7	assist. Prof. Dr. Elham Jaafar Hamid	Head of Accounting Department	Hawra Abdul -Imam Khudair
8	assist. Prof. Dr. Bahaa Abdul Razzaq	Head of the Statistics Department	Statistical Zainab Mohsen
9	assist. Prof. Dr. Walid Mai Rudin	Head of Administrative Information Systems Department	Ahmed Dawood Jassim
10	senior manager Weam Yassin Najm	Director of the Quality Assurance and University Performance Division	Fatima Hassan Ashour

Definition of the self -evaluation report

Self -evaluation: It is one of the methods used in assessing the quality of the university's performance and is carried out by the Quality Assurance Division in the institution in light of the specific controls and conditions, and the self -evaluation of a division and an administrative unit, or a scientific section, a specific academic curriculum or the entire educational institution can be (University and college).

One of the principles of self -evaluation is a SWOT Analysis to determine the strengths, internal weaknesses, opportunities and external threats. The environmental survey includes analyzing the internal factors that affect university performance in light of the criteria and indicators to obtain accreditation, quality and quality to extract the aspects of strength to preserve it and weakness to improve it in the direction of providing a university climate that preserves the safety, security and dignity of students and employees and building on human rights principles that include justice, equality, respect, tolerance and integrity Transparency, lack of discrimination, empowerment, participation and focus on marginalized students. The environmental survey also includes analyzing external factors that affect university performance, including political, economic, social, cultural, legal and environmental factors to determine the opportunities available to exploit them and external risks facing the university in order to reduce its consequences to achieve results and obtain the university institution on academic accreditation.

Academic accreditation: It is the set of procedures and operations carried out by the authority in order to ensure that the institution has fulfilled the conditions and specifications of the approved quality, and that its programs are compatible with the declared and adopted standards and that it has existing systems to ensure quality and continuous improvement of its academic activities in accordance with the declared controls. It is an affirmation and empowerment of universities in order to obtain a distinct quality and a single identity and acknowledging that the steps taken to improve quality are successful steps.

The self-evaluation report of the College of Administration and Economics 2022/2023

The importance of the report and its goals the self -study of the college is an important part of the procedures for ensuring quality, as it aims at what is based on the college, its evaluation, and its improvement, and not only the definition of it, as it looks at self -study as a continuous process aimed at the following:

- 1- Analysis of the sources available to the college.
- 2- Show the achievements achieved by students at the level of academic programs provided by the college and the extent of their translation of the goals of these programs and their goals.
- 3- Evaluating the relationship between college activities and activities.
- 4- Providing a strong and effective basis for the planning and improvement of the college.
- 5- Analyzing the sources, procedures, institutional plans and its effectiveness in achieving the college's mission and goals.
- 6- Evaluating the educational achievements

Organizational structure of the College of Administration and Economics 2022/2023

The self -evaluation report of the College of Administration and Economics 2022/2023

The self -evaluation report for the Deanship of the College of Administration and Economy 2022/2023

First- a historical summary

The College of Administration and Economy was established on 9/1/1971 according to the decision of the Higher Education and Scientific Research Council (Council/D/3/A/5/Q/A) in its third session, with the issuance of the Book of Secretariat with the number (6696/262 on 9/11/ 1971). The Department of management Information Systems Founded the academic year 2018/2019 and the staff of the teaching number (7) two teachings, most of whom are the competence of business department, either the number of students of the first stage (86) students for the morning study only. The first batch graduated from the academic year 2021/2022

Second- vision- mission- college goals

The vision of the college aspires to the Faculty of Administration and Economics at Basra University to be among the world's distinguished colleges in the economic, administrative, financial and accounting areas, and to be scientifically and administratively distinguished in the quality of the service that it provides to society and stakeholders at the national, Arab and international levels, and to abide by the academic professional culture among academics and employees. In addition to the attachment of the prospects for development in the university academic practical aspects (educational, research and service).

The collection of the college of management and economy seeks in the inception of Basra to the best service of society and the frameworks that exchange interests and benefits with it, and with the university, through the precise diagnosis of their local needs and future expectations, and achieving the effective response and efficiency of these needs and expectations by ensuring the quality of all university operations and practices in the college. (Educational/ research/ consulting/ and administrative). And according to what comes ...

- 1- The best investment for the college resources and their energies through effective commitment to applying the provisions of the quality assurance system and academic accreditation related to resource allocation.
- 2- Improving the performance of human resources (an academic and functional body) by participating in specialized and developed training and development courses inside and outside the country.
- 3- Create plans and programs that ensure the use of resources (material, financial and technical) available to the college in improving the comprehensive performance of the college.
- 4- The participation of the entire body (academic and functional) and students in the decisions and practices related to them, and those that contribute to the development of the college's work and improve its performance.
- 5- Establishing a comprehensive plan that guarantees the preparation of the requirements, supplies and mechanisms that make student outcomes of the college respond to the labor market, and the satisfaction of the stakeholders.
- 6- Investing inverse nutrition information in improving the future performance of the college.

Strategic goals

- Setting goals and plans that enable the college's scientific level (students and teaching).
Developing plans and mechanisms that enable the prosecution of scientific and cognitive development in the field of the competencies of the college.
- Preparing the requirements that enable a better teaching climate for students and teachers ...
- Create appropriate opportunities to meet the college's need for scientific competencies ...

The self -evaluation report of the College of Administration and Economics 2022/2023

- Setting plans and providing supplies that enable improvement and expansion to respond to the labor market and community service ...
- Work to implement the requirements and take measures that enable the college to obtain an academic accreditation certificate

Third- The self-evaluation of the people and scientific and administrative units

from where: -

- Organizational and administrative structure
- The improvement and development plan
- Employees numbers (need - in terms of certificate and specialization)
- The planned courses subscribe to the affiliates
- The suitability of employee offices (furniture-cooling-heating-computers-lighting-hygiene)

First - the people and the scientific and administrative units of the structure of the dean of the college

- 1- The Office of the Dean of the College
- 2- Quality Assurance and University Performance Division

Performance Assessment Unit

Laboratory Accreditation Unit

- 3- Auditing Division
- 4- Educational Guidance Division
- 5- Scientific promotions
- 6- Consulting office
- 7- The magazine unit

Economic Sciences Magazine

Administrative Studies Magazine

- 8- Legal unit
- 9- Media Unit
- 10- Planning and Follow-up Unit

Second - The people and the scientific units of the structure of the Dean for Scientific Affairs

- 1- The Office of the Dean's Assistant for Scientific Affairs
- 2- The Scientific Affairs Unit
- 3- College Library Division
- 4- Student Affairs Division and Registration

Registration Unit

Student Affairs Unit

- 5- Information Technology Unit
- 6- Graduate Studies Unit
- 7- Calculator Unit
- 8- Free education unit
- 9- Continuing Education Unit

Third - People and Administrative Units of the Dean's Assistant for Administrative Affairs

- 1- Office of the Dean's Assistant for Administrative Affairs
- 2- Human Resources Division
- Database unit
- Archive Unit
- Housing Unit
- 3- Accounts Division
- 4- Equipment Unit
- 5- Services Unit
- 6- Alternative unit

Fourth- The quadruple analysis of the people and scientific and administrative units

The self -evaluation report of the College of Administration and Economics 2022/2023

Weakness points	Strong points
<p>1-Delaying the answer to the scientific departments to the official books that require the answer, which led to the achievement of work</p> <p>2-lack of the establishment of development courses in the college despite the need for some specializations (computer and English language) and the special courses of the employees of the Quality Assurance and University Performance Division and the employees of the educational guidance unit for the rise</p> <p>3-The small number of employees who have experience in the use of computers, and this hinders keeping pace with the development in the use of electronic archiving in the work of the people and administrative units</p> <p>4-The lack of specialized functional cadres for administrative units such as (the Educational Guidance Unit- College Media Unit).</p> <p>5-A lack of the number of fixed career cadres for some administrative units such as (Quality Assurance Division- Educational Guidance Division- Student Affairs Division and the magazine unit)</p> <p>6-Increasing the numbers of students admitted outside the plan developed by the college, which leads to some difficulties that are not appropriate for the number of computers with the number of students in some laboratories</p> <p>7-A shortage of curriculum books compared to the numbers of college students</p> <p>8-The small number of functional cadres (specialization in teaching practical computers) in the calculator</p> <p>9-Some buildings, such as the college library, are not valid and after the deanship of the college and the classroom</p> <p>10-The job staff accumulate in some scientific departments, the people and administrative units, which led to the presence of convincing unemployment, despite the need of some people with specialized job staff</p> <p>11-The absence of a job staff (number and administrative specialization) in the office of the Dean for Administrative Affairs and Scientific Affairs (Journal of Economic Sciences and the Journal of Administrative Studies)</p>	<p>1-Follow the daily mail and answer the official books received that require the answer as quickly as possible</p> <p>2-The desire of employees to participate in the development courses to develop performance in his work jurisdiction</p> <p>3-Commitment to the official working hours and the spirit of cooperation between the job staff and the flexible dealing with all parties to implement the instructions and the limits of the controls</p> <p>4-A guarantee of the quality of procedures and work mechanisms and to keep pace with scientific development in the field of work, such as the use of electronic archiving in saving the incoming and export mail</p> <p>5-Simplify procedures to the extent possible and provide services to students by providing laboratories and classrooms, providing methodological books and modern sources and increasing working hours in the people (library - Student Affairs and Registration Division and the college accounts division) to provide services to evening studies</p> <p>6-The presence of staff with experience, knowledge and high desire to perform the tasks and duties assigned to them and the adoption of the principle of reward and punishment in management</p> <p>7-The rooms are suitable to work well in terms of furniture, lighting, heating and cooling.</p> <p>8-Attention to educational and administrative guidance issues and encourage the Deanship of the Educational Guidance Division and the support and formation of unity.</p> <p>9-Issuing an order to form a quality assurance team from the administrative staff employees in the scientific departments and the deanship of the college, for the purpose of speeding the completion of the work of the Quality Assurance Division</p>

The self -evaluation report of the College of Administration and Economics 2022/2023

<p>12-Dependence of the Services Division on a job staff, which causes a lack of efficiency of work with the large number of obstacles in completing the work</p> <p>13-Freezing the work of the continuing education unit in terms of courses and its shortcut to train the third stage students</p>	<p>10-The Division of Quality Assurance and University Performance in Business is evaluating the quality of the college's performance, which will be a point for studying the reality of the college and developing it for the better</p> <p>11-Scientific publications: Issuing (3) prepared by the Economic Sciences Magazine- Issuing two numbers of the Journal of Administrative Studies for each year</p>
---	---

Threats	Opportunities
<p>1 -Delaying the answer to the scientific departments to the books that require the answer, which caused the dignity of administrative work</p> <p>2 -The lack of the establishment of development courses in the college despite the need for some specializations (computer and English language) and special development courses for employees (Quality Assurance and University Performance Division - Information Technology Unit - Scientific Sections - Scientific Promotions - Graduate Studies - Planning and Follow -up Unit - The Journal Unit and the Guidance Division Educational).</p> <p>3 -The lack of a special internet line for administrative work in the people's people and units, which makes it difficult to communicate</p> <p>4 -The presence of some employees with a contract (daily wage) despite their good work and their experience in the work. They cannot be given job responsibility</p>	<p>1- Developing the communication process between units and scientific departments in the college and between the college and the external environment via the Internet for speed</p> <p>2- Involving the employee in the development courses to improve job performance</p> <p>3- Gaining experiences and skills from external parties, whether foreign, Arab or local, by sending the employee to participate in the courses and implement them in his field of work</p> <p>4- Motivating the employee morally and financially to encourage him to work more accurately and carefully</p> <p>5- Add the number of computers in the calculator laboratories and add additional display screens to the student's interest</p> <p>6- Restore employees 'structure and distribution between the scientific</p>

The self -evaluation report of the College of Administration and Economics 2022/2023

5 -The small number of employees who have experience in the use of the computer, and this hinders to keep pace with the development in the use of electronic archiving and the work of the people and administrative units

6 -The large number of routines in administrative work, with some obstacles in the implementation of controls and instructions for their arrival late

7 -Increasing the numbers of students admitted outside the plan developed by the college, which leads to some difficulties that are not appropriate for the number of computers with the number of students in some laboratories

8 -A lack of methodological books compared to students' numbers

9 -The small number of cadres of precise specialization (computer science and computer engineering) to work in the laboratory accreditation unit and computer laboratories.

10 -The failure of some of the college employees to respond (administrative leaders- faculty members and employees (administrators and technicians) to the concept and culture of guaranteeing quality and university performance

11 -The absence of a job staff specialized in a certificate (educational counseling) campaign for the purpose of promoting the work of the administrative division.

12 -The phenomenon of convincing unemployment of job cadres in (scientific departments, people and administrative units).

13 -Administrative structure in the non-distribution of job staff within (certificate, jurisdiction, need and experience in work)

14 -The lack of moral incentive for employees, such as limiting the work of the committees to specific persons with the marginalization of others

15- Some buildings, such as the college library, are not valid and then on the deanship of the college and the classroom.

departments, the people and administrative units according to (certificate, experience and specialization in the performance of work) for the purpose of getting rid of persuasive unemployment and delay in work.

7- Spreading a culture and concept (quality assurance and university performance).

8- Stimulating the work of the Educational Guidance Division:

1- Preparing (educational guidance) committees in the scientific departments.

2- Carrying out periodic meetings directly with all college students for the purpose of guiding them (educationally - scientific and culturally) and finding solutions to their problems.

3- Preparing a guideline for students.

