

The Fourth Stage Graduation Research Projects for Academic Year 2022-2021

Department of Pathological Analysis Sciences

Title Project	Course	ameN Supervisor	Student Name	No
Studying some Immunological and molecular aspects of asthma	First semester	Prof Dr Shereen Jawad Kadhim	Heba Falah Jabr	1
Comparative study of breast cancer using image processing techniques and the ImageJ software	First semester	Dr. Zainab Ali Abbood	Ayat Hussein Sabbar	2
Dagnostics of leishmaniasis and the biological vector	First semester	Prof Dr Mufeed Abdul Lateef Habeeb	Shahed Mazen Hashem	3
Immunological and physiological changes of Pfizer and Sinopharm vaccinated	First semester	Prof Dr Awatif Hameed Issa Dr. Majid Noori Humoud Alyasir	Mazen Hashem	4
Immunological and physiological changes of Pfizer and Sinopharm vaccinated	First semester	Prof Dr Awatif Hameed Issa Dr. Majid Noori Humoud Alyasir	Manar Adnan Badr	5
Gold nanoparticles as anticancer agent biosynthesised from leaf extract of Olea europea L	First semester	Assist Prof Dr Afrodet Abdulrazaq Saleh	Ibrahim Khalil Raysan	6

Title Project	Course	ameN Supervisor	Student Name	No
Gold nanoparticles as anticancer agent biosynthesised from leaf extract of <i>Olea europea</i> L	First semester	Assist Prof Dr Afrodet Abdulrazaq Saleh	Iman Saad	7
Changed in blood parameters in peoples vaccinated by covid-19 sinopharm and Pfizer	First semester	Prof Dr Awatif Hameed Issa Dr. Majid Noori Humoud Alyasir	Ibtihal Qasim Hammadi	8
Gold nanoparticles as anticancer agent biosynthesised from leaf extract of <i>Olea europea</i> L	First semester	Assist Prof Dr Afrodet Abdulrazaq Saleh	Ahmed Adnan Issa	9
Down syndrome gene disease with Using Unipro uGene to analyze the mutation : A simple user guide	First semester	HananDr. Ramadhan Alnja	Israa Adel Ali	10
Effect of bay laural leafs on urinary tract infection	First semester	Prof Dr Ekhlas Qanber Jassim Muhammed	Israa Abdel Latif	11
Studying some Immunological and molecular aspects of asthma	First semester	Prof Dr Shereen Jawad Kadhim	Afrah Jaber Attia	12
Detection of proteins poisons profile of forensic insects Honey Bee and Wasp and in Human blood	First semester	Dr Bassim Maftan Prof Dr Mufeed Abdul Lateef Habeeb	Alaa Sajid Bashir	13
Prevalence of allergies in southern Iraq	First semester	Prof Dr Shereen Jawad Kadhim	Alaa Nazim Abdel Razzaq	14
Dagnostics of leishmaniasis and the biological vector	First semester	Prof Dr Mufeed Abdul Lateef Habeeb	Umm al-Banin Nouri Hashem	15

Title Project	Course	ameN Supervisor	Student Name	No
Parasites That Cause Eye Inflammation	First semester	Prof Dr Muslim Abdul Rahmman Mohammad	Ayat Salah Najm	16
Survey of indoor and outdoor fungal air spora in the College of Science, University of Basra	First semester	Prof Abdullah Hammood Al-Saadoon	Eman Sattar Shair	17
Parasites That Cause Eye inflammation	First semester	Prof Dr Muslim Abdul Rahmman Mohammad	Batoul Ahmed Adnan	18
Detection virulance factor (Fim H DNA gene) of uropathogenic Escherichia coli strains isolated from patients with urinary tract infection	First semester	Assist Prof Dr Amani Abdulridha Awad	Baneen Muhammad Jassim	19
Evaluation of thyroid function in people vaccinated with vaccine of Sinofarm	First semester	Prof Dr Hanaa Salman Kadhim	Blessed are Uday Abdul Razzaq	20
Anti-microbial activity of some sulfa drugs derivatives	First semester	Prof Dr Ekhlas Qanber Jassim Muhammed	Tabarek Ali Shehit	21
Prevalence of allergies in southern Iraq	First semester	Prof Dr Shereen Jawad Kadhim	Hanin Abbas Fadel	22
Anti-microbial activity of some sulfa drugs derivatives	First semester	Prof Dr Ekhlas Qanber Jassim Muhammed	Hanin Ali	23
Evaluation of sodium and potassium levels in serum of diabetics patients	First semester	Prof Dr Ekhlas Qanber Jassim Muhammed	Hawraa Hussein Ebadi	24

