available

3- Hammamet: The bathrooms are not available in proportion to the number of students

4- Green spaces. Green spaces are available in the college

5- Water colds: Do not

6- Refugee devices: Available

7- Sports stadiums, students' activities and hobbies: They are not available

Weakness points	Strong points
<p>1- A lack of preparing curriculum books with the number of students in preliminary studies</p> <p>2- The preparation and diversity of modern scientific sources in the college library is not commensurate with the number of students in primary and higher studies</p> <p>3. The Internet of Graduate Studies is not available.</p>	<p>1- The number of halls is commensurate with the number of graduate students.</p> <p>2- The number of teachings in the department is appropriate for students admitted to the department</p> <p>3- The numbers of students admitted to graduate seats are compatible with the department's plan.</p> <p>4- The number of teaching staff is proportional to the scientific titles holders with the number of students in postgraduate studies</p> <p>5. The accurate specializations of the teaching staff are commensurate with the curriculum in the department</p>
Threats	Opportunities
The lack of material and financial supplies	The desire to obtain a certificate

Third - Student Affairs

Initial study in terms of

Prepared by admitted students = 38

Admission plan = 100

Admission rates = biology 61.5-62.17

Applied 64.67-70.17

school system :

1- E-learning:

-. Electronic education helps increase knowledge to students, except because it cannot be considered the basis for connecting knowledge.

- The state of e -learning in Iraqi colleges needs infrastructure in terms of the speed on the Internet, electronic halls equipped with the Internet and other dedicated devices.

- That students deal with e -learning is not good, as the scientific secretariat is missing by students

- Some basic materials need my presence and cannot be connected using e -learning.

Self -Evaluation Report of the College of Administration and Economics 2021/2022

2- Transit System:

- This system is sometimes good, but it confuses the work of the examination committee

- Return the pillars with transit materials more than once, confusing the work of the exam committees.

3- The third floor: Sometimes it is good, as it provides an opportunity for students, especially students who go through special circumstances, but it is often bad, as it leads to the loss of time and the failure to catch students of the third floor with their peers, which leads to the loss of the knowledge value of the students that It will affect them in subsequent years.

4- The courses system: a successful system because it provides an opportunity to study the largest number of subjects

5- Return the pillars for previous years: A system that gives the opportunity for students who have special circumstances that were the reason for their promotion, except that the delay in issuing the re-promotion order leads to the student's confusion and the department

Weakness points	Strong points
<p>1- E-learning in Iraqi colleges is not qualified, as it needs infrastructure</p> <p>2- Students deal with e-learning needs scientific trust by students</p> <p>3. Difficulty in some of the subjects that need students to attend</p>	<p>1- The department accepts only graduates of the scientific branch</p> <p>2- Provides a lot of specialized workshops on e-learning</p> <p>3. Providing a lot of students, especially students who are absent due to special circumstances in crossing or returning from promotion</p>
threats	Opportunities
<p>1- The inadequacy of the students in the electronic exam led to the high rates of success in a manner that is not consistent with the scientific reality of students</p> <p>2- The transit system confuses the work of the examination committee</p> <p>3. The third round exams lead to an increase in burdens and delay in the educational process</p>	<p>Providing the appropriate infrastructure for the advancement of e -learning</p>

Graduate studies in terms of

1- Teaching staff:

- The experience of cadres in the field of teaching and scientific research: The teaching staff in the Statistics Department has extensive experience in the field of teaching and scientific research.

- Dependence on modern and developed scientific sources: The teaching staff in the Statistics Department depends on modern scientific sources in teaching the curriculum.