9- Informing students by their scientific departments of the concept of training and positive and negative for the student

10-Developing the work of the continuing education unit by establishing

development courses for the college's employees to enhance the work of the unit

Fifth- The self-evaluation of the college's condition and its scientific departments

First - College activities

The college contributed several scientific activities by holding (its annual scientific conference - its annual evaluation conference - seminars - discussion episodes) and cultural (seminars - discussion episodes) and sports in the contribution to sports matches and excellence over colleges.

The self -evaluation report of the College of Administration and Economics 2022/2023

Second - administrative activities

- 1- Maintenance of cooling and lighting - in all classrooms and for all scientific departments, with changing and maintaining the doors and seats of the classroom
- 2- Maintenance of cooling, lighting and changing furniture for a number of administrative offices and offices of faculty members in the scientific departments
- 3- Maintenance of college bathrooms
- 4- Maintenance of electronic computer laboratories in all scientific departments and equipping them with the furniture and computers that need
- 5- Covering a number of administrative rooms in the Deanship of the College and the offices of the faculty members.

Third - scientific activities

Conferences

- 1- The fifteenth annual optional conference of the College of Administration and Economics was held on the date of 10/18/2022

Participated conferences

Department of Economics

- 1- Food Security Forum
- 2- VI. International Research Chongress of Contemporary Studies in Social Sci
- 3- The first international scientific conference for administrative and accounting sciences
- 4- Contemporary studies and issues in the humanities and social sciences
- 5- Sustainability of resources in light of climate changes and ways to reduce their effects: an administrative vision
- 6- Conference to display the winning initiatives in the vote of youth in the development agenda 2030
- 7- Contemporary studies and issues in the humanities and social sciences
- 8- The role of humanities and social sciences in understanding the contemporary global scene

Sixth- College activities according to the axes of self-evaluation

The first axis - the scales of the vision, mission and goals of the college and its plans:

*Vision, message and goals: The Deanship of our college, its scientific departments, its people, and its administrative units seek to unify the vision and the message and achieve the desired goals, and publish it among its employees (teaching staff - employees - students) all where it was published through murals - students 'reception guide - the introductory booklet of the college and finally on the website of the college

Instructions and laws: Commitment to the laws and instructions erected by the Ministry of Higher Education and Scientific Research, which is characterized by the Presidency of Basra University

*Civil Service Law (teaching staff + employees), 2008 amended

*The Law of State Employees Discipline

Student discipline law

The second axis - measures of leadership and administrative organization

*The infrastructure of the college: We show the table below

n	Buildings	number
1	Number of college buildings	8
2	The number of teaching offices	47

The self -evaluation report of the College of Administration and Economics 2022/2023

3	Number of administrative offices	63
4	The number of meeting halls	6
5	Number of classrooms	42
6	Number of seats	3472
7	The number of studies	8
8	Number of laboratories	7
9	The number of reading halls	2

Electronic archiving: Electronic archiving of the college was completed by 95% in terms of

- 1- Archive college employees: (two teachings and employees) by 100%. Database unit
- 2- Archive official books: 90% issued books (Dean's Office- Brigadier General Office (Scientific- Administrative)- Scientific Sections).
- 3- Research archiving: The archiving in the college library was 90%
- 4- Archive a homosexual and messages of graduate students. 97%.
- 5- Student Affairs and Registration Division: Archive in initial study students- archiving the graduates' documents by 93%
- 6- Archive grades (Master Chit) by 100%from the academic year (1980-1981)

The third axis - material, financial, technical, informational and human resources standards

- Maintenance of cooling and lighting - in all school halls and for all scientific departments with the seats of the classroom
- Maintenance of cooling, lighting and changing furniture for all administrative offices and offices of faculty members in the scientific departments
- Maintenance of college bathrooms and their scientific departments
- Maintenance of electronic computers in computer laboratories for all scientific departments
- Providing computer laboratories, with modern computer furniture and devices (laptop)
- Preparing computer laboratories for all scientific departments with (CO2 firefighters + early warning devices + indicative panels)

Fourth axis - faculty members

- The Quality Assurance and University Performance Division conducted the quality performance evaluation of the faculty members of the staff:
 - 1- According to the assessment forms for our college for the academic year (2021-2022) and save them electronically.
 - 2- Evaluating the administrative leaders (faculty members) according to the evaluation forms for our college for the academic year (2021-2022) and preserving them electronically.

Fifth Axis- Student Affairs

- The Quality Assurance and University Performance Division conducted the performance quality evaluation by the total students for each of:
 - 1- The faculty members by the student for the academic year (2020-2021) for the academic stages (second-third- fourth) and for all scientific departments.
 - 2- The quality of the college's performance, as the college was evaluated by students of the fourth stage of the academic year (2021-2022) for all scientific departments.
 - 3- The quality of the performance of the final exams (electronic) for the academic year (2021-2022), where the college students were evaluated for all levels and scientific departments.
- The Quality Assurance and University Performance Division issued a guide for receiving new students for the academic year (2021-2022), which includes (conditions for admission and graduation-goals-a definition of scientific departments-students 'discipline instructions). It was distributed to students of the first stage and for the morning and evening studies within the voices of admission to the college. It was published on the

The self -evaluation report of the College of Administration and Economics 2022/2023

Quality Assurance Division page on the college's website.

Cultural and humanitarian activities

Cultural activities = 19

Humanitarian activities = 11

- Scientific travel = 2

The sixth axis - student services

• Follow -up of the college's outputs (follow -up of the graduates): The College of Administration and Economics has been in the past six years to follow up on its graduates by concluding agreements with governmental and non -governmental agencies to provide appropriate job opportunities for them, and they have been:

1- Agreement with the Ministry of Planning / Central Bureau of Statistics on the appointment of graduates of the Statistics Department in the Basra Statistics Directorate, and this agreement is still in effect for this year.

2- Agreeing with foreign oil companies, especially BP, on appointing our college graduates.

3- Agreement with Microsoft to train students and give them an accredited certificate to qualify them for appointment in governmental and non-governmental departments and give them an international certificate in this field.

4- Agreement with private banks to adopt our college graduates, especially graduates of the Department of Financial and Banking Sciences, for the purpose of attracting students and training them to obtain work in private banks operating in Basra.

The seventh axis - academic programs and teaching methods

• Obtaining academic accreditation: The Economy Department seeks to obtain academic accreditation

• Scientific agreements: Our college has concluded agreements and memoranda of understanding with Arab and international universities, which number (7) agreements:

1- The Spanish University of Fatsia, which is the fourth agreement that the college signs with international universities.

2- French University of Rett signed with the accounting department.

3- British University of Derm signed with the college.

4- The American University of Okloha signed with the Department of Financial and Banking Sciences.

5- The Jordanian University of Mu'tah signed with the college.

6- British male university signed with the college.

7- The German University Agreement on 3/27/2017

The eighth axis - scientific research

• Scientific Research published: 127

Economy Department = 15

Business Administration Department = 66

Accounting Department = 14

Statistics Department = 10

Department of Financial and Banking Sciences = 18

Department of Administrative Information Systems = 4

• The number of books author = 6 books

The organizational and administrative structure of the scientific departments 2022/2023

The self -evaluation report of the College of Administration and Economics 2022/2023

Self -evaluation report, Economy Department
For the academic year 2022/2023

The vision seeks the Department of Economics - College of Administration and Economics - Basra University to be one of the distinguished departments of the economy at the scientific and administrative levels through the application of quality assurance standards and academic accreditation issued by the Ministry of Higher Education and Scientific Research. The department also aims to keep pace with the movement of developments in the corresponding scientific departments in international universities, as well as documenting the relationship of the section to society and keeping pace with the movement of economic developments.

The message is to serve the community through the following:

- 1- Preparing students to obtain a Bachelor's degree in Economic Sciences.
- 2- Preparing specialists in economic science holds a master's and doctorate degree.
- 3- Preparing research and studies in various specializations in economic sciences.
- 4- Providing advice, economic feasibility studies and strategic studies of the external parties that require this.
- 5- Cooperation with public sector institutions and the private sector in the field of economic studies.
- 6- Holding specialized seminars and scientific seminars.

Goals aims to divide the economy

- 1- Improving the scientific level of the department (students and teaching staff).
- 2- Pursuing scientific and cognitive development in the field of specialization.
- 3- Providing a better teaching climate for students and students.
- 4- Create appropriate opportunities to fill the section of the section of scientific competencies.
- 5- Improvement and expansion of responding to the labor market and community service.
- 6- Working for the department subject to an academic accreditation certificate.

The case of the scientific section

First: the teaching staff

- 1- Modern and accurate scientific specializations: The Economy Department has an integrated teaching staff in terms of modern and accurate scientific disciplines.
- 2- Certificates of Certificates: There is a diversity in the economy department in scientific degrees (doctorate and masters) and in the various disciplines required by the department in postgraduate and parental studies.
- 3- The structure of the department- the preparation of the two teachings in relation to the preparation of students: that the number of students in the department that reaches (805) students compared to (27) teaching, that is, approximately 30 students for each team. This number is large and requires the appointment of more teaching staff to advance the educational reality of the department. .
- 4- The experience of cadres in the field of teaching and scientific research: Good for some teaching staff and their obstruction to others.
- 5- Teaching staff ethics: The teaching staff has high moral obligations, and this is reflected in their dealings with students.
- 6- The commitment of teaching cadres to office hours to follow up students and scientific research: the teaching staff is obligated to do so
- 7- The development of scientific research and books of books: It is not only for the purpose of scientific promotions: the movement of scientific research in the department is very good, as it supplies Iraqi organizations with ideas of administrative and organizational development, as the department professors contribute to the scientific research and the writing of books is not for the purposes of scientific promotions.
- 8- Development in the curricula: relying on the sectoral body of Iraqi universities, the curricula are constantly developed and updated.
- 9- Other service supplies for the service of the teaching staff:
 - A- Teaching offices and their supplies: the statute of statute of statute of teaching offices
 - B- Bathrooms and toilets: well available
 - C- Computers are available for teachers: Computers are not available for teachings and no internet is available.

Quartet analysis

Weakness points

Strong points

The self -evaluation report of the College of Administration and Economics 2022/2023

<p>1-The number of students in the department, which reaches (805) students, compared to (27) a lecture, that is, approximately 30 students for each team. This number is large and requires the appointment of more teaching staff to advance the educational reality of the department=</p> <p>2-Lack of local and international developmental and training courses for the teaching staff to keep pace with the latest developments in the field of teaching and scientific research</p> <p>3-Computers are not available for teachers and no internet is available=</p> <p>4-The statute of limitations of the teaching offices in terms of furniture</p> <p>5-Closing evening studies since 2019-2020</p>	<p>1-The Economy Department has an integrated teaching staff in terms of modern and accurate scientific disciplines=</p> <p>2-There is a diversity in the economy department in scientific degrees (doctorate and masters) and in the various disciplines required by the department in postgraduate and first studies=</p> <p>3-The Economy Department has a teaching staff with extensive experience in the field of teaching and scientific research</p> <p>4-The teaching staff has high moral obligations, and this is reflected in their dealings with students=</p> <p>5-Depending on the sectoral body of Iraqi universities, the curricula are constantly developed and updated=</p>
Threats	Opportunities
<p>1- Reducing the teaching retirement age to 63 years</p>	<p>1-Increasing scientific specializations in the department by opening the door for appointments for holders of higher degrees according to what the scientific structure requires</p>

Second - Obtaining academic accreditation

- The total number of primary study students and all stages = 805
- The total number of graduate students = 56 courses = 40 writing = 16

And compare it with:

1- Number of classrooms:

- Initial study / The number of classrooms is not suitable for the number of students, as the number of halls is (8) halls, which is a very small number compared to the number of students
 Graduate studies / The number of allocated halls is suitable for the number of graduate students.

2- The number of seats:

- Initial study / The department's plan for students' admission is between (150) students to (200) students annually, but the actually acceptable number is very permissible with a number of (300) students
 Graduate studies / postgraduate studies are suitable for the actually acceptable number in the department.

3- Preparing the teaching staff:

- Initial study / The preparation of students in the department that reaches (805) students compared to (27) teaching, or approximately 30 students for each teaching, and this number is large and requires the appointment of more teaching staff

Graduate studies / The number of teaching staff is proportional to the scientific titles with the number of students in postgraduate studies

4- Micro-majors for the teaching staff:

Initial study / The exact majors of the teaching staff are commensurate with the curriculum in the department

Graduate Studies / The accurate specializations of the teaching staff are suitable for the curriculum - for postgraduate studies in the department

5- Preparing the curriculum books (free education):

The self -evaluation report of the College of Administration and Economics 2022/2023

Initial study / The preparation of the curriculum books is not commensurate with the number of students in preliminary studies

Graduate studies / free data are not suitable for postgraduate studies requirements

6- Preparing and diversifying modern scientific sources in the college library:

Initial study / The preparation and diversity of modern scientific sources in the college library is not commensurate with the number of students in preliminary studies

- Graduate studies / The preparation and diversity of modern scientific sources in the college library is not commensurate with the requirements of graduate students.

7- Other service requirements for student’s service:

A- Laborators and computer preparation:

Initial study / The number of laboratories and computers is not suitable for the number of initial studies students

Graduate studies / No laboratory or computers are available for graduate students.

