Academic Program and Course Description Guide

2024

Introduction:

The educational program is a well-planned set of courses that include procedures and experiences arranged in the form of an academic syllabus. Its main goal is to improve and build graduates' skills so they are ready for the job market. The program is reviewed and evaluated every year through internal or external audit procedures and programs like the External Examiner Program.

The academic program description is a short summary of the main features of the program and its courses. It shows what skills students are working to develop based on the program's goals. This description is very important because it is the main part of getting the program accredited, and it is written by the teaching staff together under the supervision of scientific committees in the scientific departments.

This guide, in its second version, includes a description of the academic program after updating the subjects and paragraphs of the previous guide in light of the updates and developments of the educational system in Iraq, which included the description of the academic program in its traditional form (annual, quarterly), as well as the adoption of the academic program description circulated according to the letter of the Department of Studies T 3/2906 on 3/5/2023 regarding the programs that adopt the Bologna Process as the basis for their work.

In this regard, we can only emphasize the importance of writing an academic programs and course description to ensure the proper functioning of the educational process.

Concepts and terminology:

Academic Program Description: The academic program description provides a brief summary of its vision, mission and objectives, including an accurate description of the targeted learning outcomes according to specific learning strategies.

Course Description: Provides a brief summary of the most important characteristics of the course and the learning outcomes expected of the students to achieve, proving whether they have made the most of the available learning opportunities. It is derived from the program description.

Program Vision: An ambitious picture for the future of the academic program to be sophisticated, inspiring, stimulating, realistic and applicable.

Program Mission: Briefly outlines the objectives and activities necessary to achieve them and defines the program's development paths and directions.

Program Objectives: They are statements that describe what the academic program intends to achieve within a specific period of time and are measurable and observable.

Curriculum Structure: All courses / subjects included in the academic program according to the approved learning system (quarterly, annual, Bologna Process) whether it is a requirement (ministry, university, college and scientific department) with the number of credit hours.

Learning Outcomes: A compatible set of knowledge, skills and values acquired by students after the successful completion of the academic program and must determine the learning outcomes of each course in a way that achieves the objectives of the program.

Teaching and learning strategies: They are the strategies used by the faculty members to develop students' teaching and learning, and they are plans that are followed to reach the learning goals. They describe all classroom and extra-curricular activities to achieve the learning outcomes of the program.

Academic Program Description Form

University Name: University of Basrah

Faculty/Institute: College of Nursing

Scientific Department: Department of Community Health Nursing

Academic or Professional Program Name: BSc in Nursing

Final Certificate Name: BSc in Nursing

Academic System: Courses

Description Preparation Date: 05/10/2023

File Completion Date: 25/02/2024

Signature:

Head of Department Name:

Lec. Dr. Firas A. Jassim

Date: 25/02/2025

Signature:

Scientific Associate Name:

Assist. Prof. Dr. Sundus B. Dawood

Date: 25/02/2024

Approval of the Dean

١. Program Vision

The College of Nursing at the University of Basrah seeks to match nursing colleges at the local and international levels by highlighting the quality of medical and nursing education and its reflection on its outputs from graduates who possess competence, excellence, and the ability to provide comprehensive nursing care in the field of community service in all aspects of health care, whether in primary health centers or in Hospitals. The college also seeks to distinguish itself among its counterparts through solid scientific research that provides solutions to society's problems in accordance with the vision of the University of Basrah.

٢. Program Mission

Supporting health institutions with scientifically and practically qualified nursing staff capable of dealing with various medical conditions and providing effective, high-quality health services to improve and enhance citizen health.

٣. Program Objectives

- 1- Preparing highly qualified university nursing staff who possess a high sense of responsibility to provide preventive, curative and rehabilitative nursing services to the individual and family.
- 2- Addressing the shortage of qualified nursing personnel, especially women, in the field of health services.
- 3- Developing the reality of nursing through conducting nursing research.
- 4- Strengthening the role and status of nursing staff in health institutions.
- 5- Striving to expand admission to both primary and postgraduate studies.
- 6- Striving to provide advanced scientific laboratories.

ε. Program Accreditation

It has been applied for.

ο. Other external influences

Educational hospitals, library, internet, community, nursing union.

Ϛ. Program Structure

Program Structure	Number of Courses	Credit hours	Percentage	Reviews*
Institution Requirements				
College Requirements				
Department Requirements	1	2	100%	Basic course
Summer Training	No			
Other				

* This can include notes whether the course is basic or optional.

ϛ. Program Description

Year/Level	Course Code	Course Name	Credit Hours	
2023-2024 / Third	RSM302	Research Methods in Nursing	theoretical	practical
			2	-

٨. Expected learning outcomes of the program

Knowledge

Teach the students the definition, purpose, and characteristics of the nursing research.