- Certificate - The Scientific Nick: The teaching staff in charge of teaching in postgraduate studies is mostly from a doctorate holder who holds scientific titles (Professor - Assistant Professor)

2- Graduate Students:

Competition for admission: 60-30%

Admission areas: Master

- Preparing admitted students - due to the preparation of the teaching staff in terms of experience, certificate and scientific title: The number of students admitted in postgraduate studies is proportional to the number of teaching staff in the Statistical Department in terms of experience, certificate and scientific title

Weakness points	Strong points
<p>1- Decreased students 'admission rates</p> <p>2- The lack of a library for postgraduate studies</p> <p>3. Lack of internet</p>	<p>1- The presence of a sufficient number of teachers who hold a doctorate with the rank of professor and assistant professor who have experience in the field of teaching and scientific research.</p> <p>2- The presence of halls dedicated to graduate students equipped with modern clarification methods</p> <p>3. The number of admitted students is compatible with the admission plan and the preparation of the teaching staff.</p>
threats	Opportunities
<p>The great expansion by the ministry</p>	<p>Open a high diploma</p>

Fourth - curricula

1- The extent of the percentage of update in the subjects to keep pace with the scientific development and the labor market: The percentage of update in the subjects is very good.

2- Adopting the English language subject in the curricula and all stages: The English language subject is not adopted in the curricula of all stages, as it is approved for the first stage only.

3- Dependence on curricula with a modern edition: it is somewhat dependent on most subjects on modern sources of the curricula.

Self -Evaluation Report of the College of Administration and Economics 2021/2022

- 4- The preparation of the books of the subjects in (free education) is available to the ratio of the promise of students: the preparation of the books of the subjects in free education is not appropriate with the numbers of students in the department.
- 5- Teaching computers (theoretical- practical) by a specialized teaching staff (computer science) and by relying on modern curricula to keep pace with scientific development: there are professors specialized in teaching computers.
- 6- Providing computer laboratories with modern capacity and technology and preparing computers that suit the numbers of students: Modern computer laboratories are available with computers that suit the numbers of students.
- 7- Focusing to rely on teaching (practical + theoretical) some of the subjects to benefit the student in the labor market after graduation: the teaching method (practical + theoretical) is used some subjects to benefit the student in the labor market after graduation.
- 8- Adoption of courses (courses) instead of the annual system: The courses system is approved instead of the annual system

Weakness points	Strong points
Preparing books in free education is not commensurate with the numbers of students.	<ol style="list-style-type: none"> 1- The presence of a sufficient number of teachings commensurate with the numbers of admitted students 2- Modern books are adopted in teaching subjects 3- The presence of two computer laboratories. 4- The most applied material to benefit the student in the labor market. 5- Adopting the courses system instead of the annual system, which is a good system 6. Some subjects are taught in English
threats	Opportunities
Lack of financial credits	The continuity of the department and supplied a cadre with the campaign of higher degrees

Fifth - service supplies

- 1- Study halls and their suitability for teaching (hygiene - lighting - seats - the availability of air fans and air conditioners - windows and curtains - doors of the classroom - etc.): The statistics department is available in the classroom suitable for teaching as they are available in them All paragraphs above
- 2- Updating and expanding the halls according to the latest specifications and providing them with all modern technologies that serve the teaching process: the halls are sufficient, but the halls are updated periodically
- 3- Office of the faculty members in terms of the availability of (hygiene- lighting- air conditioners- furniture- computers- internet): faculty members offices with the above paragraphs except for the internet.
- 4- Bathrooms (bathrooms) in terms of (number- hygiene- water availability): lack of water cycles
- 5- The availability of safe drinking water refrigerators is not available

Weakness points	Strong points
<ol style="list-style-type: none"> 1- The lack of water refrigerators 2- Lack of bathrooms 3. The lack of an internet network 	<ol style="list-style-type: none"> 1- The classroom is appropriate in terms of (hygiene- lighting- seats etc.) 2. Teaching staff offices are available (hygiene- lighting- academic seats, etc.)
threats	Opportunities
Lack of financial allocations	The desire of the department and the college to provide everything available in order to create opportunities for excellence for students

Self -evaluation of the status of the scientific section

Scientific department strategy

Weakness points	Strong points
Lack of some disciplines	<ol style="list-style-type: none"> 1. There is a desire for the teaching staff to develop the department to open a health statistics branch in the department 2. Preparing scientific titles is sufficient to expand postgraduate studies 3. The presence of many teaching staff who published many research in international magazines
threats	Opportunities
The inability to increase the desire to join the department because of the nature of the study in the department, which is theoretical nature	There is an opportunity to develop the department by opening a new branch and expanding postgraduate studies