- The use of the laboratory is to participate with another section

B- Availability of the internet: No internet is available

C- The bathrooms: The bathrooms are not available in proportion to the numbers of students

W- Green spaces: green spaces are available in the college

C- Water colds: Do not be available

H- Refugee devices: Available

X- Sports stadiums and the practice of students' activities and hobbies: they are not available

Quartet analysis

Weakness points	Strong points
<p>1 -The number of classrooms does not fit with the number of students, as the number of halls is (8) halls, which is very small compared to the number of students in preliminary studies.</p> <p>2 -The preparation of students in the department that reaches (1240) students compared to (26) teaching, that is, approximately 47 students for each team, and this number is considered large and requires the appointment of more teaching staff</p> <p>3 -The preparation of the curriculum books is not commensurate with the number of students in preliminary studies</p> <p>4 -The preparation and diversity of modern scientific sources in the college library is not commensurate with the number of students in preliminary studies</p> <p>5 -The number of laboratories and computers is not suitable for the number of initial studies students</p> <p>6 -No laboratory or computers are available for graduate students</p> <p>7 -Using the laboratory is to participate with another section</p> <p>8 -The bathrooms are available in proportion to the preparation of</p>	<p>1 -The number of halls allocated to postgraduate studies is suitable for the number of students=</p> <p>2 -Graduate studies seats commensurate with the actually acceptable number in the department=</p> <p>3 -The number of teachers from the scientific titles holders is suitable for the number of students in postgraduate studies</p> <p>4 -The accurate specializations of the teaching staff are commensurate with the curriculum in the department</p> <p>5 -The preparation and diversity of modern scientific sources in the college library is somewhat appropriate with the requirements of graduate students</p> <p>6 -Green spaces are available in the college</p> <p>7- The cooling devices are available</p>

The self -evaluation report of the College of Administration and Economics 2022/2023

<p>students, as well as their need for continuous maintenance</p> <p>9 -Water refrigerators are not available</p> <p>10 -Sports stadiums are not available to practice students with their activities and hobbies</p> <p>11- The Internet is not available</p>	
Threats	Opportunities
The lack of material and financial supplies.	The desire to obtain a certificate

Third - Student Affairs

Initial study in terms of

Prepared by admitted students = 180

Admission plan = 150

Admission rates = 63-65

school system:

1- E-learning:

There are some methods that professors and students know in dealing with materials.

Provides specialized workshops on e -learning

- E -learning in Iraqi colleges is not qualified, as it needs infrastructure.

Students deal with e -learning needs scientific trust by students

Difficulty in some of the materials that need students to attend.

2- Transit System:

The transit system confuses the work of the examination committee

- You are promoting the student in the event of his failure with transit materials.

3- The third floor:

- Providing the opportunity for students, especially students who are absent for special circumstances.

Lost time and not catching third round students with their peers.

The third-round exams are accompanied by increasing burdens and delay in the educational process

4- Course System: The system was canceled because the infrastructure was not available in the department.

5- The courses system:

- Providing the opportunity to study the largest number of subjects

- The small number of hours for each substance with the diversity of materials.

The increasing numbers of the study units with which the student graduates.

6- Return the pillars for previous years:

- Providing students with special circumstances that were the reason for their promotion.

- Delayed issuance of orders of the usual students from promotion

The difference in study systems for the student.

Quartet analysis

Weakness points	Strong points
<p>1-E-learning in Iraqi colleges is not qualified, as it needs infrastructure</p> <p>2-Students deal with e-learning needs scientific trust by students</p> <p>3-Difficulty in some of the subjects that need students to attend</p>	<p>1-There are some methods that professors and students know in dealing with materials</p> <p>2-Provides specialized workshops on e-learning</p> <p>3-Providing the opportunity for students, especially students who are absent for special circumstances</p>

The self -evaluation report of the College of Administration and Economics 2022/2023

4-You are promoting the student's registration in the event of his failure with transit materials	4-Providing the opportunity to study the largest number of subjects
5-Lost time and not catching third round students with their peers.	5-Increasing the numbers of the study units with which the student graduates
6-Delayed issuance of the orders of the usual students from the promotion	6-Providing the opportunity for students who have special circumstances that were the reason for their promotion
7-The difference in study systems for the student	
Threats	Opportunities
1-The transit system confuses the work of the examination committee	Providing the appropriate infrastructure for the advancement of e -learning
2-Exams for the third floor and the accompanying increase in burdens and delay in the educational process	

- Studies of Olayam were

1- Teaching staff:

- The experience of cadres in the field of teaching and scientific research: The teaching staff in the Department of Economics has extensive experience in the field of teaching and scientific research.
- Dependence on modern and advanced scientific sources: The teaching staff in the Department of Economics depends on modern scientific sources in teaching the curriculum.
- Certificate - The Scientific Nick: The teaching staff assigned to teach in postgraduate studies are all holders of a doctorate who holds scientific titles (Professor - Assistant Professor)

2- Graduate Students:

Competition for admission: 60-30%

Admission areas: PhD - Master - High Diploma

- Preparing admitted students - due to the preparation of the teaching staff in terms of experience, certificate and scientific title:

- The number of students admitted in postgraduate studies is proportional to the number of teaching staff in the economy department in terms of experience, certificate and scientific title.

Building an independent library for graduate studies equipped with modern scientific sources and with the Internet:

- Graduate studies halls are inappropriate and quality for doctoral students, masters and diploma

Quartet analysis

Weakness points	Strong points
1-Decreased students 'admission rates 2-The lack of a library for postgraduate studies 3-The lack of the Internet 4-Graduate studies halls are inappropriate and quality for PhD. students, masters and diploma	1-The presence of a large number of teachers who hold a doctorate with the rank of professor and assistant professor who have experience in the field of teaching and scientific research. 2-The presence of halls dedicated to graduate students equipped with modern clarification methods 3-The number of admitted students is compatible with the admission plan and the preparation of the teaching staff.
Threats	Opportunities
1 - Lack of financial allocations	1-Building modern halls

The self -evaluation report of the College of Administration and Economics 2022/2023

2- The instructions related to the acceptance of students related to the ministry	2-Raising students' admission rates
---	-------------------------------------

Fourth - curricula

- 1- The extent of the percentage of update in the subjects to keep pace with the scientific development and the labor market: the percentage of modernization with the subjects is very good.
- 2- Adopting the English language subject in the curricula and all stages: The English language subject is adopted in the curricula of all stages.
- 3- Dependence on curricula with a modern edition: it is somewhat dependent on most subjects on modern sources of the curricula.
- 4- The preparation of the books of the subjects in (free education) is available to the ratio of the promise of students: the preparation of the books of the subjects in free education is not appropriate with the numbers of students in the department.
- 5- Teaching computers (theoretical- practical) by a specialized teaching staff (computer science) and by relying on modern curricula to keep pace with scientific development: there are no professors specialized in teaching computer subject.
- 6- Providing computer laboratories with modern capacity and technology and preparing computers that suit the numbers of students: Modern computer laboratories are available with computers that suit the numbers of students.
- 7- Focusing to rely on teaching (practical + theoretical) some of the subjects to benefit the student in the labor market after graduation: the teaching method (practical + theoretical) is used some subjects to benefit the student in the labor market after graduation.
- 8- Adoption of courses (courses) instead of the annual system: The courses system is approved instead of the annual system.

Quartet analysis

Weakness points	Strong points
1-Preparing books in free education is not commensurate with the number of students 2-The lack of professors specialized in teaching computers 3-The lack of the teaching staff qualified to teach in the English language 4-The lack of academic curricula with a modern edition	1-The percentage of update in the subjects is very good= 2-The English language subject is adopted in the curricula of all stages 3-It is somewhat dependent on most of the subjects on modern sources of the curricula. 4-The presence of a large number of teachings= 5-The presence of modern computer laboratories 6-Focusing to rely on teaching (practical + theoretical) for some subjects to benefit the student in the labor market= 7-Adoption of the courses instead of the annual system
Threats	Opportunities
1-Lack of financial credits 2-The powers are linked to the higher authorities and not authorizing them to the lower entities (university) or college	1- The possibility of qualifying some of the teaching staff by sending them to training courses outside Iraq to strengthen the English language

Fifth - service supplies

- 1- School halls and their suitability for teaching (hygiene - lighting - seats - the availability of air fans and air conditioners - windows and curtains - doors of the classroom - etc.): The economy department is available in the appropriate study halls for teaching as they are available in them All paragraphs above.

The self -evaluation report of the College of Administration and Economics 2022/2023

- 2- Updating and expanding the halls according to the latest specifications and providing them with all modern technologies that serve the teaching process: the halls are updated and expanded periodically
- 3- Office of the faculty members in terms of the availability of (hygiene- lighting- air conditioners- furniture- computers- internet): faculty members offices with the above paragraphs except for the internet.
- 4- Bathrooms (bathrooms) in terms of (number- hygiene- water availability): lack of water cycles
- 5- Provides drinking water refrigerators: Do not be available

Quartet analysis

Weakness points	Strong points
1-The lack of water refrigerators 2-Lack of bathrooms 3-The Internet is not available	1-Classical halls for teaching in terms of (hygiene- lighting- study seats- the availability of air fans and air conditioners- windows and curtains- the doors of the classroom etc) 2-Updating and expanding the halls according to the latest specifications and providing them with all modern technologies=
Threats	Opportunities
Lack of financial allocations	The availability of the desire for the college administration to address the weaknesses and the development of the college

Self -evaluation of the status of the scientific section

Scientific section strategy

Quartet analysis

Weakness points	Strong points
1-Lack of some disciplines 2-The lack of modern halls that meet the expansionary needs of the department	1-The existence of a desire among the teaching staff to develop the department 2-The presence of an important number of researchers in the department 3-Providing government institutions with studies, research and economic consultations
Threats	Opportunities
The presence of one hall in the college for discussions	1-The presence of great support for the department from the Deanship of the College 2-The existence of the possibility to improve the performance of the department through the interaction between the administration and the teachers

Head of the Economics Department

The results

• College needs:

Due to the expansion witnessed by the college from opening branches of scientific departments, and in addition to the acceptance of primary school students (morning - evening) and graduate students. And seek to obtain (academic accreditation certificate), so it was necessary

- 1- Providing classrooms with specifications that serve the progress of the study process.
- 2- Providing laboratories to study computers with advanced modern technologies.
- 3- Provides a specialized cadre in teaching computers in laboratories
- 4- Establishing an internet network in laboratories
- 5- Establishing a private library for each of the scientific departments, equipped with modern scientific sources with the Internet for scientific research service.
- 6- Providing rooms for the faculty members, especially for the holders of scientific titles (professor- assistant professor) for the purpose of providing the appropriate atmosphere for scientific research within the college.

• Suggestions:

The self -evaluation report of the College of Administration and Economics 2022/2023

1- Given the central admission of students in numbers that exceed the capacity of the college, where about (1200) students are accepted for each new academic year. Although the construction of the college and its academic halls dates back since the previous decade of the twentieth century and a specific capacity. So we suggest building new classrooms.

2- We suggest speeding up the process of accepting new students, as the late admission to students of the first stage contributes to the lack of completion of the curricula.

3- Serious pursuit of scientific departments obtaining an academic accreditation certificate.

4- To keep pace with scientific development in the world and for the purpose of the development of scientific disciplines in Iraq- Basra University- College of Administration and Economics- therefore we suggest expansion to open.

- Study the higher diploma for the following specializations:

1- Higher diploma in international economic relations.

2- Higher diploma in Islamic economics.

- To specialize in the economy, open branches of the third stage of the initial study: Business Economic Branch.

-

Negatives:

1- Accepting numbers of students in the first stage exceeds the plan adopted by the college

2- The financial allocations for maintenance are still few, knowing that the college buildings are old and have eliminated more than (40) years, and therefore you need sufficient amounts for maintenance.

3- There is a delay in completing the scientific plan by the teaching staff in the completion of scientific research.

4- The multiplicity of college buildings and their large size contributed to the dispersion of the special effort in controlling the college facilities, whether it is in providing services at a high level and according to ambition, and the lack of services staff.

5- The lack of teaching staff in the college, which is not commensurate with the size of the college and the number of students in the college, so the college needs grades to set some specialty

6- Lack of important and accurate specializations, especially after a number of teaching staff referred to retirement, especially in the accounting, business administration and statistics departments.

Self -Evaluation Report Department Business Administration for the academic year 2022/2023

The vision aspires that the Business Administration Department be distinguished in all areas of scientific research, consulting and community service.

The mission will achieve the primary and best section of all departments of business administration in Iraqi universities.

