Academic Program and Course Description Guide

Introduction:

The educational program is a well-planned set of courses that include procedures and experiences arranged in the form of an academic syllabus. Its main goal is to improve and build graduates' skills so they are ready for the job market. The program is reviewed and evaluated every year through internal or external audit procedures and programs like the External Examiner Program.

The academic program description is a short summary of the main features of the program and its courses. It shows what skills students are working to develop based on the program's goals. This description is very important because it is the main part of getting the program accredited, and it is written by the teaching staff together under the supervision of scientific committees in the scientific departments.

This guide, in its second version, includes a description of the academic program after updating the subjects and paragraphs of the previous guide in light of the updates and developments of the educational system in Iraq, which included the description of the academic program in its traditional form (annual, quarterly), as well as the adoption of the academic program description circulated according to the letter of the Department of Studies T 3/2906 on 3/5/2023 regarding the programs that adopt the Bologna Process as the basis for their work.

Concepts and terminology:

Academic Program Description: The academic program description provides a brief summary of its vision, mission and objectives, including an accurate description of the targeted learning outcomes according to specific learning strategies.

<u>Course Description:</u> Provides a brief summary of the most important characteristics of the course and the learning outcomes expected of the students to achieve, proving whether they have made the most of the available learning opportunities. It is derived from the program description.

<u>Program Vision:</u> An ambitious picture for the future of the academic program to be sophisticated, inspiring, stimulating, realistic and applicable.

<u>Program Mission:</u> Briefly outlines the objectives and activities necessary to achieve them and defines the program's development paths and directions.

<u>Program Objectives:</u> They are statements that describe what the academic program intends to achieve within a specific period of time and are measurable and observable.

<u>Curriculum Structure</u>: All courses / subjects included in the academic program according to the approved learning system (quarterly, annual, Bologna Process) whether it is a requirement (ministry, university, college and scientific department) with the number of credit hours.

<u>Learning Outcomes:</u> A compatible set of knowledge, skills and values acquired by students after the successful completion of the academic program and must determine the learning outcomes of each course in a way that achieves the objectives of the program.

<u>Teaching and learning strategies</u>: They are the strategies used by the faculty members to develop students' teaching and learning, and they are plans that are followed to reach the learning goals. They describe all classroom and extracurricular activities to achieve the learning outcomes of the program.

1. Program Vision

he College of Medicine at Basra University seeks excellence in medical topics in general and in those related to health problems in southern Iraq in particular. This can be achieved through national, regional and international leadership in life medical education and in research activities in topics such as spinal surgery, hemoglobinopathies, cancer, environmental pollution and post–traumatic diseases.

2. Program Mission

The College of Medicine at the University of Basra seeks to prepare graduates for distinguished medical practice concerned with the health problems of Basra in particular and Iraq in general, with an emphasis on linking medical practice with the interest of society. It seeks excellence in medical education programs in primary and postgraduate studies and continuing education in order to achieve the training of doctors, professors and researchers, and to prepare for the continuity of medical education. A scientific environment that emphasizes the latest knowledge in health sciences and necessarily leads to excellence in education, health care, and biomedical research, and to stimulating the pursuit of long-term self-learning and consolidating the human and ethical values that characterize work in the field of health sciences. The college also seeks to recruit and develop a faculty with high specifications to become The best in the field of education and research

3. Program Objectives

- 1- المساهمة في دعم وإدامة الصحة من خلال التعليم الطبي والبحث وتقديم الخدمات الصحية، بأبعادها التعزيزية والوقائية والعلاجية والتأهيلية
 - 2- تخريج أطباء لديهم المعرفة والاستعداد والمهارة التي تمكنهم من ممارسة الطب بشكل مأمون مع تجسيد القيم الإنسانية والأخلاقية
- 3- تطوير وتعزيز الدراسات العليا بهدف تدريب الأطباء والكوادر الطبية الأخرى وبالتخصصات المختلفة. وهذا يتطلب فتح دراسات عليا في مجالات عديدة كلما أمكن ذلك بضمنها درجة الدكتوراه
 - 4- السعي أن تكون الكلية مركزا بحثيا علميا وإبراز دورها في البحوث الصحية التطبيقية مع الاستغلال الأمثل لنتائج تلك البحوث وبالتعاون مع مختلف الجهات المنتفعة
 - 5- تقديم الخدمة الصحية مباشرة إلى السكان عن طريق الكادر الطبي للكلية العامل في المؤسسات الصحية الرسمية وكذلك في القطاع الخاص
 - 6- تعزيز علاقات التعاون مع المؤسسات العلمية والطبية داخل وخارج العراق لتطوير الممارسة الطبية بوصفها فنا وعلما وسلوكا
 - 7- السعى من اجل حل المشكلات الصحية المحلية عن طريق إجراء البحوث والدراسات العلمية بالتنسيق مع المؤسسات الطبية الأخرى
 - 8- التعاون مع المراكز والكليات الأخرى في جامعة البصرة لدعم التطور العلمي في الجامعة ولإسناد دورها في المنطقة وفي العالم بشكل أوسع

Professional Development

Mentoring new faculty members

- 1- Attending continuing medical education seminars for the purpose of developing teaching skills
- 2- Guidance to attend with the old teachers in practical and theoretical teachings

Professional development of faculty members

Guidance to enroll in courses on teaching methods

12. Acceptance Criterion

(Setting regulations related to enrollment in the college or institute, whether central admission or others)

13. The most important sources of information about the program

- 1 –Junqueira s Basic Histology. Anatomy L Mesher. $12^{\rm th}$ edition
- 2--Cell Biology Pollard and Earnshow. $2^{\text{nd edition}}$
- 3-Lewis Ricki (2007). Human genetics concepts and application. 7th edition. McGraw-Hillcampanies.
- 4-Cummings R.Michael (1997). Human heredity principles and Issues4th edition. WestLWadsworth.
- 5-Human Biology Part 1

Course Description Form

Course Name: Medical Biology
2. Course Code:
3. Semester / Year: Semester
4. Description Preparation Date: 27-2-2024
5. Available Attendance Forms:
6. Number of Credit Hours (Total) / Number of Units (Total)
30 hours per semester .2 hours per week
7. Course administrator's name (mention all, if more than one name)
Name: Ass. Professor Dr.Emad Kudhair Abbas
Email: Emad.Abbas@uobarsa.edu.iq
8. Course Objectives

Course
Objectives

- Students' knowledge of the types and shap of tissues and their relationship to the function for all organs of the body and all the systems that make up the body.
-
- Students know the components of the ce its functions, and how it reproduces, wh studying the molecular biology approach
- Knowing the basics of genetics a studying some genetic diseases

9. Teaching and Learning Strategies

Strategy

Knowledge of the morphological shape of all cell organell and linking them to their function, location, and number

- 2- Teaching and learning to students the types, shapes, a composition of general tissues of the body and all systems the human body
- 3 Teaching and learning the basics of genetics and studyi some genetic diseases