Teaching staff

Job staff in terms of:-

- 1- The improvement and development plan
- 2- Preparing the employees actually working
- 3- The need for employees in terms of certificate and specialization: There is no need for employees
- 1- The extent to which employee offices are suitable (furniture- cooling- heating- computer devices- lighting- hygiene)
- 1- The furniture is very appropriate, as the Deanship is kept through the department's head to follow up and perpetuate
- 2- Cooling is appropriate, and there is an annual maintenance of the cooling devices
- 3- Heating in employee offices, heating devices
- 4- Computer devices. The Deanship of the College was kept, through studying the department, by providing a computer for each employee that requires his work
- 5- The lighting is very good and appropriate
- 6- Cleaning is very good and periodic
- 2- The planned development courses and the employee participated in: there is no

Assist. Prof. Dr. Ryssan Abdul Imam
Head Of Statistics Departmen

Department of Financial and Banking Sciences

Vision

- 1- The Financial and Banking Sciences Department seeks to raise the practical and academic level of students and teaching staff.
- 2- Our department seeks to keep pace with the pursuit of practical developments in the corresponding scientific departments in international universities.

the message

- 1- Preparing students to obtain a Bachelor's degree in Financial and Banking Sciences.
- 2- Preparing specialists from holders of higher degrees (masters) at all cash and financial levels.
- 3- Contribute to raising the official institutions and departments with the necessary research studies in order to prevent their lean reality.

Objectives

- 1- The department aims to adopt modern educational methods and methods that would help improve the scientific performance of students.
- 2- Serious pursuit of a better academic climate for students.
- 3- Working to subject the department to the academic accreditation certificate.
- 4- Bring the needs of the labor market from skilled manpower to contribute to the advancement and economic growth.

The case of the scientific section

First: the teaching staff in terms of

- 1- Modern and accurate scientific specializations: available in the department
- 2- Certificates of Certificates: The department has a attendance staff of a doctorate holder often
- 3- The structure of the department- the preparation of the teaching staff in relation to the number of students: (1488) the number of students of initial studies (25) graduate studies /the number of teaching staff (31)
- 4- The experience of cadres in the field of teaching and scientific research: the teaching staff in the department with high experience in the field of teaching and scientific research
- 5- Ethics of teaching cadres: the teaching staff with high professional ethics
- 6- Commitment to teaching cadres in office hours in following students and scientific research: The teaching staff is committed to follow-up students and scientific research continuously through social media
- 7- The development of scientific research and writing of books: It is not for the purpose of scientific promotions only: the movement of scientific research is moderate

Self -Evaluation Report of the College of Administration and Economics 2021/2022

8- Development in the curricula: The teaching staff develops or changes the curricula according to the instructions and curricula from the ministry at the beginning of each new academic year

9- Other service requirements for the teaching service:

A- Teaching offices and their requirements: 52

B- Bathrooms and toilets: 2

C- Providing computers for teaching staff.

Weakness points	Strong points
1.The department's acceptance plan ranging between 150-300 students annually, while the sufficient number of assimilation halls is not available. This sufficient number 2.The movement of scientific research is moderate, as the purpose of obtaining the scientific promotion without contributing to the provision of government institutions 3.Persons in service requirements	1.The department has a teaching staff with multiple specialties 2.The presence of various scientific degrees in the department and the majority of doctoral degrees 3.The department has a teaching staff with discreet scientific experience in the field of teaching and scientific research 4.The teaching staff are distinguished by high professional morals 5.The teaching masters commitment to follow-up students through all social media 6.The continuous development of curricula
threats	Opportunities
1.Increasing the number of students and not absorbing the classrooms for this large number 2.Failure to compensate the referred staff to retirement	1.The teaching masters seek to participate in the development courses that take place inside and outside the country 2.Serious pursuit by the teaching staff to raise the scientific level and obtain academic degrees (professional) 3.There is a clear case of hearing the opinion and the advice provided by the university professor.