Title Project	Course	ameN Supervisor	Student Name	No
Effect of bay laraul leafs on urinary tract infection	First semester	Prof Dr Ekhlas Qanber Jassim Muhammed	Dania Qasim Muhammad Jaafar	25
Effect of bay laural leafs on urinary tract infection	First semester	Prof Dr Ekhlas Qanber Jassim Muhammed	Dania Qasim Muhammad Jaafar	26
PLasmid profile of E.coli isolated from urinary tract infections	First semester	Assist Prof Dr Zainab Radhi Abdul Hussien	Shaheed Abdul Jabbar Hadi	27
PLasmid profile of E.coli isolated from urinary tract infections	First semester	Assist. Prof. Dr Zainab Radhi Abdul Hussien	Rafal Mithaq Shaker	28
Immunological and physiological changes in vaccinated	First semester	Prof Dr Awatif Hameed Issa Dr. Majid Noori Humoud Alyasir	Zahraa Saleh Mahdi	29
The Anti-cancer Effect of Biosynthesis Silver Nanoparticles	First semester	Assist Prof Dr Afrodet Abdulrazaq Saleh	Zahraa Ahmed Miteb	30
Detection virulance factor (Fim H DNA gene) of uropathogenic Escherichia coli strains isolated from patients with urinary tract infection	First semester	Assist Prof Dr Amani Abdulridha Awad	Zahraa Karim Hashem Jaber	31
Detection of proteins poisons profile of forensic insects Honey Bee and Wasp and in Human blood	First semester	Dr Bassim Maftien Prof Dr Mufeed Abdul Lateef Habeeb	Zahraa Mezher Abdullah	32
Prevalence of oral Candida species among smokers and non_smokers diabetic patients	First semester	Prof Abdullah Hammood Al-Saadoon	Zainab Sobeih Dohi	33

Title Project	Course	ameN Supervisor	Student Name	No
Evaluation of sodium and potassium levels in serum of diabetics patients	First semester	Prof Dr Ekhlas Qanber Jassim Muhammed	Zainab Alaa Radi	34
الإصابات الطفيلية المصاحبة للمرضى المصابين بمتلازمة القولون العصبي	First semester	Prof Dr Muslim Abdul Rahmman Mohammad	Zainab Ali Sabbar	35
Plasmid profile of staphylococcus aureus isolated from diabetic foot infection	First semester	Assist Prof Dr Zainab Radhi Abdul Hussien	Zainab Nasih. Mahdi	36
The Effect Of Vitamin D Levels On Blood Groups And Age In Human Body	First semester	Hanan RamadhanDr. Alnja	Zainab Hashem Manbet	37
Effect of smoking on progression of kidney diseases	First semester	Prof Dr Hanaa Salman Kadhim	Sarah Ismail Khalil	38
Parasites associated with gingivitis and tooth decay	First semester	Prof Dr Muslim Abdul Rahmman Mohammad	Sarah Khaled Abdel Latif	39
Comparative study of breast cancer using image processing techniques and the ImageJ software	First semester	Dr. Zainab Ali Abbood	Sarah Jawad Ebadi	40
Prevalence of oral Candida species among smokers and non_smokers diabetic patients	First semester	Prof Abdullah Hammood Al-Saadoon	Saja Jawad Kazem	41
Estimated the levels of IgM and IgG in peoples vaccinated by covid-19 sinopharm and Pfizer	First semester	Prof Dr Awatif Hameed Issa Dr. Majid Noori Humoud Alyasir	Saja Abdullah Issa	42

Title Project	Course	ameN Supervisor	Student Name	No
Studying some Immunological and molecular aspects of asthma	First semester	Prof Dr Shereen Jawad Kadhim	Saja Ali Hameed	43
Survey of indoor and outdoor fungal air spora in the College of Science, University of Basra	First semester	Prof Abdullah Hammood Al-Saadoon	Sana Ali	44
Detection virulence factor (Fim H DNA gene) of uropathogenic Escherichia coli strains isolated from patients with urinary tract infection	First semester	Assist Prof Dr Amani Abdulridha Awad	Soha Hussein Khudair	45
Down syndrome gene disease with Using Unipro uGene to analyze the mutation : A simple user guide	First semester	HananDr. Ramadhan Alnja	Safa Khaled Hariz	46
Detection virulence factor (Fim H DNA gene) of uropathogenic Escherichia coli strains isolated from patients with urinary tract infection	First semester	Assist Prof Dr Amani Abdulridha Awad	Duha Saad Abdel-Al	47
Plasmid profile of staphylococcus aureus isolated from diabetic foot infection	First semester	Assist Prof Dr Zainab Radhi Abdul Hussien	Abdul Rahman Fahd Mansour	48
Down syndrome gene disease with Using Unipro uGene to analyze the mutation : A simple user guide	First semester	HananDr. Ramadhan Alnja	Alia Thaer Abbas	49

