

Course Description Form

1. Course Name:	
Plastic and reconstructive surgery	
2. Course Code:	
3. Semester / Year:	
1 st and 2 nd trimester 2023/2024	
4. Description Preparation Date:	
2023 / 2024	
5. Available Attendance Forms:	
Classroom lectures , seminars,	
6. Number of Credit Hours (Total) / Number of Units (Total)	
14 hour as lectures 32 hour of seminars and clinical training	
7. Course administrator's name (mention all, if more than one name)	
Name: Amer Salman Dawood Email: amer.almansory@uobasrah.edu.iq	
8. Course Objectives	
Course Objectives	<ul style="list-style-type: none"> • To make the student aware of the plastic and reconstric cases that they will face in the future • Give them clinical skills how to deal and manage these ca • To make them safe doctors by highlighting the critical ca that they may face and how to deal with them safely & effectively..... •
9. Teaching and Learning Strategies	
Strategy	<p>.Wound healing is important to understand how our bo responds to trauma.</p> <p>.How they cn handel wounds and do proper wound closure</p> <p>.Discussing burn as theory and it consequences on the patie body</p> <p>.Special emphasize on the emergency management of burn</p>

	<p>.Skin tumors are important and common malignancy that need orientation from the student .</p> <p>.Pressure sore is a preventable disease need the student attention.</p> <p>.Facial fractures are an important and life threatening emergency .</p>

10. Course Structure

Week	Hours	Required Learning Outcomes	Unit or subject name	Learning method	Evaluation method
	One	Knowledge about the wound healing process in the human body and its clinical implementations	Wound healing	Lectures	Quiz with questions about the topic
	One	Knowledge about the scar formation and how we can manipulate it	How to obtain a fine scar	Lecture	
	One	Orientation of the student about the congenital anomalies and its management	Cleft lip and palate	Lecture	
	One	Knowledge about how lost body pieces are repaired	Flaps and grafts	Lecture	
	One	Orientation about the Aesthetic procedures and surgeries	Aesthetic surgeries	lecture	

One	Make the students familiar with facial fractures and importance in the emergency room	Facial fracture	lecture
Two	How to manage burn in the emergency room	Emergency management of burn	Seminar
Two	Fluid management burn	Fluid management burn	Seminar
Two	Instruction to parents with Cleft lip and palate	Cleft lip and palate	Seminar
Two	How to prevent Pressure sore	Pressure Sore	Seminar
Two	Orientation about types and uses fluids	Fluid management	Clinical session small group

11. Course Evaluation

Distributing the score out of 100 according to the tasks assigned to the student such as daily preparation, daily oral, monthly, or written exams, reports etc

12. Learning and Teaching Resources

Required textbooks (curricular books, if any)	Grab and smith , Baily and love
Main references (sources)	Baily and love
Recommended books and references (scientific journals, reports...)	Essential in plastic surgery
Electronic References, Websites	ISAPS library