Objectives

1- Upgrading postgraduate studies for the better

2- twinning with Arab and foreign universities

3- Developing the relationship with the public and private sector in the field of community service and providing the best consultations

4- Holding annual scientific conferences

The case of the scientific section

First - the teaching staff

1- Modern and accurate scientific specializations certificates:

2- The structure of the department- the preparation of the two teachings in relation to the numbers of students:

3- The experience of cadres in the field of teaching and scientific research:

4- Teaching staff ethics:

5- The commitment of teaching cadres to office hours to follow up students and scientific research:

6- The development of scientific research and books of books:

7- Development in the curriculum:

The self -evaluation report of the College of Administration and Economics 2022/2023

8- Other service supplies for the service of the teaching staff:

- 1- Teaching offices and their requirements
- 2- Hammamet and toilets:
- 3- Provides computers for teaching:

Quartet analysis

Weakness points	Strong points
1-A plan to accept the department between 150 to 300 students annually, while the sufficient number of halls is not available to accommodate this number 2-The movement of scientific research is moderate because the goal is to obtain the promotion without providing the governmental institution with development experiences	1-The department has a teaching staff with scientific experienced experience 2-Variou scientific degrees 3-The commitment of the teaching staff to the office hours
Threats	Opportunities
Lack of development courses to develop the skills and art of dealing with youth generations of students in a way that is consistent with the technological factors in the external environment	The teaching seeks to participate in local and external development courses Serious pursuit of raising the scientific level and obtaining the degree of professionalism

Second - Obtaining academic accreditation

- The total number of primary study students and all stages = 3355
- The total number of graduate students = 18 courses = 29 writing = 47

And compare it with:

1- Number of classrooms:

Initial study / 15

Graduate Studies / 4

2- The number of seats:

Initial study /900

Graduate Studies / 60

3- The numbers of the teaching staff:

Initial study / 29

Graduate Studies / 12

4- Micro-majors for the teaching staff:

Initial study / The department has a teaching staff with various accurate scientific specialties

Graduate Studies / The department has a teaching staff with various accurate scientific specializations

5- Numbers of the curriculum books (free education):

- Initial study / There are not many books and modern sources enough to count students

Graduate Studies / No

6- Numbers and diversity of modern scientific sources in the college library:

Initial study / There are no modern scientific sources

Graduate Studies /There are no modern scientific sources

7- Other service requirements for student's service:

1- Laboratory and computer preparation: (46) calculator

Initial study / (1 laboratory) Graduate Studies /

2- Availability of the Internet: Yes

The self -evaluation report of the College of Administration and Economics 2022/2023

- 3- Hammamet: There is 6
- 4- Green spaces are 2
- 5- Water Party: There is 1
- 6- Cooling devices: There are 12 ways
- 7- Sports stadiums, students' activities and hobbies: There is no

Weakness points	Strong points
The lack of cafes for the cooling devices. The department's lack of modern teaching methods There are not enough halls	The department's efforts to hold scientific seminars and document them as activities for the department The presence of a teaching staff with solid scientific experience and with various precise specializations that provide cooling devices for each hall.
Threats	Opportunities
Lack of financial allocations that will raise the service reality of the department	The desire of the concerned authorities to address the weaknesses and develop the reality of the department

Third - Student Affairs

- Initial study in terms of
 Prepared by admitted students = 600
 Admission plan = 400
 Admission rates =
 school system:
- 1- E-learning: Activating the admission system
 - 2- Transit System: No
 - 3- The third floor: No
 - 4- Courses system: activated
 - 5- Returning the pillars for previous years

Quartet analysis

Weakness points	Strong points
The lack of study halls by modern means	The contribution of both students and teaching staff to developing the reality of the department The presence of adequate administrative staff is characterized by great experience in administrative work
Threats	Opportunities
Lack of financial allocations that will raise the service reality of the department	The presence of great support for the department by the higher authorities Serious pursuit of the presidency of the department by developing the department

Graduate studies in terms of

- 1- Teaching staff:
 - The experience of cadres in the field of teaching and scientific research: the experience of cadres in the field of teaching and scientific research: the teaching staff in the department with high experience in the field of teaching and scientific research
- Dependence on modern and developed scientific sources: Relying on the modern sources available on the Internet

The self -evaluation report of the College of Administration and Economics 2022/2023

Certificate - Scientific Speak: PhD (Professor, Assistant Professor)

- Dependence on modern and advanced scientific sources: The rate of competition for admission: The rate is specified according to the Ministry's instructions

Admission areas: Department of the Department 5 seats for a master's and 5 for doctorate

- Preparing admitted students - relative to the preparation of the teaching staff in terms of experience, certificate and scientific title: very good

- Certificate - Scientific Sick:

2- Graduate Students:

Competition rate for admission:

Admission areas:

- Preparing admitted students - due to the preparation of the teaching staff in terms of experience, certificate and scientific title:

Quartet analysis

Weakness points	Strong points
1-A plan to accept the department between 400 to 500 students annually, while the sufficient number of halls is not available to accommodate this number 2-The movement of scientific research is moderate because the goal is to obtain the promotion without providing the governmental institution with development experiences	1-The department has a teaching staff with scientific experienced experience 2-Variou scientific degrees 3-The commitment of the teaching staff to the office hours
threats	Opportunities
Lack of development courses to develop the skills and art of dealing with youth generations of students in a way that is consistent with the technological factors in the external environment	1-Testants seek to participate in local and external development courses 2-Serious pursuit of raising the scientific level and obtaining the degree of professionalism

Fourth - curricula

1- The extent of the percentage of update in the subjects to keep pace with the scientific development and the labor market:

2- Adopting the English language subject in the curricula and for all stages:

3- Dependence on curricula with a modern edition:

4- Providing the preparation of books books in (Free Education) to the ratio of the promise of students:

5- Teaching computers (theoretical- practical) by a specialized teaching staff (computer science) and based on modern curricula to keep pace with scientific development:

6- Providing computer laboratories with modern capacity and technology and preparing computers that suit the numbers of students:

7- Focusing to rely on teaching (practical + theoretical) some subjects to benefit the student in the labor market after graduation:

8- Adoption of courses (courses) instead of the annual system:

Quartet analysis

Weakness points	Strong points
Many weekly shares for some materials	1-The availability of sufficient numbers of systematic books 2-The curriculum is interconnected 3-The curricula are updated
Threats	Opportunities
1-Lack of financial support 2-Central decisions	The possibility of qualifying some faculty members by holding training courses

Fifth - service supplies

The self -evaluation report of the College of Administration and Economics 2022/2023

- 1- School halls and their suitability for teaching (hygiene - lighting - seats - the availability of air fans and air conditioners - windows and curtains - doors of the classroom - etc.):
- 2- Updating and expanding the halls according to the latest specifications and providing them with all modern technologies that serve the teaching process:
- 3- Office of the faculty members in terms of the availability of (hygiene- lighting- air conditioners- furniture- computers- internet):
- 4- Bathrooms (bathrooms) in terms of (number- hygiene- water availability):
- 5- Provides drinking water refrigerators

Quartet analysis

Weakness points	Strong points
1-The lack of sufficient preparation for the cooling devices. 2-The department's lack of modern teaching methods 3- There is no sufficient number of classrooms 4-There is no sufficient number of classrooms	1-Availability of fans and air conditioners in the classroom 2-The presence of a sufficient number of offices of the faculty members
Threats	Opportunities
Lack of financial allocations that will raise the service reality of the department	The desire of the concerned authorities to address the weaknesses and develop the reality of the department

Self -evaluation of the status of the scientific section

Scientific section strategy

Quartet analysis

Weakness points	Strong points
The lack of study halls by modern means	1-The contribution of both students and teaching staff to developing the reality of the department 2-The presence of adequate administrative staff with great experience in administrative work
Threats	Opportunities
Lack of financial allocations that will raise the service reality of the department	1-The presence of great support for the department by the higher authorities 2-Serious pursuit of the presidency of the department by developing the department

The self -evaluation report of the College of Administration and Economics 2022/2023

Job staff in terms of:

Note / Please answer each point and analyze it with quadruple analysis by points (strength / weakness - opportunities / threats)

1- The improvement and development plan:

2- The need from employees in terms of certificate and specialization:

3- The extent to which employee offices are suitable (furniture- cooling- heating- computer devices- lighting- hygiene):

4- The planned development courses and participating in the employee:

5- The number of staff staff is actually working

N	the name	Certificate	Career Title	Date of hiring	The work it does
1	Haifa Abdel Zahra Radi	Head research	Bachelor of Business Administration	/ 9 / 20 1987	Student Affairs for Morning Studies - Responsible for Student Affairs for Evening Studies
2	Enas Sabah Abdul Wahid Abdul Razzaq	Head assist. Senior laboratory	Bachelor of Mathematics Science	/12/31 2002	Calculator official in the department
3	Alaa Fadel Hantoush	Head observant	Bachelor of Business Administration	/ 10 / 12 2010	Section Post
4	Duha lyad Ahmed	Assist. observant	High diploma/Project Management	/ 5 / 16 2023	Quality Officer - Department of Graduate Studies in the Department

Prof. Dr. Hadi Abdel -Wahab Abdul -Imam
Head of the Department of Business Administration

THE RESULTS

• College needs:

Due to the expansion witnessed by the college from opening branches of scientific departments, and in addition to the acceptance of primary school students (morning - evening) and graduate students. And seek to obtain (academic accreditation certificate), so it was necessary

- 1- Providing classrooms with specifications that serve the progress of the study process.
- 2- Providing laboratories to study computers with advanced modern technologies.
- 3- Provides a specialized cadre in teaching computers in laboratories
- 4- Establishing an internet network in laboratories

The self -evaluation report of the College of Administration and Economics 2022/2023

5- Establishing a private library for each of the scientific departments, equipped with modern scientific sources with the Internet for scientific research service.

6- Providing rooms for the faculty members, especially for the holders of scientific titles (professor-assistant professor) for the purpose of providing the appropriate atmosphere for scientific research within the college.

• Suggestions:

1- Given the central admission of students in numbers that exceed the capacity of the college, where about (1200) students are accepted for each new academic year. Although the construction of the college and its academic halls dates back since the previous decade of the twentieth century and a specific capacity. So, we suggest building new classrooms.

2- We suggest speeding up the process of accepting new students, as the late admission to students of the first stage contributes to the lack of completion of the curricula.

3- Serious pursuit of scientific departments obtaining an academic accreditation certificate.

4- To keep pace with scientific development in the world and for the purpose of the development of scientific disciplines in Iraq- Basra University- College of Administration and Economics- therefore we suggest expansion to open.

• Study the higher diploma for the following specializations:

1- Higher diploma in international economic relations.

2- Higher diploma in Islamic economics.

• To specialize in the economy, open branches of the third stage of the initial study: Business Economic Branch.

Negatives:

1- Accepting numbers of students in the first stage exceeds the plan adopted by the college

2- The financial allocations for maintenance are still few, knowing that the college buildings are old and have eliminated more than (40) years, and therefore you need sufficient amounts for maintenance.

3- There is a delay in completing the scientific plan by the teaching staff in the completion of scientific research.

4- The multiplicity of college buildings and their large size contributed to the dispersion of the special effort in controlling the college facilities, whether it is in providing services at a high level and according to ambition, and the lack of services staff.

5- The lack of teaching staff in the college, which is not commensurate with the size of the college and the number of students in the college, so the college needs grades to set some specialty

6- Lack of important and accurate specializations, especially after a number of teaching staff referred to retirement, especially in the accounting, business administration and statistics departments.

**Self -evaluation report, accounting department
For the academic year 2022/2023**

The vision is excellence in innovation in the performance of the educational and research process and accounting knowledge in accordance with scientific standards for the purpose of achieving the leadership. The message comes out qualified and trained human cadres according to accounting specializations required in the labor market and continuous encouragement to develop and diversify theoretical and applied research continuously to address scientific, professional and environmental issues to serve business institutions and organizations that are not aimed at the graduate.

Goals This section aims to study the science of accounting and provide male and female students with technical and scientific skills and competencies to practice the accounting profession in all its branches in various institutions and organizations, including commercial, industrial, agricultural and banking companies, government agencies in their various units, as well as private accounting offices spread throughout the country, and through a scientific methodology Patients with renewed scientific developments in the various branches of specialization. The department also seeks to qualify its students and provide them with the necessary skills and use the latest modern technologies in information systems and accounting applications using automatic computers. The department is also male and female students for advanced and higher studies in accounting disciplines.

strategic goals

- 1- Developing and evaluating teaching methods and educational curricula so that it keeps pace with the development of development
- 2- Rehabilitation and training of new faculty members who have the title of assistant teacher professor to develop their efficiency for a period of not less than three months
- 3- Establishing laboratories and workshops to link the theoretical aspect to the practical side in light of the needs of the labor market
- 4- Finding systems to stimulate teaching and employees
- 5- Development of the electronic central library

The case of the scientific section

First - the teaching staff

- 1- Modern and accurate scientific specializations certificates:
- 2- The structure of the department- the preparation of the two teachings in relation to the numbers of students:
- 3- The experience of cadres in the field of teaching and scientific research:
- 4- Teaching staff ethics:
- 5- The commitment of teaching cadres to office hours to follow up students and scientific research:
- 6- The development of scientific research and books of books:
- 7- Development in the curriculum:
- 8- Other service supplies for the service of the teaching staff:

1- Teaching offices and their requirements

2- Hammamet and toilets:

3- Provides computers for teachingaine:

Quartet analysis

Weakness points	Strong points
<p>1- The preparation of students in the department that reaches (1452) students compared to (19) teaching, or approximately 75 students for each teaching, and this number is very large and requires the appointment of</p>	<p>1- The Accounting Department has a teaching staff in terms of modern and accurate scientific disciplines. 2- The Accounting Department is characterized by the diversity of scientific certificates (doctorate and masters)</p>

The self -evaluation report of the College of Administration and Economics 2022/2023

<p>more teaching to advance the educational reality of the department. 2- The accounts and printers are not available for teaching 3-ack of evolutionary sessions and local and international training for the teaching staff to keep pace with the latest developments in the field of teaching and scientific research</p>	<p>and with the various disciplines that require the department in higher studies) and the first. 3- The Accounting Department has a teaching staff with extensive experience in the field of teaching, scientific research and participation in global conferences 4- The teaching staff has high moral obligations, and this is reflected in their dealings with students. 5-The teaching offices are good in terms of furniture and hygiene</p>
Threats	Opportunities
<p>1- Reducing the teaching retirement age to 60 years on the structural structure of the two teachings if he is referred to retirement this year. 2-Lack of financial specialties for the testimonies inside and outside Iraq</p>	<p>1- Increasing scientific fortifications in the department by opening the door for appointments for the nipple of higher degrees, according to what the scientific structure of the department requires. 2-Expanding the horizons of research cooperation with the corresponding departments in Arab and international universities through participation in scientific seminars</p>