Second - obtaining an academic accreditation certificate

The total number of primary study students and all stages = 1488

- The total number of graduate students = 25 courses = 17 Writing = 8

And compare it with:

1- Number of classrooms:

Initial study / 15

Graduate Studies / 2

2- The number of seats:

Initial study /560

Graduate Studies / 25

3- The numbers of the teaching staff:

Initial study / 31

Graduate Studies / 12

4- Micro-majors for the teaching staff:

Initial study / The department has a teaching staff with various accurate scientific specialties

Graduate Studies / The department has a teaching staff with various accurate scientific specializations

5- Numbers of the curriculum books (free education):

- Initial study / There are not many books, modern sources, and enough for the number of students

Graduate Studies / No

Self -Evaluation Report of the College of Administration and Economics 2021/2022

6- Numbers and diversity of modern scientific sources in the college library:

Initial study / There are no modern scientific sources

Graduate Studies / There are no modern scientific sources

7- Other service requirements for students service:

A- Laboratories and computer preparation:

Initial study / 1 laboratory and 64 calculators

Graduate Studies / No

B- Availability of the internet: Available

C- Hammamet: There is

D- Green Spaces: No

E- Water colds: There is no

F- Refugee devices: There is

G- Sports stadiums, students' activities and hobbies: There is no

Weakness points	Strong points
<ol style="list-style-type: none"> 1.The lack of a hall dedicated to starting the procedures to obtain the certificate and the weak financial allocations in this regard 2.The lack of seats is sufficient to accommodate the numbers of students 3.The lack of sufficient teaching staff for the number of students 4.A few books are available in free education so that the number of students is not enough 5.The lack of modern sources in the college library 6.The lack of sufficient number of laboratories for the number of students- 7.The Internet is not available 8.The poor service in the bathrooms 9.The lack of green spaces 10.There is no water refrigerator 	<ol style="list-style-type: none"> 1.The department's efforts to hold scientific seminars and document them as activities for the department 2.The presence of a teaching staff with solid scientific experience and with various accurate specialties 3.Availability of adequate cooling devices for each hall 4.The presence of a teaching staff and the granting free hours of students to practice students' activities and their sporting hobbies
Threats	Opportunities
<ol style="list-style-type: none"> 1.The available from study halls and other supplies that cannot advance this number of students at best, and thus the department's outputs are modest in general, although there are cases of distinction for a very limited number of students 2.The lack of financial and financial supplies supporting this issue - - - the failure to compensate the staff to retirement 	<ol style="list-style-type: none"> 1.The serious desire to obtain academic accreditation 2.Providing modern service requirements to serve students 3.Providing the Internet for students to benefit in research and obtain modern sources

Third - Student Affairs

Initial study in terms of

Prepared by admitted students = 400

Admission plan = 150

- Admission rates = low admission rates

school system :

1- E-learning: teaching in the department is based on integrated education (electronic and my presence).

2- The transit system: activating the transit system

Self -Evaluation Report of the College of Administration and Economics 2021/2022

3- The third floor: activating the third (supplementary) floor

4- The courses system: activating the courses system

5- Return the pillars for previous years: The pillar students have been returned for previous years to the seats

Weakness points	Strong points
1.E-learning (the lack of understanding of the students in the correct image) 2.Low students' admission rates 3.The Ministry's decision for the third round for students leads to a decrease in the educational level / attempts. The first and second rounds are sufficient to show the student's level	1.All students from graduates of the literary and scientific branch 2.The presence of the transit system stimulating the student's morale 3.Return to the courses system due to its suitability with the capabilities available to the department 4.Returning the pillars of their restrictions to the academic seats
Threats	Opportunities
1- The limited capacity of the academic halls 2- It is not possible for some students to obtain e-learning requirements such as the internet and calculator	1.The possibility of accommodating more than students by increasing financial allocations and building a larger number of halls 2.Raising students' admission rates 3.Creating simple educational methods and methods for the purpose of offering and giving the lecture electronically 4.The contribution of primary studies students to practical studies that will raise the scientific level for them

Graduate studies in terms of

1- Teaching staff:

- The experience of cadres in the field of teaching and scientific research: the teaching staff in the department with high experience in the field of teaching and scientific research

- Dependence on modern and advanced scientific sources: Relying on modern sources available on the Internet

- Certificate - Scientific Speak: PhD (Professor Dr. and Professor Assistant)