Skills

Demonstrate the steps of writing a scientific nursing research.

Identify the sources of nursing research.

Ethics

Developing students' abilities to share ideas.

Developing the student's skill and knowledge in writing and review a scientific nursing research.

٩. Teaching and Learning Strategies

Lectures, Group Discussion, Group Projects, and Presentations.

١٠. Evaluation methods

Quizzes, monthly examinations, reports and final examinations.

١١. Faculty

Faculty Members

Academic Rank	Specialization		Special Requirements/Skills (if applicable)	Number of the teaching staff	
	General	Special		Staff	Lecturer
Lecturer, Dr.	Medicine	Diagnostic Radiology		1	None
Lecturer	Chemistry	Biochemistry		1	None

Professional Development

Mentoring new faculty members

Preparing seminars and introductory courses for new teachers, holding periodic meetings to familiarize them with work contexts, daily guidance, continuous follow-up, and giving advice and directions.

Professional development of faculty members

Continuous learning through searching for new developments using the library and the Internet, in addition to attending specialized scientific seminars and seminars, as well as active attendance in educational hospitals to hone skills.

١٢. Acceptance Criterion

Continuous learning through searching for new developments using the library and the Internet, in addition to attending specialized scientific seminars and seminars, as well as active attendance in educational hospitals to hone skills.

١٣. The most important sources of information about the program

1- Denise F. Polit and Bernadette P. Hungler, Nursing research – principles and methods – Lippincott Williams & Wilkins; (2003) 7th edition.

2- Rose Marie Nieswiadomy and Catherine Bailey, Foundation of nursing research, Pearson; 7th edition (2017).

3- Denise F. Polit and Cheryl T. Beck, Essential of nursing research: Appraising Evidence for Nursing Practice, LWW; 9th edition (2017).

۱۴. Program Development Plan

- 1- Increase the ability to differentiate between the different research hypothesis.
- 2- Illustrate the modern methods of measurements and data collection.
- 3- Use the new technology in identify, write and review nursing researches.

Program Skills Outline

Course Description Form

١. Course Name:	
Research Methods in Nursing	
٢. Course Code:	
RSM302	
٣. Semester / Year:	
First Semester / Third Year	
٤. Description Preparation Date:	
25/02/2024	
٥. Available Attendance Forms:	
Attendance only	
٦. Number of Credit Hours (Total) / Number of Units (Total)	
30 hours in the semester. 2 theoretical hours per week.	
٧. Course administrator's name (mention all, if more than one name)	
Name: Lec. Dr. Husham Hussein Abdul Ra'oof Email: hosham.hossain@uobasrah.edu.iq Name: Lec. Sadoun Abbas Alsalimi Email: sadoun.alsalimi@uobasrah.edu.iq	
٨. Course Objectives	
Course Objectives	<ol style="list-style-type: none"> 1- Define and explain the different types of scientific researches. 2- Demonstrate scientific research concept. 3- Illustrate the characteristics of scientific research. 4- Define research hypothesis. 5- Identify the sources of research problems. 6- Explain the purpose of nursing research. 7- Demonstrate the steps of reviewing and writing a scientific nursing research. 8- Considerations and requirements of scientific nursing research.
٩. Teaching and Learning Strategies	
Strategy	Brain Storm, Group Discussion,, Group Projects, and Presentations.
١٠. Course Structure	

Week	Hours	Required Learning Outcomes	Unit or subject name	Learning method	Evaluation method
1	2	1- Teach the students the definition, purpose, and characteristics of the nursing research. 2- Demonstrate the steps of writing a scientific nursing research. 3- Identify the sources of nursing research. 4- Developing students' abilities to share ideas. 5- Developing the student's skill and knowledge in writing and review a scientific nursing research.	Scientific research1	Lectures, Group Discussion, Group Projects, and Presentations.	Quizzes, monthly examinations, reports and final examinations.
2	2		Scientific research2		
3	2		Research steps 1		
4	2		Research steps 2		
5	2		Research problems		
6	2		Literature review		
7	2		Sampling 1		
8	2		Sampling 2		
9	2		Experiment studies		
10	2		Data Measurement		
11	2		Data Collection 1		
12	2		Data Collection 2		
13	2		Data Collection 3		
14	2		Data Collection 4		
15	2		Data Discussion		

۱۱. Course Evaluation

Distributing the score out of 100 to:

- 1- 30 score: for the tasks assigned to the student such as quizzes, monthly exams, and reports.
- 2- 70 score: for the final exam.

۱۲. Learning and Teaching Resources

Required textbooks (curricular books, if any)	None.