Second - Obtaining academic accreditation

- The total number of primary study students and all stages =
 - The total number of graduate students = 16 courses = 8 writing = 8
- And compare it with:
- 1- Number of classrooms:
 Initial study / 14 halls
 Graduate Studies / 1 hall
 - 2- The number of seats:
 Initial study /14 halls
 Graduate Studies / 1 Souk
 - 3- The numbers of the teaching staff:
 Initial study / 22
 Graduate Studies / 18
 - 4- Micro-majors for the teaching staff:
 Initial study / cost accounting - administrative cost accounting - information systems
 Graduate Studies / Cost Accounting - Administrative Cost Accountants - Information Systems
 - 5- Numbers of the curriculum books (free education):
 Initial study / 18
 Graduate Studies / 2
 - 6- Numbers and diversity of modern scientific sources in the college library:
 Initial study / 20
 Graduate Studies /15
 - 7- Other service requirements for student's service:
 - 1- Laborators and computer preparation: There is no
 Initial study / No
 Graduate Studies / No
 - 2- Availability of the internet: 1
 - 3- Hammamet:
 - 4- Green spaces
 - 5- Water colds:
 - 6- Cooling devices:
 - 7- Sports stadiums, students' activities and hobbies:

Quartet analysis

Weak points	Strong points
<p>1- The department’s plan for students’ admission is between (150) students annually, but the actually acceptable number exceeds that with a number of more than 372 students</p> <p>2- A crisis in the halls</p> <p>3- Except the limit for the number of students taught by the professor</p>	<p>1- The outputs of the accounting department are targeted by the economic environment of Iraq because it is an environment in a state of growth.</p> <p>2- Expanding the construction of the halls</p> <p>3-retirement with external lecturers</p>
Threats	Opportunities
<p>Not to advance the university for the global level</p>	<p>1- The desire to obtain a certificate</p> <p>Openness to the academic program for other universities via the Internet by specialists</p> <p>2- Establishing positive and negative evidence and indicators.</p>

Third - Student Affairs

Initial study in terms of

Prepared by admitted students = 250

Admission plan =

Admission rates = 65 and above

school system:

1- E-learning: my presence

2- Transit System: Right

3- The third floor: there is no

4- Courses system: There is

5- Return the pillars for previous years: Yes

Quartet analysis

Weak points	Strong points
<p>1- E-learning in Iraqi colleges is not qualified, as it needs the infrastructure.</p> <p>2- Students dealing with e-learning needs scientific honesty</p> <p>3- The student’s registration in the event of a failure with transit materials</p> <p>4- Difficulty in some of the materials that need to attend students.</p> <p>5- Lost time and not catching third round students with their peers.</p> <p>6- The difference in study systems for the student.</p>	<p>1- There are some methods that the professor and students know in dealing with materials.</p> <p>2- Specialized workshops on electronic education provides an opportunity to study the largest number of subjects in which the student graduates to provide the opportunity for students who have special circumstances that were the reason for their promotion.</p>
threats	Opportunities
<p>1- The high success rates in a way that does not consistenize with the scientific reality of students confuses the transit system</p> <p>2- The third floor exams are accompanied by increased burdens and delay in learning scientific.</p>	<p>1 - Providing the appropriate infrastructure for the advancement of e-learning</p> <p>2- The optimal use of the student's time and guidance to the scientific openness of the world by using the work of non-class activity teams</p>

Graduate studies in terms of

1- Teaching staff:

The self -evaluation report of the College of Administration and Economics 2022/2023

- The experience of cadres in the field of teaching and scientific research: very good

Relying on modern and advanced scientific sources: excellent

- Certificate - Scientific title: Professor - Assistant Professor

2- Graduate Students:

- Competition for admission: 70 %

Admission fields: General - private - Martyrs 'annexation

- Preparing admitted students - Relative to prepare the teaching staff in terms of experience, certificate and scientific title: 11/23 = 48 %

Quartet analysis

Weak points	Strong points
1- Weak in admission magazines low rates through the channel of the martyrs and the private alimony channel 2- The lack of a library for postgraduate studies 3- Lack of the internet.	1- The presence of a large number of teaching teachers who hold a doctorate with the rank of professor and assistant professor who have experience in the field of teaching and scientific research 2- The presence of specialized halls for postgraduate students with modern clarification methods 3- The number of admitted students is compatible with the admission plan and the preparation of the teaching staff.
Threats	Opportunities
1- Reducing large carcinogenic cases 2- Lack of financial specializations 3- Instructions for accepting students related to the Ministry.	1- Opening a language course for a period of three months, similar to scientific universities 2- The use of the department's calculator by postgraduate studies in excess hours with the insertion of the internet line 3- Building a modern base 4- Raising students' admission rates.

Fourth - curricula

1- The extent of the percentage of update in the subjects to keep pace with the scientific development and the labor market: somewhat

2- Adopting the English language in the curricula and for all stages: The English language is found at all stages

3- Dependence on curricula with a modern edition: Yes

4- Providing the preparation of books books in (Free Education) to the percentage of students 'promise: 45 %

5- Teaching computers (theoretical- practical) by a specialized teaching staff (computer science) and based on modern curricula in a way that keeps pace with scientific development: theoretical

6- Providing computer laboratories with modern capacity and technology and preparing computers that suit the numbers of students: No

7- Focusing to rely on teaching (practical + theoretical). Some subjects are useful to benefit the student in the labor market after graduation: there is no

8- Adoption of courses (courses) instead of the annual system: Yes

Quartet analysis

Weak points	Strong points
1- Preparing computers that are not suitable for students' numbers.	1- The percentage of speaking in the subjects is to keep pace with the scientific development and the labor market 70%

The self -evaluation report of the College of Administration and Economics 2022/2023

<p>2-The lack of preparation for the books of the subjects in (free education) to the percentage of students' numbers and free books</p>	<p>2- Adopting the English language subject in the curricula and all stages: 3- Dependence on curricula with a modern edition. 4- Provides the preparation of books books in (Free Education) to the percentage of students' numbers. 5- Teaching the computer (coincidence - practical) by a cheerful cadre (computer science) based on modern curricula to keep pace with scientific development 6- Providing computer laboratories with new capacity and technology focusing on relying on the teaching (practical + theoretical) some teaching materials in a way that benefits the student in the labor market after graduation.</p>
<p>Threats</p>	<p>Opportunities</p>
<p>1- Lack of financial credits 2-The powers are linked to the higher authorities and not authorizing them to the lower entities (university) or college</p>	<p>1- Carry out the scientific travels for the stage with the teachings in order to achieve interaction with the requirements of the labor market 2- The accounting department owns calculator, which were not used in the learning process in the department's laboratories to support the specialized teaching, and in a way that does not affect their administrative work.</p>

Fifth - service supplies

- 1- The classroom and their suitability for teaching (hygiene - lighting - seats - the provision of air fans and air conditioners - windows and curtains - doors of the classroom - etc.): Good
- 2- Updating and expanding the halls according to the latest specifications and providing them with all modern technologies that serve the teaching process: Good
- 3- Teaching staff offices in terms of (hygiene- lighting- air conditioners- furniture- computers- internet): Good
- 4- Bathrooms (bathrooms) in terms of (number- hygiene- water availability): good
- 5- Provides drinking water refrigerators: Good

Quartet analysis

<p>Weak points</p>	<p>Strong points</p>
<p>1 - There is no expansion in the halls, forgetting and expanding the number of students 2- There are no refrigerators 3- Preparation of students is not commensurate with the numbers of halls 4- The numbers of the teaching staff are few</p>	<p>1- The appropriates of modern academic halls, expand the halls according to the latest specifications, and provide them with all modern technologies that serve the teaching process. 2- The appropriate offices of the faculty members in terms of the availability of (hygiene -lighting -air conditioners -furniture modernity -computers</p>
<p>Threats</p>	<p>Opportunities</p>

The self -evaluation report of the College of Administration and Economics 2022/2023

1- The community needs the accounting department; you must meet with more suitable halls and adequate infrastructure.	1- Expanding the halls and providing them with the latest education requirements
---	--

**Self -evaluation of the status of the scientific section
Scientific section strategy**

Quartet analysis

Weak points	Strong points
1- Lack of some disciplines 2- The lack of modern halls that meet the expansionary needs of the department.	1- There is a desire for the teaching staff to develop the department 2- The presence of an important number of researchers in the department 3- Providing government institutions with studies, research and economic consultations.
Threats	Opportunities
	1- Developing and evaluating the teaching methods and learning curricula so that it keeps pace with the development of development 2- Rehabilitation and training of new faculty members who have the title of assistant teacher professor to develop their efficiency of no less than three months 3- Laboratory and workshops to link the theoretical aspect to the scientific side in light of the needs of the labor market. 4- Finding systems to stimulate teaching and employees

Teaching staff

The self-evaluation report of the College of Administration and Economics 2022/2023

6	Akram Abdul Zahra	Bachelorus	2016	Preparing and printing notes issued by the department
7	Hawra Abdul - Imam	Preparation of Trade Department of Accounting	2020	Graduate Studies Officer

Quartet analysis

Weaknesses	Strong points
The motivation system is incapable.	1- The improvement and development plan for job staff is continuing 2- The appropriate employee offices Having experience and skill.
Threats	Opportunities
The employee productivity is less and the motivation is decreased	The planned development courses and the participant in which the employee continues to encourage employees to participate in the development and training courses that develop from their capabilities and advance the administrative work of the department.

THE RESULTS

• COLLEGE NEEDS:

Due to the expansion witnessed by the college from opening branches of scientific departments, and in addition to the acceptance of primary school students (morning - evening) and graduate students. And seek to obtain (academic accreditation certificate), so it was necessary

- 1- Providing classrooms with specifications that serve the progress of the study process.
- 2- Providing laboratories to study computers with advanced modern technologies.
- 3- Provides a specialized cadre in teaching computers in laboratories
- 4- Establishing an internet network in laboratories
- 5- Establishing a private library for each of the scientific departments, equipped with modern scientific sources with the Internet for scientific research service.
- 6- Providing rooms for the faculty members, especially for the holders of scientific titles (professor- assistant professor) for the purpose of providing the appropriate atmosphere for scientific research within the college.

• Suggestions:

1- Given the central admission of students in numbers that exceed the capacity of the college, where about (1200) students are accepted for each new academic year. Although the construction of the college and its academic halls dates back since the previous decade of the twentieth century and a specific capacity. So we suggest building new classrooms.

2- We suggest speeding up the process of accepting new students, as the late admission to students of the first stage contributes to the lack of completion of the curricula.

3- Serious pursuit of scientific departments obtaining an academic accreditation certificate.

4- To keep pace with scientific development in the world and for the purpose of the development of scientific disciplines in Iraq- Basra University- College of Administration and Economics- therefore we suggest expansion to open.

• Study the higher diploma for the following specializations:

1- Higher diploma in international economic relations.

2- Higher diploma in Islamic economics.

• To specialize in the economy, open branches of the third stage of the initial study: Business Economic Branch.

•

Negatives:

1- Accepting numbers of students in the first stage exceeds the plan adopted by the college

2- The financial allocations for maintenance are still few, knowing that the college buildings are old and have eliminated more than (40) years, and therefore you need sufficient amounts for maintenance.

3- There is a delay in completing the scientific plan by the teaching staff in the completion of scientific research.

4- The multiplicity of college buildings and their large size contributed to the dispersion of the special effort in controlling the college facilities, whether it is in providing services at a high level and according to ambition, and the lack of services staff.

5- The lack of teaching staff in the college, which is not commensurate with the size of the college and the number of students in the college, so the college needs grades to set some specialty

6- Lack of important and accurate specializations, especially after a number of teaching staff referred to retirement, especially in the accounting, business administration and statistics departments.

**Self -Evaluation Report Statistics Department
For the academic year 2022/2023**

The vision The Statistical Department aspires to be one of the scientific departments that are scientifically distinguished in teaching students for specialized statistical materials and providing scientific and statistical consultations that government departments and others need to serve society and seek to develop its scientific curricula and the efficiency of the teaching staff in it to reach the refineries of statistics departments in Arab universities and later global. Applying quality specifications and guaranteeing them as well as his endeavor to document the bonds of cultural and scientific relations between the ranks of his professors with the outside world in the various scientific and research aspects

The mission seeks the Statistics Department at the College of Administration and Economics / Basrah University to provide the best scientific levels for his students by giving lectures by the department's teaching and developing students' capabilities in the field of computer, as well as providing the best services and consultations in the statistical fields to all parties that exchange benefit and interests with the university service Society has to give scientific lectures in development courses as well as holding computer courses to train employees and raise their efficiency in its use and improve its performance.

Ways

- 1- Preparing students for the labor market and developing their capabilities to interact and communicate with others through effective participation in the field training program.
- 2- Preparing the curricula for the subjects and materials taught in the scientific departments of institutes and colleges.
- 3- Preparing and preparing scientific staff through graduate programs.
- 4- Interacting with other sciences, especially with mathematics and computer science
- 5- Contributing to the development of statistics science and its branches through innovative scientific research and participating in scientific seminars and conferences and hosting some of them.

