

**Description of the colleges' academic program
For the academic year 2023-2024**

Scientific Department: Our college has one department

Name of the academic or professional program: Bachelor's – Physical
Education and Sports Sciences

Name of final degree: Bachelor's degree in Physical Education and
Sports Sciences

Academic system: annual

Description preparation date: 2/28/2024

Date of filling the file: 3/3/2024

the signature:

Prof . Dr. Qusay Muhammad Rakhess

Assistant Scientific Dean

Date 3/14/2024

The file was audited by the Quality Assurance and
University Performance Division

Name of the Director of the Quality Assurance
and University Performance Division

the signature:

Prof . Dr. Mohanad Khairallah Jabbar

Date: 3/14/2024

Authenticated by

Prof. Dr. Haider Awfi Ahmed

Dean of the College of Physical Education
and Sports Sciences

Date 3/14/2024:

1.program vision

Our college adopts advanced specialized educational cadres to possess scientific and practical knowledge and pedagogical skills to advance community service and educational, pedagogical and research institutions to be one of the most important leading institutions of higher education in the field of modern education and scientific research through its scientific, research and administrative activities. It also works to provide an integrated path for its students and professors to make them Active and creative people in community service in the fields of sports and education

2. Program message

Our college offers scientific programs and courses to prepare qualified scientific cadres, the purpose of which is to meet the needs of the local and regional community, scientific and .technological developments, and activate scientific research in various sports fields As well as working to prepare and graduate leading scientific and leadership competencies in physical education and sports sciences to serve the community, as well as training and refining the minds of students scientifically and cognitively, and emphasizing social and cultural values .and responding to the requirements of the local market

3.Program Objectives

- 1.Embodying the vision, mission and goals of the College of Physical Education and Sports Sciences and applying the best educational and sports practices with a focus on ensuring and enhancing quality and performance
- 2.Preparing specialized cadres capable of serving the community and preparing for the .preparation of future specializations in physical education
- 3.Improving the academic level of the branch, represented by students and teachers
- 4.Providing a scientific climate for students and faculty
- 5.Providing the appropriate opportunity to fill the branch's need for scientific competencies
- .6.Improvement and expansion in response to the labor market and community service
- 7.Spreading the culture of sports diversity in society, transferring knowledge and linguistic skills, writing academic research, and creative scientific achievement through sports activities that focus .on the student and the teacher
- 8.The college seeks to conclude scientific, cultural, and sports cooperation agreements at the local and international levels with the corresponding colleges and corresponding departments in the .various colleges to achieve the best practices in the fields of education
- 9.Focusing on the educational and moral aspect of all its members and spreading the spirit of .dedication, tolerance, commitment and work to serve sports in the country
- 10.Paying attention to intellectual and cultural construction through openness to the experiences .of other countries in the academic and sports fields
- 11.Focus on the educational and moral aspect of the student and instill a spirit of dedication, .tolerance and commitment

4. Programmatic accreditation

An application has been submitted for program accreditation for the College of Physical Education and Sports Sciences

5. Other external influences

Laboratories, library, Internet, and sports halls

8-The expected learning outcomes of the program

Knowledge

Knowledge of the laws of learning and sports training and all the sciences supporting

- 1.sports
- 2.Understanding the basic skills in individual and team sports
- 3.Knowing the correct scientific application in teaching methods for school students
- 4.Knowing how to write research projects within the specialty of sports
- 5.Helping the community by providing them with staff specialized in sports and the .management of sports institutions

Skills

- 1.Using the computer and cinematic presentation of some sports games for the purpose of .analyzing and discussing them
- 2.Holding external tournaments for the purpose of intellectual and scientific exchange
- 3.Theoretical lectures for sports sciences
- 4.Practical lectures for various games
- 5.Educational, social, and specialized sports sciences
- 6.Enhancing the principle of participation of a group of students to discuss mathematical cases .and how to solve them

Value

- 1- Consolidating the highest values of the university professor and his distinguished role in building generations.
- 2- Developing students' abilities to share ideas.
- 3- Paying attention to the scientific and educational dimensions in order to develop students' energies and talents.
- 4- Developing and developing the educational process and providing the ideal environment for actual teaching and learning practices to keep pace with modern scientific developments.
- 5- Cooperation in building team spirit and purposeful work.
- 6-Continuous review and efficient evaluation to improve performance

9-Teaching and learning strategies

- 1.Using different methods in teaching mathematical sciences, including partial, holistic, and mixed methods
- 2.(Lectures (theoretical and practical
- 3.Graduation research
- 4.View and apply in schools
- 5.E-learning
- 6.Self-education
- .7.Holding seminars, training courses, and discussion groups on the sports aspect
- 8.Asking intellectual questions
- 9.Presenting intellectual points of view and discussing the
- .10.Putting the vocabulary of the scientific subject in the student's hands and additional topics

10-Evaluation methods

- 1.Homework assignments

- 2.Participation and daily preparation
- 3.Teachers' evaluation of students through daily discussions
- 4.By holding sports matches in one of the sports
- 5.Quarterly tests for the theoretical and practical aspects
- 6.Annual tests for the theoretical and practical aspects
- 7.Conducting physical and skill tests for evaluation
- 8.Weekly, monthly and daily exams and the end of the year exam

12-Professional development

Orienting new faculty members

- 1.New faculty members join the science course and seminars on teaching techniques and the speed .of teaching and learning
- 2.Faculty departments to delegations outside the department

Professional development for faculty members

- 1.Professional development for faculty members by holding and attending conferences, seminars and training courses in the sports field

13.Acceptance criterion

- 1.University books are accepted - morning studies
- 2.Direct submission to evening studies - according to grade and competition

14-The most important sources of information about the program

- 1.College and university website
- 2.University guide
- 3.College books and scientific sources
- 4.College library
- 5.Complete course description form for the College of Physical Education and Sports Sciences - University of Basra

15.Program development plan

- 1.Updating information systems and technology to develop the college's method
- 2.Prepare a questionnaire to determine the extent of students' satisfaction with the teaching .methods used by the teaching staff to identify strengths and weaknesses
- 3.Preparing a questionnaire to know the opinions of employers and beneficiaries about the .teaching methods used
- 4.Develop training programs to develop students' professional skills in their fields of specialization
- 5.Holding seminars for students to introduce the importance of scientific research and how to .write research in a correct and sound scientific manner
- 6.Writing research at every stage of study except the fourth stage, since scientific research is among the requirements for graduation, provided that a grade is allocated for research and is .added to the student's degree
- 7.Develop a program for scientific trips and field visits to public and private sector .institutions