2- Graduate Students:

- Competition rate for admission: The rate is specified according to the Ministry's instructions

Admission fields: Department (5) plan for a master's degree, (5) and a doctoral rule

- Preparing admitted students - due to the preparation of the teaching staff in terms of experience, certificate and scientific title: very good

Weakness points	Strong points
1. The lack of adoption of modern teaching methods for graduate students 2.The lack of library for graduate studies 3.Electronic problems due to the weak network	1.The presence of a discreet and qualified cadre for this purpose of the professor's campaign and assistant professor 2.Students enjoy a high scientific level and their serious endeavor to obtain a degree 3.The success rate is acceptable to graduate students 4.Students 'messages and honesty are presented within the minor period
threats	Opportunities
1.Instructions for admission to students issued only by the Ministry of Higher Education 2.Weak financial allocations in this regard	1.Raising students' admission rates 2.Building classrooms equipped with the latest technologies 3.The possibility of expanding the opening of graduate studies programs

Fourth - curricula

1- The extent of the percentage of update in the subjects to keep pace with the scientific development and the labor market: 90%, the curricula are updated according to the Ministry's instructions

2- Adopting the English language in the curriculum and for all stages: Each stage has two hours per week

3- Dependence on curricula with a modern edition: Relying on modern sources is based on curricula

Self -Evaluation Report of the College of Administration and Economics 2021/2022

4- The preparation of books books in (Free Education) is available to the ratio

5- Teaching computers (theoretical- practical) by a specialized teaching staff (computer science) and based on modern curricula to keep pace with scientific development: the department has a specialized teaching (computer science)

6- Providing computer laboratories with modern capacity and technology and preparing computers that suit the numbers of students: There is only one laboratory and a system of groups for students is relied upon due to the large number of students in relation to the number of computers in the laboratory

7- Focusing to rely on teaching (practical + theoretical). Some subjects are useful to benefit the student in the labor market after graduation: there is no

8- Adoption of courses (courses) instead of the annual system: depends on the courses system in the department, and there are some students returning from the promotion. The annual system is relied upon

Weakness point	Strong points
1.The large number of weekly shares for some materials 2.The lack of computer laboratories that suit the number of students 3.There are no academic subjects that depend on (practical + theoretical) to benefit the student in the labor market other than (computer) 4.Electronic problems that students faced in the curriculum	1.The curricula are updated annually according to the Ministry's instructions 2.Adopting the English language subject in the curriculum 3.Adopting modern sources 4.The availability of sufficient numbers of methodological books 5.The department has a teaching specialization (Computer Science) 6.The curriculum is shall be shaded with chains and streamlines
Threats	Opportunities
1.Lack of financial support from the concerned authorities 2.The powers are linked to the higher authorities (the ministry) without authorizing the minimum entirety or university 3.Society rejects the idea of e-learning in a way that causes the student's psychological concern	1.The possibility of qualifying some of the teaching masters through the establishment of training courses 2.Diversity and update sources 3.Curricula approach with what is useful for the student in the labor market

Fifth - service supplies

1- School halls and their suitability for teaching (hygiene - lighting - seats - the availability of air fans and air conditioners - windows and curtains - doors of the classroom - etc.):

2- Updating and expanding the halls according to the latest specifications and providing them with all modern technologies that serve the teaching process:

3- Office of the faculty members in terms of the availability of (hygiene- lighting- air conditioners- furniture- computers- internet)

4- Bathrooms (bathrooms) in terms of (number- hygiene- water availability):

5- Provides drinking water refrigerators

Weakness points	Strong points
1.The lack of sufficient numbers of the classrooms in proportion to the increase in students 'numbers annually 2.Lack of expansion of the halls and providing them with all modern technologies 3.The poor service in the bathrooms 4.Drinking water refrigerators are not available	1.Availability of fans and air conditioners in the classroom 2.The presence of a sufficient number of offices of members of the teaching staff
Threats	Opportunities
1.Lack of financial allocations that would raise the service reality of the department 2.The department's lack of modern teaching means 3.The lack of an internet network in the department	Provides the desire of the concerned authorities to address weaknesses and develop the reality of the department's condition