The case of the scientific section

First: the teaching staff in terms of

- 1- Modern and accurate scientific specialties Certificates: All the specializations required in the statistical sciences are available in the department, as there are a number of teaching staff in mathematical statistics specialties, as well as the provisions for applied statistics specializations. The department has also been supported with a number of supporting specializations such as computer science, mathematics and economic sciences, but the department lacks to Some rare specializations, such as the jurisdiction of the theory of possibilities.
- 2- The structure of the department- the preparation of the two teachings in relation to the preparation of students: that the number of students in the department that reaches (301) students compared to (18) teaching, or approximately 21 students for each lecture. This number is good for the advancement of the educational reality of the department. As available from teaching cadres, classrooms, and other supplies, it enables the section to advance this number of students.
- 3- The experience of cadres in the field of teaching and scientific research: Most of the teaching staff in the department have sufficient experience in the field of teaching as a result of the number of years they spent in this field, but it is necessary to provide local and international development and training courses for the teaching staff to keep pace with the latest developments in the field of teaching and scientific research
- 4- Ethics of the teaching staff: very good and this is reflected through great respect between students and their professors.
- 5- The commitment of teaching cadres to office hours to follow students and scientific research: There is an excellent commitment to office hours allocated to the teaching staff
- 6- The development of scientific research and books of books: It is not only for the purpose of scientific promotions. Many books have been written and research was published. It was intended to find solutions to various societal problems and in all sectors, not for promotion only
- 7- Development in the curriculum:

The self -evaluation report of the College of Administration and Economics 2022/2023

8- Other service supplies for the service of the teaching staff:

- 1- Teaching offices and their requirements
- 2- Hammamet and toilets:
- 3- Provides computers for teaching:

Weakness points	Strong points
Lack of some exact specializations in statistical sciences, such as the competence of probability theory	1- In the department, most of the scientific specializations are found in the statistics and the specializations 2- There is sufficient scientific titles for a master's degree
Threats	Opportunities
Do not get academic fellowships.	1- Scholarships and academies to obtain specializations that are not available in studying within the country. 2- Expanding the mechanism of research and scientific cooperation with the corresponding departments in Iraqi and international universities through participation in scientific conferences, seminars, workshops and research

Second - Obtaining academic accreditation

- The total number of primary study students and all stages = 301
- The total number of graduate students = 12 courses = 9 writing = 3

And compare it with:

1- Number of classrooms:

- Initial study / The number of classrooms is proportional to the number of students, as the number of halls is (6) halls, which is an appropriate number with the number of students.

Graduate studies / The number of allocated halls is suitable for the number of graduate students.

2- The number of seats:

- Initial study / The department's plan for students' admission is found between (100) students to (150) students annually, but the actually acceptable number does not exceed the plan

Graduate studies / postgraduate studies are suitable for the actually acceptable number in the department.

3- The numbers of the teaching staff:

- The initial study / that the preparation of students in the department that reaches (382) students compared to (18) teaching, that is, approximately 22 students for each teaching, and this number is considered good.

Graduate studies / The number of teaching staff is proportional to the scientific titles with the number of students in postgraduate studies

4- Micro-majors for the teaching staff:

Initial study / The exact majors of the teaching staff are commensurate with the curriculum in the department

Graduate Studies / The accurate specializations of the teaching staff are suitable for the curriculum - for postgraduate studies in the department

5- Numbers of the curriculum books (free education):

Initial study / The preparation of systematic textile books is not commensurate with the number of students in preliminary studies

Graduate studies / free education data is not appropriate to the requirements of postgraduate studies

6- Numbers and diversity of modern scientific sources in the college library:

Initial study / The preparation and diversity of modern scientific sources in the college library is not commensurate with the number of students in preliminary studies

The self -evaluation report of the College of Administration and Economics 2022/2023

- Graduate studies / The preparation and diversity of modern scientific sources in the college library is not commensurate with the requirements of graduate students.

7- Other service requirements for student’s service:

1- Laborators and computer preparation:

Initial study / The number of laboratories and computers is proportional to the number of students of initial studies

Graduate studies / No laboratory or computers are available for graduate students.

2- Availability of the internet: No internet is available

3- Hammamet: The bathrooms are not available in proportion to the number of students

4- Green spaces. Green spaces are available in the college

5- Water colds: Do not

6- Refugee devices: Available

7- Sports stadiums, students' activities and hobbies: They are not available

Weakness points	Strong points
<p>1- A lack of preparing curriculum books with the number of students in preliminary studies</p> <p>2- The preparation and diversity of modern scientific sources in the college library is not commensurate with the number of students in primary and higher studies</p> <p>3-The Internet of Graduate Studies is not available=</p>	<p>1- The number of halls is commensurate with the number of graduate students.</p> <p>2- The number of teachings in the department is appropriate for students admitted to the department</p> <p>3- The numbers of students admitted to graduate seats are compatible with the department's plan.</p> <p>4- The number of teaching staff is proportional to the scientific titles holders with the number of students in postgraduate studies</p> <p>5-The accurate specializations of the teaching staff are commensurate with the curriculum in the department</p>
Threats	Opportunities
The lack of material and financial supplies	The desire to obtain a certificate

Third - Student Affairs

Initial study in terms of

Prepared by admitted students = 97

Admission plan = 150

Admission rates = 60

school system:

1- E-learning

- Electronic education helps increase knowledge to students, except because it cannot be considered the basis for connecting knowledge.

- The state of e -learning in Iraqi colleges needs infrastructure in terms of the speed on the Internet, electronic halls equipped with the Internet and other dedicated devices.

- That students deal with e -learning is not good, as the scientific secretariat is missing by students

- Some basic materials need my presence and cannot be connected using e -learning.

2- Transit System:

- This system is sometimes good, but it confuses the work of the examination committee

- Return the pillars with transit materials more than once, confusing the work of the exam committees.

3- The third floor: Sometimes it is good, as it provides an opportunity for students, especially students who go through special circumstances, but it is often bad, as it leads to the loss of time and the failure to catch students of the third floor with their peers, which leads to the loss of the knowledge value of the students that it will affect them in subsequent years.

The self -evaluation report of the College of Administration and Economics 2022/2023

4- The courses system: a successful system because it provides an opportunity to study the largest number of subjects

5- Return the pillars for previous years: A system that gives the opportunity for students who have special circumstances that were the reason for their promotion, except that the release of the re-promotion order leads to the student's confusion and department.

Weakness points	Strong points
<p>1- E-learning in Iraqi colleges is not qualified, as it needs infrastructure</p> <p>2- Students deal with e-learning needs scientific trust by students</p> <p>3- Difficulty in some of the subjects that need students to attend</p>	<p>1- The department accepts only graduates of the scientific branch</p> <p>2- Provides a lot of specialized workshops on e-learning</p> <p>3- Providing a lot of students, especially students who are absent due to special circumstances in crossing or returning from promotion</p>
Threats	Opportunities
<p>1- The inadequacy of the students in the electronic exam led to the high rates of success in a manner that is not consistent with the scientific reality of students</p> <p>2- The transit system confuses the work of the examination committee</p> <p>3- The third round exams lead to an increase in burdens and delay in the educational process</p>	<p>Providing the appropriate infrastructure for the advancement of e-learning</p>

Graduate studies in terms of

1- Teaching staff:

- The experience of cadres in the field of teaching and scientific research: The teaching staff in the Statistics Department has extensive experience in the field of teaching and scientific research.

- Dependence on modern and developed scientific sources: The teaching staff in the Statistics Department depends on modern scientific sources in teaching the curriculum.

- Certificate - The Scientific Nick: The teaching staff in charge of teaching in postgraduate studies is mostly from a doctorate holder who holds scientific titles (Professor - Assistant Professor)

2- Graduate Students:

- Competition rate for admission: 65

Admission areas: Master

- Preparing admitted students - due to the preparation of the teaching staff in terms of experience, certificate and scientific title = 11 The number of students admitted in postgraduate studies is proportional to the number of teaching staff in the Statistical Department in terms of experience, certificate and scientific title.

Weakness points	Strong points
<p>1- Decreased students 'admission rates</p> <p>2- The lack of a library for postgraduate studies</p> <p>3- Lack of internet</p>	<p>1- Decreased students 'admission rates</p> <p>2- The lack of a library for postgraduate studies</p> <p>3- Lack of internet</p>
Threats	Opportunities
<p>The great expansion by the ministry</p>	<p>Open a high diploma</p>

Fourth – curricula

1- The extent of the percentage of update in the subjects to keep pace with the scientific development and the labor market:

The percentage of update in the subjects is very good.

2- Adopting the English language subject in the curricula and all stages: The English language subject is not adopted in the curricula of all stages, as it is approved for the first stage only.

3- Dependence on curricula with a modern edition: it is somewhat dependent on most subjects on modern sources of the curricula.

4- The preparation of the books of the subjects in (free education) is available to the ratio of the promise of students: the preparation of the books of the subjects in free education is not appropriate with the numbers of students in the department.

The self -evaluation report of the College of Administration and Economics 2022/2023

5- Teaching computers (theoretical- practical) by a specialized teaching staff (computer science) and by relying on modern curricula to keep pace with scientific development: there are professors specialized in teaching computers.

6- Providing computer laboratories with modern capacity and technology and preparing computers that suit the numbers of students: Modern computer laboratories are available with computers that suit the numbers of students.

7- Focusing to rely on teaching (practical + theoretical) some of the subjects to benefit the student in the labor market after graduation: the teaching method (practical + theoretical) is used some subjects to benefit the student in the labor market after graduation.

8- Adoption of courses (courses) instead of the annual system: The courses system is approved instead of the annual system.

Weakness points	Strong points
Preparing books in free education is not commensurate with the numbers of students	1- The presence of a sufficient number of teachings commensurate with the numbers of admitted students 2- Modern books are adopted in teaching subjects 3- The presence of two computer laboratories. 4- The most applied material to benefit the student in the labor market. 5- Adopting the courses system instead of the annual system, which is a good system 6- Some subjects are taught in English
Threats	Opportunities
Lack of financial credits	The continuity of the department and supplied a cadre with the campaign of higher degrees

Fifth - service supplies

1- Study halls and their suitability for teaching (hygiene - lighting - seats - the availability of air fans and air conditioners - windows and curtains - doors of the classroom - etc.): The statistics department is available in the classroom suitable for teaching as they are available in them All paragraphs above

2- Updating and expanding the halls according to the latest specifications and providing them with all modern technologies that serve the teaching process: the halls are sufficient, but the halls are updated periodically

3- Office of the faculty members in terms of the availability of (hygiene- lighting- air conditioners- furniture- computers- internet): faculty members offices with the above paragraphs except for the internet.

4- Bathrooms (bathrooms) in terms of (number- hygiene- water availability): lack of water cycles

5- The availability of safe drinking water refrigerators is not available

Weakness points	Strong points
1- The lack of water refrigerators 2- Lack of bathrooms 3-The lack of an internet network	1- The classroom is appropriate in terms of (hygiene- lighting- seats etc.) 2- Teaching staff offices are available (hygiene- lighting- academic seats, etc.)
Threats	Opportunities
Lack of financial allocations	The desire of the department and the college to provide everything available in order to create opportunities for excellence for students

Self -evaluation of the status of the scientific section

Scientific section strategy

Weakness points	Strong points
Lack of some disciplines	1-There is a desire for the teaching staff to develop the department to open a health statistics branch in the department 2-Preparing scientific titles is sufficient to expand postgraduate studies

The self -evaluation report of the College of Administration and Economics 2022/2023

	3-The presence of many teaching staff who published many research in international magazines
Threats	Opportunities
The inability to increase the desire to join the department because of the nature of the study in the department, which is a theoretical nature	There is an opportunity to develop the department by opening a new branch and expanding postgraduate studies

Teaching staff

Job staff in terms of- :

1 -The improvement and development plan

2 -Preparing the employees actually working

3 -The need for employees in terms of certificate and specialization: There is no need for employees

1 -The extent to which employee offices are suitable (furniture- cooling- heating- computer devices- lighting- hygiene)

1 -The furniture is very appropriate, as the Deanship is kept through the department's head to follow up and perpetuate

2 -Cooling is appropriate, and there is an annual maintenance of the cooling devices

3 -Heating in employee offices, heating devices

4 -Computer devices. The Deanship of the College was kept, through studying the department, by providing a computer for each employee that requires his work

5 -The lighting is very good and appropriate

6 -Cleaning is very good and periodic

2- The planned development courses and the employee participated in: there is no

Head of the Statistics Department

THE RESULTS

• College needs:

Due to the expansion witnessed by the college from opening branches of scientific departments, and in addition to the acceptance of primary school students (morning - evening) and graduate students. And seek to obtain (academic accreditation certificate), so it was necessary

- 1- Providing classrooms with specifications that serve the progress of the study process.
- 2- Providing laboratories to study computers with advanced modern technologies.
- 3- Provides a specialized cadre in teaching computers in laboratories
- 4- Establishing an internet network in laboratories
- 5- Establishing a private library for each of the scientific departments, equipped with modern scientific sources with the Internet for scientific research service.
- 6- Providing rooms for the faculty members, especially for the holders of scientific titles (professor- assistant professor) for the purpose of providing the appropriate atmosphere for scientific research within the college.

• Suggestions:

- 1- Given the central admission of students in numbers that exceed the capacity of the college, where about (1200) students are accepted for each new academic year. Although the construction of the college and its

The self -evaluation report of the College of Administration and Economics 2022/2023

academic halls dates back since the previous decade of the twentieth century and a specific capacity. So we suggest building new classrooms.

2- We suggest speeding up the process of accepting new students, as the late admission to students of the first stage contributes to the lack of completion of the curricula.

3- Serious pursuit of scientific departments obtaining an academic accreditation certificate.

4- To keep pace with scientific development in the world and for the purpose of the development of scientific disciplines in Iraq- Basra University- College of Administration and Economics- therefore we suggest expansion to open.

• Study the higher diploma for the following specializations:

1- Higher diploma in international economic relations.

2- Higher diploma in Islamic economics.

• To specialize in the economy, open branches of the third stage of the initial study: Business Economic Branch.

•Negatives:

1- Accepting numbers of students in the first stage exceeds the plan adopted by the college

2- The financial allocations for maintenance are still few, knowing that the college buildings are old and have eliminated more than (40) years, and therefore you need sufficient amounts for maintenance.