Title Project	Course	ameN Supervisor	Student Name	No
Analytical study of breast cancer using image processing techniques and the ImageJ software	First semester	Zainab Ali AbboodDr.	Fatima Jabbar	50
Prevalence of rheumatoid arthritis in Basra	First semester	Prof Dr Shereen Jawad Kadhim	Fatima Ramzi Abdel Wahed	51
الإصابات الطفيلية المصاحبة للمرضى المصابين بمتلازمة القولون العصبي	First semester	Prof Dr Muslim Abdul Rahmman Mohammad	Fatima Abbas Hamid	52
The Anti-cancer Effect of Biosynthesis Silver Nanoparticles	First semester	Assist Prof Dr Afrodet Abdulrazaq Saleh	Fatima Abdel Amir Youssef	53
The association of blood groups with Candida species in the oral cavity of diabetic patients	First semester	Prof Abdullah Hammood Al-Saadoon	Fatima Nayef Mohsen	54
Dagnostics of leishmaniasis and the biological vector	First semester	Prof Dr Mufeed Abdul Lateef Habeeb	Fatima Nimr Masir	55
Anti-microbial activity of some sulfa drugs derivatives	First semester	Prof Dr Ekhlas Qanber Jassim Muhammed	Fatima Widad Hamid	56
The association of blood groups with Candida species in the oral cavity of diabetic patients	First semester	Prof Abdullah Hammood Al-Saadoon	Fatima Yacoub Yusuf	57
Detection virulence factor (Fim H DNA gene) of uropathogenic Escherichia coli strains isolated from patients with urinary tract infection	First semester	Assist Prof Dr Amani Abdulridha Awad	Fatima Saadoun	58

Title Project	Course	ameN Supervisor	Student Name	No
The Effect Of Vitamin D Levels On Blood Groups And Age In Human Body	First semester	Hanan RamadhanDr. Alnja	Fatima Talib Naji	59
The Effect Of Vitamin D Levels On Blood Groups And Age In Human Body	First semester	Hanan RamadhanDr. Alnja	Laila Fadel Karim	60
Detection of proteins poisons profile of forensic insects Honey Bee and Wasp and in Human blood	First semester	Dr Bassim Maftéen Prof Dr Mufeed Abdul Lateef Habeeb	Muhammad Bassem Laith	61
Comparative study of breast cancer using image processing techniques and the ImageJ software	First semester	Dr. Zainab Ali Abbood	Maryam Ali Hussein	62
Plasmid profile of pseudomonas aeruginosa isolates from otitis media	First semester	Assist Prof Dr Zainab Radhi Abdul Hussien	Maryam Majed Abdel Hafez	63
estimated the levels of CRP and HsCRP in peoples vaccinated by covid-19 sinopharm and Pfizer	First semester	Prof Dr Awatif Hameed Issa Dr. Majid Noori Humoud Alyasir	Manar Abdel Karim Faraj	64
Immunological and physiological changes of Pfizer and Sinopharm vaccinated	First semester	Prof Dr Awatif Hameed Issa Dr. Majid Noori Humoud Alyasir	Mona Arif Abdel Karim	65
Detection of proteins poisons profile of forensic insects Honey Bee and Wasp and in Human blood	First semester	Dr Bassim Maftéen Prof Dr Mufeed Abdul Lateef Habeeb	Narges Adel Fadel	66
Evaluation of sodium and potassium levels in serum of diabetics patients	First semester	Prof Dr Ekhlas Qanber Jassim Muhammed	Nisreen Abdullah Mazloun	67

Title Project	Course	ameN Supervisor	Student Name	No
Down syndrome gene disease with Using Unipro uGene to analyze the mutation : A simple user guide	First semester	HananDr. Ramadhan Alnja	Nour Al-Huda Nori	68
Parasites That Cause Eye Inflammation	First semester	Prof Dr Muslim Abdul Rahmman Mohammad	Nour Adnan Shatti	69
Prevalence of rheumatoid arthritis in Basra	First semester	Prof Dr Shereen Jawad Kadhim	Nour Ammar Akram	70
Parasites associated with gingivitis and tooth decay	First semester	Prof Dr Muslim Abdul Rahmman Mohammad	Nour Qusay Jabbar Shihab	71
Dagnostics of leishmaniasis and the biological vector	First semester	Prof Dr Mufeed Abdul Lateef Habeeb	Nour Muhammad Shaker Habib	72
Detection virulence factor (Fim H DNA gene) of uropathogenic Escherichia coli strains isolated from patients with urinary tract infection	First semester	Assist Prof Dr Amani Abdulridha Awad	Hajar Khudair Muhammad	73
The Anti-cancer Effect of Biosynthesis Silver Nanoparticles	First semester	Assist Prof Dr Afrodet Abdulrazaq Saleh	Hadeel Ali Salil	74
Analytical study of breast cancer using image processing techniques and the ImageJ software	First semester	Zainab Ali AbboodDr.	Hanadi Majeed Majed Mohammed	75