Self -Evaluation Report of the College of Administration and Economics 2021/2022

Self -evaluation of the status of the scientific section

Scientific section strategy

Weakness points	Strong points
1.The lack of study halls by modern means 2.Lack of some specializations 3.Persons in service requirements	1.The contribution of both students and the teaching staff to developing the reality of the department 2.The presence of an administrative staff with great experience in administrative work 3.The presence of a large number of the teaching masters of the title campaign 4.The department's efforts to hold scientific seminars and document them as activities for the department 5.Cooperation between teaching cadres in order to provide educational service to students 6.Success rates are acceptable
Threats	Opportunities
1.The lack of a special hall for seminars and discussions in the department 2.Lack of financial allocations that would raise the service reality of the department 3.The department's lack of modern teaching means 4.The powers are linked to the higher authorities (the ministry) without delegating the minimum entirety or university	1.The presence of a large support department from the Deanship of the College 2.Serious pursuit of the head of the department to develop all the department's belongings 3.There is a clear case of hearing the opinion and the advice provided by the university professor

Teaching staff

Prof. Dr. Muntazer Fadel Saad
Head of the Department of Financial and Banking Sciences

Department of Administrative Information Systems

The vision The vision of the Department of Administrative Information Systems is to provide students with academic knowledge about the basics of business management and software, computer languages and their technologies, information and communications systems, as well as practical skill knowledge about the use of administrative, productive, marketing and human resources applications by adopting computer and information and communication technologies. We seek excellence and leadership scientifically and practically in a social educational environment open to the future.

The message The message of the Department of Administrative Information Systems is to spread science and knowledge in the fields of management, economics, computer and decisions. The department seeks to raise the rate of employment of its graduates by providing them with the competencies and practical and scientific skills in the field of administrative information systems and business technology to support development towards the knowledge economy and the information community, by holding partnerships with the business sector and giving greater attention to the applied aspect of information systems in the business sector.

The goals The administrative information systems department aims to prepare the student cognitively and professionally in the field of information systems and its applications and the use of information and communications technologies in business

Self -Evaluation Report of the College of Administration and Economics 2021/2022

organizations and public administration at the level of primary study and higher study, and thus a competent staff will be created capable of meeting the needs of society in the labor market from specialists in this field.

It also seeks to provide high -quality education in the field of administrative information systems and business technology for students in a manner consistent with their various interests and professional expectations and is commensurate with the needs of the labor market.

- 1- Preparing students to apply their knowledge in the field of work using problem-solving tools and techniques.
- 2- Preparing students to learn lifelong by giving them the knowledge and skills necessary for scientific research and decision-making.
- 3- Increasing cooperation with the business sector, which enriches the scientific and applied skills of graduates to help them find job opportunities after graduation.
- 4- Commitment to high professionalism and continuous improvement in the teaching and learning process is consistent with the guidelines of the quality used at the university.
- 5- Building partnerships and communicating with organizations in the public and private sectors to touch and understand the problems related to information to provide creative solutions based on sound scientific and knowledge foundations.
- 6- Caring for the academic excellence of the department by focusing on scholarships for distinguished and competent students, providing and updating scientific sources such as books, scientific journals and databases and promoting scientific capabilities among faculty members by encouraging them to participate in conferences, workshops and courses.

The case of the scientific section

First: the teaching staff: in terms of

- 1- Modern and accurate scientific disciplines.
- 2- Certificates.
- 3- The structure of the department- the numbers of the two teachings in relation to the number of students.
- 4- The experience of cadres in the field of teaching and scientific research.
- 5- Ethics of teaching cadres.
- 6- Commitment to teaching cadres in office hours to follow students and scientific research.
- 7- The development of scientific research and writing of books: It is not for the purpose of scientific promotions only

