

Course Description Form

1. Course Name:	
General Surgery	
2. Course Code:	
3. Semester / Year:	
First & second semester /2023–2024	
4. Description Preparation Date:	
18/3/2024	
5. Available Attendance Forms:	
Classroom for lectures, clinical skill laboratory, practical educational training hospital	
6. Number of Credit Hours (Total) / Number of Units (Total)	
20 hours total lectures	
7. Course administrator's name (mention all, if more than one name)	
Name: Furat shani odeh Email: furat.aoda@uobasrah.edu.iq	
8. Course Objectives	
Course Objectives	<ol style="list-style-type: none"> 1. Produce competent doctors. 2. High level of scientific knowledge. 3. High level of practical skill. 4. Good professional behavior that qualifies them to serve the community. 5. Interesting in performing scientific researches.
9. Teaching and Learning Strategies	
Strategy	<p>*Discuss the detailed information & knowledge about general surgery lectures.</p> <p>*Specific practice & training in the field of history taking, examination</p>

communication with the patients as subgroups.
 *Complete knowledge about functional behavior & medical ethics.
 *Knowledge about scientific approach in medical researches.

10. Course Structure

Week	Hours	Required Learning Outcomes	Unit or subject name	Learning method	Evaluation method
	One (repeat 4times for high number of students)	* How to approach patient with abnormal thyroid mass How to treat different thyroid tumors To know function of parathyroid gland How to approach patient with different parathyroid function abnormalities How approach patient with parathyroid tumors	Embryology of thyroid gland Blood supply of thyroid gland Histology of thyroid gland Developmental abnormalities Thyroglossal cyst Lingual thyroid Ectopic thyroid Physiology of thyroid gland Thyroid hormone function Thyroid function test Thyroid auto antibody Thyroid imaging Classification of thyroid swelling Types of goitre Hyperthyroidism	*Interactive lectures including theoretical material *Seminars & dialogues between student & supervisor *OSCE	*Short examination after discussion (quiz) *Evaluation of practical performance at the end of the course *idyear & final theoretical examination

			Types of toxic goitre Management of different types of toxic goitre Postoperative complications Thyroiditis Thyroid tumors Solitary thyroid nodules Thyroid cyst Parathyroid gland Parathormone Types of hyperparathyroidism Primary hyperparathyroidism Parathyroid carcinoma Hypoparathyroidism	
--	--	--	--	--

11. Course Evaluation

Distributing the score out of 100 according to the tasks assigned to the student such as daily preparation, daily oral, monthly, or written exams, reports etc

12. Learning and Teaching Resources

Required textbooks (curricular books, if any)	Short practice of surgery
Main references (sources)	
Recommended books and references (scientific journals, reports...)	Physical signs in surgery OSCE books Medical journals in Google scholar Public medical journals
Electronic References, Websites	Web site in the surgery department
