

Course Description Form

1. Course Name: Medical histology	
2. Course Code:	
3. Semester / Year: Annule	
4. Description Preparation Date: 5-3-2024	
5. Available Attendance Forms: Attendance in halls	
6. Number of Credit Hours (Total) / Number of Units (Total): 90 hours	
7. Course administrator's name (mention all, if more than one name)	
Name: Dr. Israa Yousif Izzuldeen	
Email: firassonic2020@gmail .com	
8. Course Objectives	
Course Objectives	<ol style="list-style-type: none"> 1. Full knowledge of the histological structure of all body tissues according to the different body systems. 2. Linking the knowledge of histological structure to the functions of each tissue and their impact on the body 3. Practical knowledge to distinguish between different tissues according to the characteristics of each tissue
9. Teaching and Learning Strategies	
Strategy	<ul style="list-style-type: none"> -Teaching students how to identify different tissues through their microscopic shape -Teaching students to distinguish between cells and tissues by recognizing the characteristics of each tissue -Teaching students to identify normal tissues, which will be a basis for distinguishing them from pathological tissues in the future

10. Course Structure

Week	Hours	Required Learning Outcomes	Unit or subject name	Learning method	Evaluation method
1	3	The cardiovascular system	Human histology	Lectures theSecond grade	Questions and discussion
2	3	The cardiovascular system			
		The skin			
3	3	The skin			
4	3	The nervous system			
5	3	The nervous System			
6	3	The nervous System			
7	3	The oral cavity			
8	3	The esophagus And stomach			
9	3	The small intestine			
10	3	The large intestine			
11	3	The accessory glands			

12	3	The lymphatic system			
13	3	The lymphatic system			
14	3	The endocrine system			
15	3	The endocrine system			
16	3	The respiratory system			
17	3	The female Reproductive system			
18	3	The female Reproductive system			
19	3	The male Reproductive system			
20	3	The urinary system			
21	3	The urinary system			

11. Course Evaluation

- 1- Conducting written quizzes exam.
- 2- Conducting a written final exam.
- 3- Making reports for students in all subjects and calculating a score on them.
- 4-Evaluating students' entry and interaction on online learning platforms

Distributing the score out of 100 according to the tasks assigned to the student such as daily preparation, daily oral, monthly, or written exams, reports etc

12. Learning and Teaching Resources

Required textbooks (curricular books, if any)	1--Junquiere's Basic histology-Text book 2. Atlas of histology
Main references (sources)	
Recommended books and references (scientific journals, reports...)	
Electronic References, Websites