Weakness points	Strong points
1.Lack of the most severe teaching staff 2.There are a very small number of teaching staff with higher degrees (doctorate) 3.The presence of a few books born	1.The department has a teaching staff with solid scientific experience and modern and accurate scientific specialties. 2.The department has a team with a variety of certificates between masters and doctorates 3.Inforcing the preparation of the two teachings in relation to the number of students 4.The department has a teaching staff with high moral experience in the field of teaching and scientific research 5.The commitment of the teaching staff to the office hours to follow up the research students
threats	Opportunities
	1.The teaching staff seeks to participate in the various development courses. 2. Serious pursuit by the teaching staff to raise the scientific level and obtain degrees 3.Seek to increase the numbers of the teaching staff

Second - obtaining an academic accreditation certificate

Self -Evaluation Report of the College of Administration and Economics 2021/2022

- The total number of primary study students and all stages = 433

- The total number of graduate students = no

And compare it with:

1- Number of classrooms:

Initial study / The number of classrooms is not appropriate for the number of students, as the number of halls is (4) halls, which is a very small number compared to the number of students

2- The number of seats:

Initial study / (150)

3- Preparing the teaching staff:

Initial study / The number of students in the department that reaches (433) students compared to (13) teaching

4- Micro-majors for the teaching staff:

Initial study / The accurate scientific specializations of the teaching staff are commensurate with the curriculum in the department

5- Preparing the curriculum books (free education):

Initial study / The preparation of the curriculum books is not commensurate with the number of students in preliminary studies

6- Preparing and diversifying modern scientific sources in the college library:

Initial study / The preparation and diversity of modern scientific sources in the college library is not commensurate with the number of students in preliminary studies

7- Other service supplies to serve students:

Initial study / The preparation and diversity of modern scientific sources in the college library is not commensurate with the number of students in preliminary studies

Other service supplies to serve students:

A- Laborators and computer preparation:

- Initial study / The number of laboratories and computers is not suitable for the number of initial studies students, as the number of computers is 50 calculators and one laboratory.

B- Availability

C- The bathrooms: The bathrooms are not available in proportion to the numbers of students

W- Green spaces: Green spaces are available in the college

C- Water colds: Not available

H- The cooling devices: available where they are limited

X- Sports stadiums and the practice of students' activities and hobbies: they are not available

Weakness points	Strong points
The number of students is not suitable for the numbers of halls and laboratories	The exact majors of the students are suitable for the curriculum
threats	Opportunities
The number of books is not suitable for students' preparation	There is a real and serious desire to obtain academic accreditation

Self -Evaluation Report of the College of Administration and Economics 2021/2022

Third - Student Affairs

Initial study: in terms of

- 1 -The numbers of admitted students = 88
- 2 -With regard to the admission plan = 150
- 3 -Admission rates = 67 - 72

Study system

- 1 -E-learning: There is
- 2 -Transit System: There is
- 3 -The third floor:
- 4 -Course system:
- 5 -Courses system: There is
- 6- Return of the pillars from previous years: There is no

Weakness points	Strong points
Decreased students 'admission rates The failure of students of primary studies to contribute to practical studies that would advance the scientific level for them	Gathering students from the graduates of the literary and scientific branches
threats	Opportunities
The limited capacity of the classrooms and thus lack	The possibility of accommodating more numbers than students by increasing financial allocations and building a larger number of halls

Fourth - Curriculum: In terms of

- 1 -The extent of the update rate in the subjects to keep pace with the scientific development and the labor market: updating 50%
- 2 -Adopting the English language subject in the curricula and for all stages: exist
- 3 -Dependence on curricula with a modern edition: exist
- 4 -Teaching computers (theoretical- practical) by a specialized teaching staff (computer science) and based on modern curricula to keep pace with scientific development: there is
- 5 -Providing computer laboratories with modern capacity and technology and the numbers of computers that suit the number of students. There is a computer preparation laboratory that does not suit the number of students
- 6 -Focusing to rely on teaching (practical + theoretical) some subjects to benefit the student in the labor market after graduation.
- 7- Adoption of courses (courses) instead of the annual system: there

Weakness points	Strong points
The large number of weekly shares for some materials The lack of methodological books	The percentage of update in the subjects is appropriate for what accompanies the scientific development and the labor market Dependence on curricula with a modern edition Computer (theoretical - practical) is taught by the teaching (M. Ahmed Nasser Ismail) with a specialty (computer science) and based on modern curricula In the section there is a computer laboratory and computer devices Most materials are taught (theoretical- practical) and the materials as follows: (Databases programming in C ++ _ Marketing Information Systems _ Accounting Information Systems) The curriculum system (courses) has been approved for the first stage
threats	Opportunities
Lack of financial support from the concerned authorities The powers are linked to the higher authorities (the ministry) without authorizing the minimum entirety or university	The possibility of qualifying some of the teaching masters by holding training courses

Fifth - Sector requirements: in terms of

- 1 -School halls and their suitability for teaching (hygiene - lighting - study seats - the availability of air fans and air conditioners - windows and curtains - the doors of the classroom - etc.).