3- There is a delay in completing the scientific plan by the teaching staff in the completion of scientific research.

4- The multiplicity of college buildings and their large size contributed to the dispersion of the special effort in controlling the college facilities, whether it is in providing services at a high level and according to ambition, and the lack of services staff.

5- The lack of teaching staff in the college, which is not commensurate with the size of the college and the number of students in the college, so the college needs grades to set some specialty

6- Lack of important and accurate specializations, especially after a number of teaching staff referred to retirement, especially in the accounting, business administration and statistics departments.

Self-evaluation report, Department of Banking and Financial Sciences

For the academic year 2022/2023

Vision

1- The Department of Banking and Financial Sciences seeks to raise the practical and academic level of students and teaching staff.

2- Our department seeks to keep pace with practical developments in the corresponding scientific departments in international universities.

mission

1- Preparing students to obtain a bachelor's degree in financial and banking sciences.

2- Preparing specialists with advanced degrees (master's) at all monetary and financial levels.

3- Contributing to raising official institutions and departments with the necessary research studies in order to protect themselves from their poor reality.

Objectives

1- The department aims to adopt modern educational means and methods that will help improve the academic performance of students.

2- Seriously striving to provide a better academic climate for students.

3- Work to subject the department to the academic accreditation certificate.

4- Filling the labor market's needs for skilled labor to contribute to economic advancement and growth.

Status of the scientific department

: Teaching staff from were

1- Modern and precise scientific specializations: available in the department

The self -evaluation report of the College of Administration and Economics 2022/2023

- 2- Holders of degrees: The department has a teaching staff who mostly hold doctoral degrees
- 3- Department structure - number of teaching staff relative to the number of students: (1406) Number of primary studies students (25) Postgraduate students/number of teaching staff (31)
- 4- Staff experience in the field of teaching and scientific research: the teaching staff in the department **Highly experienced in the field of teaching and scientific research**
- 5- Ethics of teaching staff: The teaching staff has high professional ethics
- 6- Commitment of teaching staff to office hours in following up on students and scientific research: The teaching staff is committed to following up on students and scientific research on an ongoing basis via social media.
- 7- The development of scientific research and the writing of books: and not only for the purpose of scientific promotions: the movement of scientific research is moderate
- 8- Development in the curriculum: The teaching staff develops or changes the curricula according to the instructions and curricula sent by the Ministry at the beginning of each new academic year.
- 9- Other service supplies for the teaching service:

1-Teachers' desks and supplies: Available

2-Bathrooms and restrooms:2

3-Availability of computers for teachers: unavailable

Weaknesses	strength point
<ul style="list-style-type: none"> 1- The department's admission plan ranges between 150-300 students annually, while there is not a sufficient number of halls to accommodate this sufficient number. 2- The scientific research movement is moderate, as its goal is to obtain scientific promotion without contributing to supporting government institutions 3- Deficiencies in service supplies 	<ul style="list-style-type: none"> 1- The department has a teaching staff with multiple specializations 2- There are various academic degrees in the department, and the majority hold doctoral degrees 3- The department has a teaching staff with solid scientific experience in the field of teaching and scientific research 4- The teaching staff is distinguished by high professional ethics 5- The commitment of teaching staff to follow up on research students through all social media 6- Continuous development of curricula
Threats	Opportunities
<ul style="list-style-type: none"> 1- The number of students increases and the classrooms do not accommodate this large number 2- Failure to compensate staff referred to retirement 	<ul style="list-style-type: none"> 1- The teaching staff seeks to participate in development courses that take place inside and outside the country 2- Serious efforts by the teaching staff to raise the academic level and obtain academic degrees (professorship) 3- There is a clear case of listening to the opinion and advice provided by the university professor.

secondly-Obtaining an academic accreditation certificate

The total number of primary school students for all stages =1406

- Total number of postgraduate students =25Courses = 17Writing =8

And compare it with:

1- Number of classrooms:

- Initial study/16
- Postgraduate studies / 2

2- Number of academic seats:

- Preliminary study/560
- Graduate Studies /25

3- Numbers of teaching staff:

- Preliminary study/36
- Graduate Studies /22

4- Specific specializations of the teaching staff:

- Preliminary study/The department has a teaching staff with diverse precise scientific specializations
- Graduate Studies /The department has a teaching staff with diverse precise scientific specializations

5- Numbers of curriculum books (free education):

The self -evaluation report of the College of Administration and Economics 2022/2023

- Preliminary study/There are not many books and modern sources sufficient for the number of students
- Postgraduate studies / none

6- The number and diversity of modern scientific sources in the college library:

- Preliminary study/There are no modern scientific sources
- Graduate Studies /There are no modern scientific sources

7- Service supplies**Other student services:**

1-Laboratories and computer preparation:

- Preliminary study/1 laboratory and 64 calculators
- Postgraduate studies / none

2-Internet availability: Available

3-Bathrooms: Yes

4-Green spaces: there are

5-Water coolers: none

6-Cooling devices: Yes

7-Sports fields and student activities and hobbies: none

Weaknesses	strength point
1- The lack of a designated hall to begin the procedures for obtaining the certificate and the weakness of financial allocations in this regard 2- Lack of sufficient classroom seats to accommodate the number of students 3- Lack of sufficient teaching staff for the number of students 4- There are a small number of books available in free education, which are not enough for the number of students 5- Lack of modern resources in the college library 6- Lack of sufficient number of laboratories for the number of students. 7- Unavailability of the Internet 8- Poor service in bathrooms 9- Lack of green spaces 10- There are no water coolers	1- The department's efforts in holding scientific seminars and documenting them as activities of the department 2- The presence of a teaching staff with solid scientific experience and various precise specializations 3- Provide sufficient cooling devices for each hall 4- The presence of a teaching staff and granting students free hours to practice students' sports activities and hobbies
Threats	Opportunities
1- The available classrooms and other supplies cannot support this number of students at best, and thus the department's outcomes are generally modest, although there are cases of excellence for a very limited number of students. 2- Lack of material and financial requirements to support this issue - - Failure to compensate staff referred to retirement	1- Serious desire to obtain academic accreditation 2- Providing modern service supplies to serve students 3- Providing the Internet for students to benefit from research and obtain modern sources

Third-students Affairs

Initial studyfrom were

Number of accepted students = 492

Acceptance plan = 150

- Acceptance rates =70

school system:

- 1- E-Learning: nothing
- 2- Transit system: Activate the transit system

The self -evaluation report of the College of Administration and Economics 2022/2023

- 3- Third round: nothing
- 4- Course system: Activate the course system
- 5- Re-registering for previous years: Marqana students who had been registered for previous years were reinstated in their academic seats

Weaknesses	strength point
<ul style="list-style-type: none"> 1- E-learning (students not understanding the material correctly) 2- Low student acceptance rates 3- The Ministry's decision for the third round for students leads to a decrease in the educational level. The first and second round attempts are sufficient to show the student's level 	<ul style="list-style-type: none"> 1- All students are graduates of the literary and scientific stream 2- The presence of a transit system stimulates student morale 3- Returning to the course system due to its compatibility with the capabilities available to the department 4- Returning students whose registrations were canceled to their classrooms
Threats	Opportunities
<ul style="list-style-type: none"> 1- Limited capacity of classrooms 2- The inability of some students to obtain e-learning supplies such as the Internet and calculators 	<ul style="list-style-type: none"> 1- The possibility of accommodating a larger number of students by increasing financial allocations and building a larger number of halls 2- Increasing student acceptance rates 3- Creating simple educational methods and means for the purpose of presenting and delivering the lecture electronically 4- Contribution of primary studies students to practical studies that will advance their academic level

Graduate Studies from were

- 1- Teaching staff:
 - Staff experience in the field of teaching and scientific research: The teaching staff in the department is highly experienced in the field of teaching and scientific research
 - Relying on modern and advanced scientific sources: We rely on modern sources available on the Internet
 - Certificate - academic title: PhD. (Professor Dr. and Assistant Professor Dr.)
- 2- Postgraduate students:
 - Competition rate for admission: The rate is determined according to the Ministry's instructions
 - Fields of admission: Section plan (5) Seats for Master's and (5) and seats For Ph. D
 - Number of accepted students - relative to the number of teaching staff in terms of experience, certificate, and academic title: very good

Weaknesses	strength point
<ul style="list-style-type: none"> 1- Failure to adopt modern teaching methods for postgraduate students 2- Lack of a library for graduate studies 3- Electronic problems due to weak network 	<ul style="list-style-type: none"> 1- The presence of a solid and qualified teaching staff for this purpose, including professors and assistant professors 2- The students enjoy a high academic level and strive seriously to obtain a degree 3- The success rate is acceptable for postgraduate students 4- Students' dissertations and dissertations are submitted within the short period
Threats	Opportunities
<ul style="list-style-type: none"> 1- Instructions for student admission issued only by the Ministry of Higher Education 2- Weak financial allocations in this regard 	<ul style="list-style-type: none"> 1- Increasing student acceptance rates 2- Building classrooms equipped with the latest technology 3- The possibility of expanding the opening of postgraduate programs

Fourthly-educational subjects

- 1- The extent of the modernization of academic subjects to keep pace with scientific development and the labor market:90% of the curricula are updated according to the Ministry's instructions

The self -evaluation report of the College of Administration and Economics 2022/2023

- 2- Adopting the English language subject in the school curricula for all levels: Each stage has two hours per week
- 3- Relying on modern curricula: Modern sources are relied upon in the curricula
- 4- Availability of the number of textbooks for study subjects in (free education) to the ratio of the number of students: It is not only the books distributed by Free Education that are relied upon
- 5- Teaching computer science (theoretical - practical) by a specialized teaching staff (computer sciences) and based on modern curricula that keep pace with scientific development: The department has a specialized teaching staff (computer sciences.)
- 6- Providing computer laboratories with modern capacity and technology and preparing computers suitable for the number of students: There is a laboratoryOneOnly the system is relied upongroupsFor students due to the large number of students in relation to the number of computers in the laboratory
- 7- Focusing on teaching (practical + theoretical) some subjects to benefit the student in the labor market after graduation: nothing
- 8- Approval of academic courses (courses) instead of the annual system: The department is based on the course system, and there are some students returning from promotion for whom the annual system is relied upon

Weaknesses	strength point
<ol style="list-style-type: none"> 1- Many weekly classes for some subjects 2- Lack of computer laboratories suitable for the number of students 3- There are no study materials based on (practical + theoretical) that benefit the student in the labor market other than (computer) 4- Electronic problems faced by students in the school curriculum 	<ol style="list-style-type: none"> 1- The curricula are updated annually according to the Ministry's instructions 2- Adopting the English language subject in the school curriculum 3- Adopting modern sources 4- Availability of sufficient numbers of methodological books 5- The department has a teaching specialty (computer sciences) 6- The curriculum is characterized by series and flow
Threats	Opportunities
<ol style="list-style-type: none"> 1- Lack of financial support from concerned authorities 2- The powers are linked to the higher authorities (the Ministry) without delegating to the lower authorities, the college or university 3- Society rejects the idea of e-learning in a way that causes psychological anxiety for the student 	<ol style="list-style-type: none"> 1- The possibility of qualifying some teaching staff through holding training courses 2- Diversify and update sources 3- Approaching curricula with what benefits the student in the labor market

Fifth-Service supplies

- 1- Classrooms and their suitability for teaching (cleanliness - lighting - classroom seats - availability of fans and air conditioners - windows and curtains - classroom doors - etc.):
- 2- Modernizing and expanding the halls according to the latest specifications and providing them with all modern technologies that serve the teaching process:
- 3- Faculty members' offices in terms of availability (cleanliness, lighting, air conditioners, modern furniture, computers, and the Internet)
- 4- Toilets (bathrooms) in terms of (number - cleanliness - availability of water):
- 5- Provides drinking water coolers

Weaknesses	strength point
<ol style="list-style-type: none"> 1- Lack of sufficient numbers of classrooms to suit the annual increase in the number of students 2- Lack of expanding the halls and providing them with all modern technologies 3- Poor service in bathrooms 4- Lack of drinking water coolers 	<ol style="list-style-type: none"> 1- Providing fans and air conditioners in classrooms 2- The presence of a sufficient number of faculty members' offices
Threats	Opportunities
<ol style="list-style-type: none"> 1- Lack of financial allocations that would increase the service reality of the department 2- The department lacks modern teaching methods 3- There is no Internet connection in the department 	<p>Provides the desire of the concerned authorities to address weaknesses and develop the reality of the department's condition</p>

Self-evaluation of the status of the scientific department

Strategy of scientific department

Weaknesses	strength point
1- Lack of classrooms with modern means 2- Lack of some specializations 3- Deficiencies in service supplies	1- The contribution of both students and teaching staff to developing the reality of the department 2- The presence of an administrative staff with extensive experience in administrative work 3- The presence of a large number of professors who hold the title of professor 4- The department's efforts in holding scientific seminars and documenting them as activities of the department 5- Cooperation between teaching staff in order to provide educational services to students 6- Success rates are acceptable
Threats	Opportunities
1- There is no special hall for seminars and discussions in the department 2- Lack of financial allocations that would increase the service reality of the department 3- The department lacks modern teaching methods 4- The powers are linked to the higher authorities (the Ministry) without delegating to the lower authorities, the college or university	1- There is great support from the department from the college dean 2- The department head's serious endeavors to develop all the department's affairs 3- There is a clear case of listening to the opinion and advice provided by the university professor

Prof. Dr. Montazer Fadel Saad Head of the Department of Banking and Financial Sciences

Results

• College needs:

Due to the expansion witnessed by the college in terms of opening branches of scientific departments, and an increase in the acceptance of undergraduate students (morning - evening) and postgraduate students. Striving to obtain (academic accreditation certificate) is therefore necessary

- 1- Providing classrooms with specifications that serve the course of the academic process.
- 2- Providing laboratories for studying computer science with advanced modern technologies.
- 3- Providing a teaching staff specialized in teaching computer science in laboratories
- 4- Establishing a private Internet network in laboratories
- 5- Establishing a special library for each scientific department, equipped with modern scientific sources and an Internet network to serve scientific research.
- 6- Providing rooms for faculty members, especially those holding academic titles (professor - assistant professor), for the purpose of providing the appropriate atmosphere for scientific research within the college.

• Suggestions:

- 1- Due to the central admission of students in numbers that exceed the college's absorptive capacity, about (1,200) students are accepted for each new academic year. Although the construction of the college and its classrooms dates back to the previous decade of the twentieth century and has a certain capacity. Therefore, we propose building new classrooms.
- 2- We suggest accelerating the process of accepting new students, as late admission of first-year students contributes to not completing the curriculum.
- 3- Striving seriously for scientific departments to obtain a certificate of academic accreditation.
- 4- To keep pace with scientific development in the world and for the purpose of developing scientific specializations in Iraq - University of Basra - College of Administration and Economics - so we propose expansion by opening.
 - Higher diploma studies in the following specializations:
 - 1- Higher Diploma in International Economic Relations.
 - 2- Higher Diploma in Islamic Economics.

The self -evaluation report of the College of Administration and Economics 2022/2023

- To specialize in economics, branches of the third stage of preliminary study are opened:
Branch of Business Economics.
- **Negatives:**
 - 1- Accepting numbers of students in the first stage exceeds the plan adopted by the college
 - 2- Financial allocations for maintenance are still small, given that the college buildings are old and have been in use for more than 40 years, and therefore require sufficient amounts for maintenance.
 - 3- There is a delay in completing the scientific plan on the part of the teachers in completing scientific research.
 - 4- The multiplicity of the college's buildings and its large size contributed to the dispersion of the private effort in controlling the college's facilities, whether in providing services at a high level and according to ambition, and the lack of service staff.
 - 5- The lack of teaching staff in the college, which is not proportional to the size of the college and the number of students in the college, so the college needs grades to assign some specializations.
 - 6- Lack of scientific specialization the mission And the minute Especially after a number of teaching staff were referred for retirement, especially in the accounting, business administration and statistics departments.

Self -evaluation report, Department of management Information Systems For the academic year 2022/2023

The vision

The vision of the Department of Administrative Information Systems is to provide students with academic knowledge about the basics of business management and software, computer languages and them technologies, information and communications systems, as well as practical skill knowledge about the use of administrative, productive, marketing and human resources applications by adopting computer and information and communication technologies. We seek excellence and leadership scientifically and practically in a social educational environment open to the future.

The mission

The mission of the Department of Administrative Information Systems is to spread science and knowledge in the fields of management, economics, computer and decisions. The department seeks to raise the rate of employment of its graduates by providing them with the competencies and practical and scientific skills in the field of administrative information systems and business technology to support development towards the knowledge economy and the information community, by holding partnerships with the business sector and giving greater attention to the applied aspect of information systems in the business sector.

The goals

The administrative information systems department aims to prepare the student cognitively and professionally in the field of information systems and its applications and the use of information and communications technologies in business organizations and public administration at the level of primary study and higher study, and thus a competent staff will be created capable of meeting the needs of society in the labor market from specialists in this field.

It also seeks to provide high -quality education in the field of administrative information systems and business technology for students in a manner consistent with their various interests and professional expectations and is commensurate with the needs of the labor market.

1- Preparing students to apply their knowledge in the field of work using problem-solving tools and techniques.

2- Preparing students to learn lifelong by giving them the knowledge and skills necessary for scientific

The self -evaluation report of the College of Administration and Economics 2022/2023

research and decision-making.

3- Increasing cooperation with the business sector, which enriches the scientific and applied skills of graduates to help them find job opportunities after graduation.

4- Commitment to high professionalism and continuous improvement in the teaching and learning process is consistent with the guidelines of the quality used at the university.

5- Building partnerships and communicating with organizations in the public and private sectors to touch and understand the problems related to information to provide creative solutions based on sound scientific and knowledge foundations.

6- Caring for the academic excellence of the department by focusing on scholarships for distinguished and competent students, providing and updating scientific sources such as books, scientific journals and databases and promoting scientific capabilities among faculty members by encouraging them to participate in conferences, workshops and courses.

The case of the scientific section

First: the teaching staff: in terms of

1- Modern and accurate scientific disciplines.

2- Certificates.

3- The structure of the department- the numbers of the two teachings in relation to the number of students.

4- The experience of cadres in the field of teaching and scientific research.

5- Ethics of teaching cadres.

6- Commitment to teaching cadres in office hours to follow students and scientific research.

7- The development of scientific research and the authoring of books: not only for the purpose of scientific promotions.

Weak points	Strong points
1-Lack of the most severe teaching staff 2-There are a very small number of teaching staff with higher degrees (doctorate) 3- The presence of a few books born	1 -The department has a teaching staff with solid scientific experience and modern and accurate scientific specialties 2 -The department has a team with a variety of certificates between masters and doctorates 3 -Inforcing the preparation of the two teachings in relation to the number of students 4 -The department has a teaching staff with high moral experience in the field of teaching and scientific research 5- The commitment of the teaching staff to the office hours to follow up the research students
Threats	Opportunities
1 -The teaching staff seeks to develop scientific research and books of books 2- Students' complaints about dry or difficult dealing with students at times	1- The teaching staff seeks to participate in the various development courses 2-Serious pursuit by the teaching staff to raise the scientific level and obtain degrees 3- Seek to increase the numbers of the teaching staff

Second - obtaining an academic accreditation certificate

-The total number of primary study students and all stages = 433

-The total number of graduate students = no

And compare it with

1 -Number of classrooms

Initial study / The number of classrooms is not appropriate for the number of students, as the number of halls is (4) halls, which is a very small number compared to the number of students

The self -evaluation report of the College of Administration and Economics 2022/2023

2 -The number of seats

Initial study(150) /

3 -Preparing the teaching staff

Initial study / The number of students in the department that reaches (433) students compared to (13) teaching

4 -Micro-majors for the teaching staff

Initial study / The accurate scientific specializations of the teaching staff are commensurate with the curriculum in the department

5 -Preparing the curriculum books (free education)

Initial study / The preparation of the curriculum books is not commensurate with the number of students in preliminary studies

6 -Preparing and diversifying modern scientific sources in the college library

Initial study / The preparation and diversity of modern scientific sources in the college library is not commensurate with the number of students in preliminary studies

7 -Other service supplies to serve students

Initial study / The preparation and diversity of modern scientific sources in the college library is not commensurate with the number of students in preliminary studies

Other service supplies to serve students:

A- Laborators and computer preparation

-Initial study / The number of laboratories and computers is not suitable for the number of initial studies students, as the number of computers is 50 calculators and one laboratory

B- Availability

C- The bathrooms: The bathrooms are not available in proportion to the numbers of students

W- Green spaces: green spaces are available in the college

C- Water colds: Not available

H- The cooling devices: available where they are limited

X- Sports stadiums and the practice of students' activities and hobbies: they are not available

Weaknesses	strength point
The number of students is not suitable for the numbers of halls and laboratories	The exact majors of the students are suitable for the curriculum
Threats	Opportunities
The number of books is not suitable for students' preparation	There is a real and serious desire to obtain academic accreditation

Third - Student Affairs

Initial study: in terms of

1- The numbers of admitted students = 150

The self -evaluation report of the College of Administration and Economics 2022/2023

2- With regard to the admission plan = 200

3- Admission rates = 65

Study system

1- E-learning: There is

2- Transit System: There is

3- The third floor:

4- Course system:

5- Courses system: There is

6- Return of the pillars from previous years: There is no

Weakness points	strength point
1 -Decreased students 'admission rates 2- The failure of students of primary studies to contribute to practical studies that would advance the scientific level for them	Gathering students from the graduates of the literary and scientific branches
Threats	Opportunities
The limited capacity of the classrooms and thus lack	The possibility of accommodating more numbers than students by increasing financial allocations and building a larger number of halls

Fourth - Curriculum: In terms of

1 -The extent of the update rate in the subjects to keep pace with the scientific development and the labor market: updating 50%

2 -Adopting the English language subject in the curricula and for all stages: exist

3 -Dependence on curricula with a modern edition: exist

4 -Teaching computers (theoretical- practical) by a specialized teaching staff (computer science) and based on modern curricula to keep pace with scientific development: there is

5 -Providing computer laboratories with modern capacity and technology and the numbers of computers that suit the number of students. There is a computer preparation laboratory that does not suit the number of students

6 -Focusing to rely on teaching (practical + theoretical) some subjects to benefit the student in the labor market after graduation.

7- Adoption of courses (courses) instead of the annual system: there

Weak points	Strong points
1 -The large number of weekly shares for some materials 2- The lack of methodological books	1-The percentage of update in the subjects is appropriate for what accompanies the scientific development and the labor market 2-Dependence on curricula with a modern edition 3-Computer (theoretical - practical) is taught by the teaching (M. Ahmed Nasser Ismail) with a specialty (computer science) and based on modern curricula 4- In the section there is a computer laboratory and computer devices

The self -evaluation report of the College of Administration and Economics 2022/2023

	5-Most materials are taught (theoretical- practical) and the materials as follows: (Databases programming in C ++ _ Marketing Information Systems _ Accounting Information Systems) 6-The curriculum system (courses) has been approved for the first stage
Threats	Opportunities
1-Lack of financial support from the concerned authorities 2-The powers are linked to the higher authorities (the ministry) without authorizing the minimum entirety or university	The possibility of qualifying some of the teaching masters by holding training courses

Fifth - Sector requirements: in terms of

1 -School halls and their suitability for teaching (hygiene - lighting - study seats - the availability of air fans and air conditioners - windows and curtains - the doors of the classroom - etc.)

2 -Updating and expanding the halls according to the latest specifications and providing them with all modern technologies that serve the teaching process

3- The offices of the faculty members in terms of the availability of (hygiene- lighting- air conditioners- furniture).

Weakness points	Strong points
1-The department's lack of modern teaching means 2- There is no sufficient number of classrooms	1-The presence of a sufficient number of seats allocated to students 2- The offices of the faculty members are good
Threats	Opportunities
Lack of financial allocations that the service of the service reality of the department	Provides the desire of the concerned authorities to address weaknesses and develop the reality of the department's condition

Self -evaluation of the status of the scientific section Scientific section strategy

Weakness points	Strong points
1-Lack of some specializations, as the department is new 2-A small number of classrooms are not appropriate for students' numbers	1-The only section in the southern and central region, and thus the possibility of attracting a large number of students in the event of the necessary halls 2-The contribution of both students and teaching staff to developing the reality of the department
Threats	Opportunity
The lack of a special hall for seminars and discussions in the department as well as for the examination committee	1-The presence of great support for the department from the Deanship of the College 2- Serious pursuit of the head of the department to develop all the department's belongings

Teaching staff

The results

College needs

Due to the expansion witnessed by the college from opening branches of scientific departments, and in addition to the acceptance of primary school students (morning - evening) and graduate students. And seek to obtain (academic accreditation certificate), so it was necessary

- 1 -Providing classrooms with specifications that serve the progress of the study process.
- 2 -Providing laboratories to study computers with advanced modern technologies.
- 3 -Provides a specialized cadre in teaching computers in laboratories
- 4 -Establishing an internet network in laboratories
- 5 -Establishing a private library for each of the scientific departments, equipped with modern scientific sources with the Internet for scientific research service.
- 6- Providing rooms for the faculty members, especially for the holders of scientific titles (professor-assistant professor) for the purpose of providing the appropriate atmosphere for scientific research within the college.

Suggestions:

- 1-Given the central admission of students in numbers that exceed the capacity of the college, where about (1200) students are accepted for each new academic year. Although the construction of the college and its academic halls dates back since the previous decade of the twentieth century and a specific capacity. So, we suggest building new classrooms
 - 2-We suggest speeding up the process of accepting new students, as the late admission to students of the first stage contributes to the lack of completion of the curricula.
 - 3-Serious pursuit of scientific departments obtaining an academic accreditation certificate
 - 4-To keep pace with scientific development in the world and for the purpose of the development of scientific disciplines in Iraq- Basra University- College of Administration and Economics- therefore we suggest expansion to open
- *Study the higher diploma for the following specializations
- 1-Higher diploma in international economic relations.
 - 2-Higher diploma in Islamic economics
- *To specialize in the economy, open branches of the third stage of the initial study: Business Economic Branch.

Negatives:

- 1- Accepting numbers of students in the first stage exceeds the plan adopted by the college
- 2- The financial allocations for maintenance are still few, knowing that the college buildings are old and have eliminated more than (40) years, and therefore you need sufficient amounts for maintenance.
- 3- There is a delay in completing the scientific plan by the teaching staff in the completion of scientific research.

The self -evaluation report of the College of Administration and Economics 2022/2023

4- The multiplicity of college buildings and their large size contributed to the dispersion of the special effort in controlling the college facilities, whether it is in providing services at a high level and according to ambition, and the lack of services staff.

5- The lack of teaching staff in the college, which is not commensurate with the size of the college and the number of students in the college, so the college needs grades to set some specialty

6- Lack of important and accurate specializations, especially after a number of teaching staff referred to retirement, especially in the accounting, business administration and statistics departments.