Self -Evaluation Report of the College of Administration and Economics 2021/2022

2 -Updating and expanding the halls according to the latest specifications and providing them with all modern technologies that serve the teaching process.

3- The offices of the faculty members in terms of the availability of (hygiene- lighting- air conditioners- furniture).

Weakness points	Strong points
1.The department's lack of modern teaching means 2.There is no sufficient number of classrooms	1.The presence of a sufficient number of seats allocated to students 2.The offices of the faculty members are good
threats	Opportunities
Lack of financial allocations that the service of the service reality of the department	Provides the desire of the concerned authorities to address weaknesses and develop the reality of the department's condition

Self -evaluation of the status of the scientific section

Scientific section strategy

Weakness points	Strong points
1.Lack of some specializations, as the department is new 2.A small number of classrooms are not appropriate for students' numbers	1.The only section in the southern and central region, and thus the possibility of attracting a large number of students in the event of the necessary halls 2.The contribution of both students and teaching staff to developing the reality of the department
Threats	Opportunities
The lack of a special hall for seminars and discussions in the department as well as for the examination committee	1.The presence of great support for the department from the Deanship of the College 2.Serious pursuit of the head of the department to develop all the department's belongings

Head of Management information system department

The results

- College needs:

Due to the expansion witnessed by the college from opening branches of scientific departments, and in addition to the acceptance of primary school students (morning - evening) and graduate students. And seek to obtain (academic accreditation certificate), so it was necessary

1- Providing classrooms with specifications that serve the progress of the study process.

2- Providing laboratories to study computers with advanced modern technologies.

3- Provides a specialized cadre in teaching computers in laboratories

4- Establishing an internet network in laboratories

5- Establishing a private library for each of the scientific departments, equipped with modern scientific sources with the Internet for scientific research service.

6- Providing rooms for the faculty members, especially for the holders of scientific titles (professor- assistant professor) for the purpose of providing the appropriate atmosphere for scientific research within the college.

- Suggestions:

1- Given the central admission of students in numbers that exceed the capacity of the college, where about (1200) students are accepted for each new academic year. Although the construction of the college and its academic halls dates back since the previous decade of the twentieth century and a specific capacity. So we suggest building new classrooms.

2- We suggest speeding up the process of accepting new students, as the late admission to students of the first stage contributes to the lack of completion of the curricula.

3- Serious pursuit of scientific departments obtaining an academic accreditation certificate.

4- To keep pace with scientific development in the world and for the purpose of the development of scientific disciplines in Iraq- Basra University- College of Administration and Economics- therefore we suggest expansion to open.

- Study the higher diploma for the following specializations:

1- Higher diploma in international economic relations.

2- Higher diploma in Islamic economics.

- To specialize in the economy, open branches of the third stage of the initial study: Business Economic Branch.

- Negatives :

1- Accepting numbers of students in the first stage exceeds the plan adopted by the college

2- The financial allocations for maintenance are still few, knowing that the college buildings are old and have eliminated more than (40) years, and therefore you need sufficient amounts for maintenance.

3- There is a delay in completing the scientific plan by the teaching staff in the completion of scientific research.

4- The multiplicity of college buildings and their large size contributed to the dispersion of the special effort in controlling the college facilities, whether it is in providing services at a high level and according to ambition, and the lack of services staff.

5- The lack of teaching staff in the college, which is not commensurate with the size of the college and the number of students in the college, so the college needs grades to set some specialty

6. The task, especially after a number of teaching staff referred to retirement, especially in the accounting, business and statistics department.
